Plants	Insects	Amount ORTHENE 75 S	Time of Application	Recommended Application
Crape Myrtle	Aphids	3 to 4 level Tbs. (0.8 - 1.1 oz.) per 1 Tbs. of water.	As aphids begin to appear.  Multi-trunk  Single trunk	Make a paint-on slur by mixing the specified amount of ORTHENE 75 Soluble Powder with tablespoon of water. Remove the loose bark from the trunk areas to be treated. Completely paint a band around each trunk to a width twice its diameter. Application should be made to trunks within a zone to 12 inches above the ground and below the point where branching begins. For multi- trunk plants be certain to treat all trunks. For either single or multi-trunk plants, application should be made as low as possible within the recommended treatment zone.
