US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (TS-767) WASHINGTON, DC 20460	EPA REGISTRATION NO. 59682-3	DATE OF ISSUANCE JUL 24 1996
	TERM OF ISSUANCE	
	NAME OF PESTICIDE PRODUCT Fast Attack	
NOTICE OF PESTICIDE: <input checked="" type="checkbox"/> REGISTRATION <input type="checkbox"/> REREGISTRATION (Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)		
NAME AND ADDRESS OF REGISTRANT (Include ZIP code)  Controlled Release Technologies, Inc. 18167 US 19 North Suite #270 Clearwater, Fl 34624		
NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.		
On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.		
A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.		
Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.		
This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:		
<ol style="list-style-type: none"> <li>1. Submit and/or cite all data required for registration/re-registration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similiar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.</li> <li>2. Make the labeling changes listed below before you release the product for shipment:           <ol style="list-style-type: none"> <li>a. Add the phrase "EPA Registration No. 59682-3"</li> <li>b. Under the Directions for Use, revise the statement "Disinfection claims do not include ducts." to read "This sanitization claim does not include use in air ducts."</li> </ol> </li> <li>3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.</li> </ol>		
<input type="checkbox"/> ATTACHMENT IS APPLICABLE		
SIGNATURE OF APPROVING OFFICIAL		DATE

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Please note that the request for a data matrix and confirmatory data, stated in the previous review (August 2, 1995), is rescinded. Since this product is a repack of 4959-34, efficacy data requirements have been satisfied.

Sincerely yours,

Walter C. Francis  
Acting Product Manager (32)  
Antimicrobial Program Branch

# FAST ATTACK

## Concentrated HVAC System Sanitizer

Broad Spectrum Anti-microbial

- Fungicidal • Bactericidal • Germicidal

ACCEPTED  
with COMMENTS  
in EPA Letter Dated:

JUL 24 1996

Under the Federal Insecticide,  
Fungicide, and Rodenticide Act as  
amended, for the pesticide  
registered under EPA Reg. No. 59682-3

For use in cleaning and sanitizing of cooling and heating coils, drain pans, evaporative coolers, humidifiers, and interior surfaces of HVAC equipment. Fast broad spectrum germ kill. Organisms cannot buildup an immunity to Fast Attack HVAC System Disinfectant. Use as a one step cleaner-sanitizer for HVAC hygiene, and in Schools and Institutions, Dairy and Poultry Farms, Food Processing Plants, Hospitals and Clinics, Nursing Homes, Dental Offices, Meat and Poultry Plants, Animal Handling Facilities, Kitchens and Lunch rooms, Restrooms, cars and campers. Effective in fire and flood areas. Destroys odors as it cleans and sanitizes.

### ACTIVE INGREDIENTS:

Iodine\* .....0.35%

### INERT INGREDIENTS: .....99.65%

Total.....100.00%

\* From alpha-(p-Nonylphenyl)-omega-hydroxypoly (oxyethylene)-iodine

### PRECAUTIONARY STATEMENTS: HAZARD TO HUMANS AND DOMESTIC ANIMALS

KEEP OUT OF THE REACH OF CHILDREN

DANGER

**Corrosive.** Causes irreversible eye damage. Harmful if swallowed. Do not get in eyes or on clothing. Avoid contact with skin. Wear goggles or face shield. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and

the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

**STATEMENT OF PRACTICAL TREATMENT:** In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. If swallowed, drink promptly a large quantity of water. Do not induce vomiting. Avoid alcohol. Get medical attention. Remove and wash all contaminated clothing before reuse.

**Note to Physician:** Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression, and convulsions may be needed.

**STORAGE AND DISPOSAL:** Keep container closed when not in use. Do not store below 25 deg. F. Or above 100 deg. F for extended periods. **PROHIBITIONS:** Do not contaminate water or food by storage or disposal. Open dumping prohibited.

**PESTICIDE DISPOSAL:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray or

mixture or rinsate is a violation of Federal law. Container Disposal: Triple rinse or equivalent. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incinerate, or if allowed by State and local authorities, burn container. If burned stay out of smoke.

**DIRECTIONS FOR USE:** It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Fast Attack may be used to clean and sanitize cooling and heating coils of HVAC systems. Disinfection claims do not include ducts. Fast Attack acts as a sanitizer and deodorizer. For sanitizing: If heavy deposits are present, remove before applying. Add 8 ounces of Fast Attack to a 2 1/2 gallon container, and add room temperature water. For colder water (40 deg. F) use 12 ounces of Fast Attack per 2 1/2 gallons). Spray liberally on surfaces using mechanical sprayer. Allow 10 minutes contact time. Rinse with water.

#### One step cleaning and sanitizing:

Fast Attack may be used to clean and sanitize commercial coolers and freezers, refuse containers, rooms, floors, walls, counter tops, interior and exterior HVAC system surfaces, and other hard non-porous surfaces in commercial establishments, dairy and poultry farms, meat and poultry plants, veterinary clinics, nursing homes, schools and institutions, restrooms, homes, and industrial locations. Before applying sanitizing solution, food products and packaging materials must be removed from the area or carefully protected. Remove heavy soil deposits before applying the sanitizing solution. Using a solution of 3 oz. Per gallon of warm (62°F) water, apply solution with a mop, sponge, or brush. When appropriate, use a mechanical sprayer. Allow a 10 minute contact time with sanitizing solution. All food contact surfaces must be rinsed with potable water before reuse. Floors, drains, and all other non-food contact surfaces may drain dry without rinsing. Note: When using Fast Attack with cold water

(as low as 41°F) increase usage to 6 oz per gallon of water. Rinse areas after application.

If deposits are very heavy, then an heavy duty neutral or non-alkaline type cleaner may be used first. Rinse all surfaces thoroughly to remove all traces of cleaner residue before applying Fast Attack. Apply Fast Attack, and allow a 10 minute contact time before rinsing.
