Walnut Creek, CA 94596

Subject: Label Amendment – Adding supplemental label to master label stamped
10/21/2015
Product Name: V-10233 Herbicide
EPA Registration Number: 59639-193
Application Date: 11/24/2015
Decision Number: 511651

Dear Ms. Schlekau:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

EPA Reg. No. 59639-193
Decision No. 511651

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Lisa Pahl by phone at (703) 347-0459, or via email at pahl.lisa@epa.gov.

Sincerely,

A handwritten signature in cursive script that reads "Heather Garvie".

Supplemental Label

V-10233 HERBICIDE EPA Reg. No. 59639-193

V-10233 HERBICIDE FOR USE ON BAHIAGRASS AND BERMUDAGRASS IN NON-CROP AREAS

This supplemental label expires October 21, 2018 and must not be used or distributed after this date.

THIS LABELING MUST BE IN THE POSSESSION OF THE USER AT THE TIME OF APPLICATION. READ THE LABEL AFFIXED TO THE CONTAINER FOR V-10233 HERBICIDE BEFORE APPLYING. USE OF V-10233 HERBICIDE ACCORDING TO THIS LABELING IS SUBJECT TO THE USE PRECAUTIONS AND LIMITATIONS IMPOSED BY THE LABEL AFFIXED TO THE CONTAINER FOR V-10233 HERBICIDE

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

V-10233 Herbicide may be used to promote the growth of (release of) bermudagrass and bahiagrass in non-crop sites where V-10233 herbicide is labeled for bare ground weed control and low maintenance vegetation and erosion control is desired. These sites include roadsides, utility rights-of-way, railroad crossings, airports and other non-crop sites. Application of V-10233 Herbicide may result in unacceptable injury to other grasses. Do not apply V-10233 Herbicide in residential and commercial landscapes, golf courses or sod farms.

APPLICATION TIMING

Apply V-10233 Herbicide during the fall, winter or spring when bahiagrass and bermudagrass are dormant or semi dormant (not actively growing). Optimal application timing is before germination of target weeds, but V-10233 Herbicide will also provide early postemergent control of small emerged weeds. Application of V-10233 Herbicide to actively growing bahiagrass and bermudagrass may injure foliage and temporarily suppress growth, but V-10233 Herbicide has limited systemic activity and bahiagrass and bermudagrass will typically outgrow injury.

PREEMERGENCE APPLICATION

Apply V-10233 Herbicide at 6 to 10 oz/A as a preemergence application. Moisture is necessary to activate V-10233 Herbicide on soil for residual weed control. Dry weather following application of V-10233 Herbicide may reduce effectiveness.

POSTEMERGENCE APPLICATION

Apply V-10233 Herbicide at 6 to 10 oz/A plus an adjuvant (0.25% v/v non-ionic surfactant or 1 qt/A crop oil concentrate). The addition of an adjuvant enhances V-10233 Herbicide activity on emerged weeds. Thorough spray coverage is necessary to maximize the postemergence activity of V-10233 Herbicide. Small emerged weeds are suppressed or controlled with V-10233 Herbicide; however, translocation of V-10233 Herbicide within a weed is limited, and optimal control requires thorough spray coverage and the addition of an adjuvant. The most effective postemergence weed control with V-10233 Herbicide occurs when applied in combination with a surfactant to weeds less than 2 inches in height. Use a tank mix partner in combination with V-10233 Herbicide for the postemergence control of weeds larger than 2 inches. Tank mixing V-10233 Herbicide with other herbicides may increase the potential for bahiagrass and bermudagrass injury or growth suppression.

IMPORTANT: Read and follow label directions for all tank mix products before using. Confirm that the tank mix partners are registered for use on bahiagrass and bermudagrass. Always follow the most restrictive labeling of any tank mix product.

PLEASE CONTACT VALENT U.S.A. CORPORATION AT 800-6-VALENT (682-5368) TO DETERMINE IF THIS USE IS REGISTERED IN YOUR STATE.
