Directions For Use:

2 8 3

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

**The efficacy of this product has been demonstrated in the presence of 10% to 50% whole blood.**

For use in all areas of a medical facility where the suctioning of fluids may occur, *e.g.*, operating room, emergency room, acute care, for disposal of medical wastes from suction canisters.

Premidyne™ should be introduced 30 minutes before disposal of the canister contents.

Before the medical procedure begins, open the access port and insert the water soluble unit of Premidyne™ into the canister. Re-cap the canister. Begin the medical procedure. Activation of suction will provide thorough agitation. Following the procedure, transport canister to hopper and dispose of contents according to institutional procedures. Dispose of empty canister according to institutional procedures.

Environmental Hazards: This pesticide is toxic to fish and aquatic organisms.

**Storage and Disposal**

**Pesticide Storage:** Keep product dry in tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from moisture, heat or open flame. Do not reuse empty container.

**Pesticide Disposal:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**Container Disposal:** Dispose of empty container according to institutional procedures. If no institutional procedures are in place, securely wrap container in several layers of newspaper and discard in trash.
