ORTHO Dairy & Horse Fly Spray R

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION

Harmful if swallowed

Note to Physicians: Emergency Information— call (415) 233-3737

Do not remain in treated areas and ventilate the area after treatment is completed

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Keep out of lakes, streams or ponds

PHYSICAL OR CHEMICAL HAZARDS

COMBUSTIBLE. KEEP OUT OF REACH OF CHILDREN. DO NOT USE OR STORE near heat, open flame, sparks or hot surfaces. **USE ONLY IN WELL VENTILATED AREA.** Keep container closed. Clean up spills immediately. Liquid evaporates and forms vapor (fumes) which can catch fire and burn with explosive violence. Invisible vapor spreads easily and can be set on fire by many sources such as pilot lights, welding equipment and electrical motors and switches. Fire hazard is greater as liquid temperature rises above 85 F.

DO NOT weld, heat or drill this container. Replace cap or bung. Emptied container still contains hazardous or explosive vapor or liquid

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling

READ ENTIRE LABEL. USE STRICTLY IN ACCORDANCE WITH PRECAUTIONARY STATEMENTS AND DIRECTIONS, AND WITH APPLICABLE STATE AND FEDERAL REGULATIONS

STORAGE AND DISPOSAL

PROHIBITIONS

Do not contaminate water, food or feed by storage, disposal or cleaning of equipment
Open dumping is prohibited

STORAGE

Keep pesticide in original container

Do not put concentrate or dilute into food or drink containers

For help with any spill, leak, fire or exposure involving this material, call day or night (415) 233-3737

PESTICIDE DISPOSAL

Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility

CONTAINER DISPOSAL

Triple rinse (or equivalent). Do not reuse container. Offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill, or dispose of by other procedures allowed by State and local authorities

ORTHO Dairy & Horse Fly Spray R is a specially formulated spray designed to kill and repel flies and certain other insects attacking livestock. It is also effective as a space spray to kill flies in barns, milk rooms, homes, restaurants and food processing plants.

DIRECTIONS

DAIRY STOCK AND OTHER ANIMALS (such as Horses, Beef Cattle, Hogs, Sheep) for protection against Face Flies, Horn Flies, House Flies, Stable Flies, Mosquitoes and Gnats. Apply undiluted as a fine mist type spray with a convenient atomizer type sprayer. Coarse droplets must be avoided. Apply just enough spray to wet the ends of the hair but not enough to wet the hide. Pay particular attention to face, head, backs, bellies and shoulders. Avoid areas around nose, eyes and mouth. One to two ounces is enough to treat an adult cow. Apply daily for 3 to 4 days. Repeat applications every 2 to 3 days as usually sufficient to keep flies under control. When flies are particularly heavy, additional treatments may be necessary. Be sure teats and udders of milking animals are washed with warm water prior to milking. Calves should be sprayed very lightly once a day.

DAIRY BARN, MILK ROOMS, MILKING BARN, CALF PENS, HORSE STALLS, LIVESTOCK QUARTERS. Flies, Mosquitoes, Gnats. Close all doors and windows where possible, then spray all parts of the room thoroughly. Use approximately two ounces of ORTHO Dairy & Horse Fly Spray R to each 1,000 cubic feet of space. Direct the spray toward the ceiling and upper areas of the building, concentrating on beams, rafters and other areas where flies congregate. Doors and windows may be opened after ten to fifteen minutes. Sweep up and destroy all fallen insects. Treat daily as required. Do not contaminate milk, milk handling equipment, feed or drinking water. Do not use in poultry houses.

ANTS. Direct spray along runways, baseboards and other places, where these insects congregate. If possible, spray directly on insects themselves. Also treat behind shelving, bookcases and storage areas. Repeat as necessary.

FLEAS. Spray floors, rugs, animals, sleeping quarters and other areas. Repeat as necessary.

BUILDINGS (such as Homes, Restaurants, Food Processing Plants). Apply as a fine mist type space spray with a convenient atomizer type sprayer. Minimize the room with mist. Coarse droplets must be avoided. No dilution is necessary. Use as a space spray in food processing plants only when plant is not in operation. Foods should be removed or covered during treatment. All food processing surfaces should be covered or thoroughly cleaned before using.

FOR A COMPLETE FLY CONTROL PROGRAM IN AND AROUND BUILDINGS. Use ORTHO Malathion 50 Insect Spray as residual control against stable flies and house flies. Sanitation is also important.

CONDITIONS OF SALE. 1. Chevron Chemical Company (Chevron) warrants that this material conforms to the chemical description on the label and is reasonably fit for use as directed hereon. Chevron neither makes nor authorizes any agent or representative to make any other warranty of FITNESS or MERCHANTABILITY, guaranteed or representation, express or implied, concerning this material.

2. Critical and unforeseeable factors beyond Chevron's control prevent it from eliminating all risks in connection with the use of chemicals. Such risks include, but are not limited to damage from application, lack of complete control, and damage caused by drift. Such risks occur even though the product is reasonably fit for the uses stated hereon and even though label directions are followed. Buyer and user acknowledge and assume all risks and liability (except those assumed by Chevron under 1 above) resulting from handling, storage, and use of this material.
