

J-SOLVE KWIK KILL 1.5

General Information: For total vegetation control on certain areas around homes, businesses, parking areas. Controls binweed, common mullein, and hard to kill weeds. Prevents plant growth for up to one year. One gallon covers 400 feet.

Active ingredient: Prometon: 2,4-bis(isopropylamino)-6-methoxy-s-triazine... 1.5%
Inert Ingredients ... 98.5%
Total 100%

KEEP OUT OF REACH OF CHILDREN

WARNING: READ PRECAUTIONS and DIRECTIONS Before using.

DIRECTIONS for USE: IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

For best results apply to bare ground when weed growth is beginning. Weeds taller than 4-6 inches should be hoed first or it may be necessary to apply a second treatment.

Apply 1.75-2.5 undiluted pints To cover 100 sq.ft.
Apply 6.75-9.2 pints of undiluted material for hard to control weeds such as perennial broadleaf, binweed and johnson grass as well as common mullien and wild carrot.

Different grades of mineral oil, diesel fuel, petroleum-based oil, fuel oil, or kerosene may be substituted for water.

Triple rise all containers and pour rinsate on area treated once application is completed. Wrap container and put in trash collection.

PRECAUTIONS:

- 1: Apply when air is calm to avoid possibility of drift
- 2: Keep away from roots of desirable plants and trees.
- 3: Use only in areas where complete control of all vegetation is desired.
- 4: Do Not use on cultivated areas, slopes, greenhouses or near drip lines.
- 5: Keep Children and animals off treated areas until area is dry.
