Wickliffe, OH 44092-2298

Subject: Notification per PRN 98-10 – Change in packaging composition and producing establishments
Product Name: Mykon AML
EPA Registration Number: 59825-1
Received Date: February 7, 2022
Action Case Number: 00338850

Dear Michael Foster:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Antimicrobials Division (AD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The label submitted with the application has been stamped “Notification” and will be placed in our records.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Assurance.

If you have any questions, you may contact Steven Snyderman at (202) 564-0910 or via email at snyderman.steven@epa.gov.

Sincerely,

A handwritten signature in black ink that reads "Steven Snyderman".

Steven Snyderman, Product Manager 33
Regulatory Management Branch II
Antimicrobials Division (7510P)
Office of Pesticide Programs

NOTIFICATION

59825-1

The applicant has certified that no changes, other than those reported to the Agency have been made to the labeling. The Agency acknowledges this notification by letter dated:

03/14/2022

Mykon AML

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if absorbed through skin. Avoid contact with skin, eye or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse. Wear impervious or dust proof gloves, coverall and footwear with safety glasses when opening the containers or transferring material to processing equipment. Wash all contaminated clothing before reuse. Suitable respiratory equipment should be selected based on the products atmospheric concentration and the duration of exposure.

ENVIRONMENTAL HAZARDS

Do not discharge into lakes, streams, ponds or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System Permit (NPDES) and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant Authority. For guidance, contact your state Water Board or Regional office of the EPA.

PHYSICAL OR CHEMICAL HAZARDS

This material is stable when dry at ambient temperatures. Reacts with acids, alkalis, and strong oxidizing agents. Reacts in aqueous solution with peroxide to form peracetic acid.

FIRST AID

- IF ON SKIN** Take off contaminated clothing. Rinse skin with plenty of water for 15 - 20 minutes. Call a poison control center or doctor for treatment advice.
- IF IN EYES** Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
- IF INHALED** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth. Call a poison control center or doctor for further treatment advice.
- IF SWALLOWED** Call a poison control center or doctor for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

THIS PRODUCT IS TO BE USED ONLY FOR FORMULATING INTO OTHER FIFRA REGISTERED END USE PRODUCTS

This product may be used to formulate:

1. Laundry sanitizers;
2. Hard surface, non-food, sanitizers for use in toilets;
3. Products used for wastewater treatment (tertiary treatment) where there are freshwater discharges;

[Information in brackets [] is optional or instructional; italics in brackets indicate instructions not a part of labeling.]

[Note to EPA, text will not appear on final printed label: Use rates are 1 – 5 ppm of peracetic acid (equivalent to 1.5 – 7.5 ppm of TAED)]

4. Molluscicides for control of invasive mollusc species in freshwater intakes such as those for power plants, pulp and paper mills (non-food contact only), and municipal water systems;

[Note to EPA, text will not appear on final printed label: Use rates are 25-100 ppm of peracetic acid (equivalent to 38 – 150 ppm of TAED)]

5. Products for use in fracking;

[Note to EPA, text will not appear on final printed label: Use rates are 25 – 150 ppm of peracetic acid (equivalent to 38 – 225 ppm of TAED)]

6. Products for any additional uses not listed on the MP label if the formulator, user group, or grower has complied with U.S. EPA data submission requirements regarding the support of such uses.

[Note to EPA, text will not appear on final printed label: For wastewater treatment and molluscicide control uses, a NIOSH approved particulate respirator with any N, R or P filter with NIOSH approval number prefix TC-84A; or a NIOSH approved powered air purifying respirator with HE filter with NIOSH approval number prefix TC-21C is required for open pour applications.]

Formulators using this product are responsible for obtaining EPA registration of their formulated products.

Note: TAED is not an active Antimicrobial unless in aqueous solution with a second “activating” ingredient, oxygen donors such as hydrogen peroxide, percarbonates, perborates, or persulfates. The second activating ingredient must be incorporated by the formulator.

STORAGE AND DISPOSAL

Do not contaminate food, feed or water by storage, disposal or by cleaning of equipment.

Pesticide Storage – store in a cool dry place away from sunlight. Avoid extremes of temperature.

Pesticide Disposal - Wastes resulting from use or storage of this product may be disposed of at an approved waste disposal facility. Dispose of in compliance with applicable State or Federal regulation.

Container Handling –

[For Other Non-Rigid Nonrefillable Containers]

Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. Completely empty container by shaking or tapping sides and bottom to loosen clinging particles. Add recovered particles to Empty residue into application equipment. Offer for recycling if available or dispose of in a sanitary landfill, or by other procedures as approved by state and local authorities.

[For nonrefillable plastic containers less than or equal to 50 pounds]

Nonrefillable container. Do not reuse or refill this container. Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by incineration.

[For Nonrefillable Paper or Plastic Bags]

Nonrefillable container. Do not reuse or refill this container. Completely empty bag into application equipment, then offer for recycling if available or dispose of empty bag in a sanitary landfill or by incineration.

[Information in brackets [] is optional or instructional; italics in brackets indicate instructions not a part of labeling.]

[Note to reviewer. Consistent with Chapter 18 section V of the label review manual. A container too small to contain all required label text may have text located on accompanying labelling. A condensed label will be affixed to the 2.2 pound package and the full label will be referenced and supplied with the 2.2 Pound package]
