EPA Reg. No. 54282-36

EPA Est. 11715-TN-1

#### DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling. Use in homes, motels, hotels, food plants, canneries, bakeries, dairies, milk bars, parlors, restaurants, cafeterias, diners, grocery stores, schools, hospitals, institutions, warehouses, kennels.

**FLIES, MOSQUITOES, GNATS, WASPS, AND SMALL FLYING MOTHS.** Ascend in the cubic foot of space to be treated. Close doors and windows. Focusing nozzle upward, direct the aerosol mist at all parts of the room especially around window frames and other light sources which attract these insects. Keep nozzle in continuous motion at least 16 inches from fabrics. Apply for two seconds per 1000 cubic feet of space. Keep area closed for fifteen minutes after each treatment. Do not remain in treated area. Ventilate the area after treatment is completed. Sweep up and destroy fallen insects. Repeat treatment as necessary.

**OUT OF DOORS.** For temporary protection from flies, gnats, swarms, ground and weeds and brambles around the area. Direct spray toward insect infestation. Frequent, repeated applications may be necessary.

**SILVERFISH, ANTS, ROACHES AND CRICKETS.** Ascend in square feet of space to be treated. Open drawers, cabinets, closets, etc. Direct beam straightward insects into cracks, crevices, and areas around baseboards, window frames, floor, walls, etc. Clean up apply for 10 or 15 seconds per 100 square feet of surface. Follow with several applications as necessary. Ascend at 3 to 5 seconds per 1000 cu. ft. of space. Close room for one hour. Repeat treatment as necessary. Do not spray directly on clothes, fabrics or other materials.

**FLEAS.** Thoroughly spray infested areas, pet beds, resting quarters, nearby cracks and crevices along and behind baseboards, moldings, window and door frames and localized areas of floor and floor covering. Fresh bedding should be placed in animal quarters following treatment. Concurrent treatment of animals with an approved insecticide is recommended. Repeat treatment as needed.

#### STORED PRODUCT INSECTS (accessible stages)

**FLYING MEDITERRANEAN FLOUR MOTHS, INDIAN MEAL (CHOCOLATE) MOTHS, ANGOUMOIS GRAIN MOTHS.** Close doors and windows. Direct aerosol mist at all parts of the room, especially into dark enclosures and around product containers where adult moths may be resting. Use a minimum treatment of six to eight seconds per 1000 cubic feet of space. Keep area closed for 30 minutes after each treatment. Repeat treatment weekly until flying moths appear. Infested stored food products should be fumigated or treated with an approved product.

**CONFUSED FLOUR BEETLES, RICE WEEVILS AND GRANARY WEEVIL.** Direct treatment toward insects into cracks, crevices, and machinery around containers of stored products and other areas that may harbor insects. Hit as many insects as possible. A minimum dosage of 10-15 seconds treating time per 100 sq. ft. of flour space is recommended. Leaving treated area tightly closed for at least 45 minutes. Repeat treatment as required.

#### STORAGE AND DISPOSAL

Storage: Store in a safe, secure, weatherproof place.

Disposal: Do not reuse empty container. Wrap in old newspaper and incinerate.

#### PRECAUTIONARY STATEMENT

#### HAZARD TO HUMANS AND DOMESTIC ANIMALS

#### CAUTION

Harmful if swallowed and if absorbed through skin. Avoid breathing vapor or spray. Avoid contact with skin and eyes. In case of contact immediately flush eyes or skin with plenty of water. Call medical attention if irritation persists.

Dangerously toxic to fish. Commercial fishing practices, equipment, gear, bait and nets must be cleaned before spraying. Do not spray within 100 feet of fish pens or hatcheries.

Facilities and equipment in federally inspected meat and poultry plants must be washed with an effective cleansing compound followed by a potable water rinse after spraying. In the home, all food processing surfaces and utensils should be cleaned during treatment, or thoroughly washed before use.

Remove pets, birds and all over fish aquaria before spraying.

#### PHYSICAL OR CHEMICAL HAZARDS

**EXTREMELY FLAMMABLE.** Do not use or store near fire, sparks, or heated surfaces. Turn off pilot lights in gas appliances and unplug or turn off electrical equipment in the use area. After airing out phase is completed, relight pilot lights and reconnect electrical current. Do not smoke in the use area. Contents under pressure. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Incineration of container may cause explosion.

NOTE: Changes including removal of differing resubstance from the accepted in connection with the registration number submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an endorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time, suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not taken as the implying the registrant's right to exclusive use of the name or to its use if it has been covered by others.

Product Name: Electromatix (Electrostatically Recharged) - in accordance with 40 CFR 152.25(a)(1)

The label on this product is subject to inspection by the registrant or by the distributor or by the Agency. Any inspection shall be conducted in accordance with the following:

• If one of the following statements is listed below, are you releasing the product for shipment?

a. Are the words "The registration no. 89740-1."

b. Complete the Label Storage and Disposal statement per PP Notice  
part 156. Are the statement "Do not puncture or incinerate."

c. Remove propellant A product with the propellant.

d. Since your literature does not give a dielectrical breakdown voltage, you must do the following to the use directions:

• Do not use this product in or on electrical equipment due to the possibility of shock hazard. Shut off pilot lights and all main electrical outlets before use.

5. Flammability--flashpoint/flame extension. The flashpoint reported exceeds the one expected for this product. Please check and resubmit. Mixtures marketed under pressure, including those containing hydrocarbons, are subject in their entirety to tests indicated in 40 CFR 156.10(h)(2)(iii). (Flashpoints for pressurized liquids are conveniently measured after collecting the expelled liquid from the container in an open cup chilled with dry ice.) See Aerosol Guide, CSMA.

6. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.
