Subject: Labeling Notification per Pesticide Registration Notice (PRN) 98-10 – Change in Packaging Composition
Product Name: Warwick AG610
EPA Registration Number: 59825-6
Application Date: 7/17/2020
OPP Decision Number: 564852

Dear Mr. Foster:

The U.S. Environmental Protection Agency (EPA) is in receipt of your application for notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Biopesticides and Pollution Prevention Division (BPPD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The labeling submitted with this application has been stamped “Notification” and will be placed in our records. You must submit one (1) copy of the final printed labeling with the modifications.

Should you wish to add/retain a reference to your company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and is subject to review by the EPA. If the website is false or misleading, the product will be considered to be misbranded and sale or distribution of the product is unlawful under FIFRA section 12(a)(1)(E). 40 CFR § 156.10(a)(5) lists examples of statements the EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the EPA find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA-approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance Assurance.

Warwick AG610

NOT TO BE USED DIRECTLY FOR TREATMENT OF PESTS FOR MANUFACTURING USE ONLY

For use in manufacturing end-use products (Bactericides/fungicides/insecticides/miticides)
For disease, pest control, and plant health

ACTIVE INGREDIENT:

Tetraacetyl ethylenediamine (TAED) 92.0%

INERT INGREDIENTS:

8.0%
TOTAL 100.00%

NOTIFICATION

59825-6

The applicant has certified that no changes, other than those reported to the Agency have been made to the labeling. The Agency acknowledges this notification by letter dated:

KEEP OUT OF REACH OF CHILDREN

CAUTION

FIRST AID

<u>IF ON SKIN</u>	Take off contaminated clothing. Rinse skin with plenty of water for 15 – 20 minutes. Call a poison control center or doctor for treatment advice.
<u>IF IN EYES</u>	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for further information.
<u>IF INHALED</u>	Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth to mouth. Call a poison control center or doctor for further treatment advice.
<u>IF SWALLOWED</u>	Call poison control center or doctor for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.
Emergency phone number (24-hr provided by Chemtrec): 1-800-424-9300 (within USA) (+1) 703 527 3887	
Have the product container or label with you when calling the poison control center or doctor or going for treatment advice.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if absorbed through skin. Avoid contact with skin, eye or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse. Wear impervious or dust proof gloves, coverall and footwear with safety glasses when opening the containers or transferring material to processing equipment. Wash all contaminated clothing before reuse. Suitable respiratory equipment should be selected based on the products atmospheric concentration and the duration of exposure.

ENVIRONMENTAL HAZARDS

Do not discharge into lakes, streams, ponds or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System Permit (NPDES) and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant Authority. For guidance, contact the state Water Board or Regional office of the EPA.

PHYSICAL OR CHEMICAL HAZARDS

This material is stable when dry at ambient temperatures. Reacts with acids, alkalis, and strong oxidizing agents. Reacts in aqueous solution with peroxide to form peracetic acid.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labelling.

THIS PRODUCT IS TO BE USED ONLY FOR FORMULATING INTO OTHER FIFRA REGISTERED END USE PRODUCTS

General Information. Warwick AG610 is a powder form of TAED. Do not use from damaged, punctured, or unsealed containers.

Note. TAED is not a pesticide active ingredient unless it is used in aqueous solution with a second "activating" ingredient, oxygen donors such as hydrogen peroxide, percarbonates, perborates, or persulfates. The second activating ingredient must be incorporated by the formulator.

FOR MANUFACTURING USE ONLY. Not for direct treatment of pests. This product can be used to formulate end-use pesticide products for use as bactericides, fungicides, insecticides, and/or miticides on growing crops listed below. End-use products formulated from this product must be registered by the US EPA.

- **Greenhouse, Nursery, and Field Use** (Strawberries, rice, nonbearing apple trees, nonbearing fruit trees, seeds, plugs and transplants of fruiting vegetables and crucifers, ornamental and grasses). TAED and its metabolite (DAED) are exempt from the requirements of a tolerance in or on rice and/or strawberries when used as a fungicide

and bactericide in accordance with label directions and good agricultural practices (40 CFR 180.1327).

- **Turf and Landscape Use** (Turfgrass including creeping bentgrass, Kentucky bluegrass, Bermuda grass, fescue, St. Augustine, Poa annua, perennial ryegrass, other common species of golf course turfgrass).

STORAGE AND DISPOSAL

Do not contaminate food, feed, or water by storage, disposal or by cleaning of equipment.

Pesticide Storage – Store in a cool, dry place away from sunlight. Avoid extremes of temperature.

Pesticide Disposal - Wastes resulting from use or storage of this product may be disposed of at an approved waste disposal facility. Dispose of in compliance with applicable State or Federal regulation.

Container Handling –

{For Other Non-Rigid Nonrefillable Containers}

Nonrefillable container. Do not reuse or refill this container. ~~Offer for recycling, if available.~~ Completely empty container by shaking or tapping sides and bottom to loosen clinging particles. ~~Add recovered particles to Empty residue into~~ application equipment. ~~Offer for recycling if available or Dispose~~ of in a sanitary landfill, or by other procedures ~~as~~ approved by state and local authorities.

{For nonrefillable plastic containers less than or equal to 50 pounds}

Nonrefillable container. Do not reuse or refill this container. Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by incineration.

{For Nonrefillable Paper or Plastic Bags}

Nonrefillable container. Do not reuse or refill this container. Completely empty bag into application equipment, then offer for recycling if available or dispose of empty bag in a sanitary landfill or by incineration.

WARRANTY: To the extent consistent with applicable law, The Lubrizol Corporation and/or its affiliates make no warranty, expressed or implied, including the warranties of merchantability and/or fitness for any particular purpose, concerning this material, except those which are contained on this label.

{Note to reviewer. Consistent with Chapter 18 section V of the label review manual. A container too small to contain all required label text may have text located on accompanying labelling. A condensed label will be affixed to the 2.2 pound package and the full label will be referenced and supplied with the 2.2 Pound package}
