59913-1

SEF 3 0 1994

NOTICE OF PESTICIDE:

Registration

x Reregistration

Term of Issuance:

Unconditional

Name of Pesticide Product:

Insectigone

Name and Address of Registrant (include ZIP Code):

Chemfree Environment Inc. 16763 Hymus Blvd. Krtkland, Quebec Canada H9H 3L4

Note: Changes in labeling differing in substance from that accepted in commection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Document, EPA has reregistered the product listed above. With regards to labeling, you must make the labeling changes listed below:

1. Under the Hazards to Humans and Domestic Animals, please revise as follows:

CAUTION: Causes moderate eye irritation. Avoid contact with eyes. Avoid breathing dust. Use adequate ventilation. Wear suitable dusk mask when using this product during prolonged exposure.

2. Base on the acute eye irritation toxicity, the following Statement of Practical Treatment section must be added to the label.

IF IN EYES:

Flush with plenty of water. Call a physician if irritation persists.

OFFICIAL FILE COPY

"U.S. Government Printing Office: 1992 — 620-856/40672

- 3. Delete the statement "Do not use as a space spray." since your product is in powder form.
- 4. The ingredient statement should read a follows:

ACTIVE INGREDIENT:

Silicon Dioxide, from diatomaceous earth.....85%

5. Please qualify the statement "... insects for as long as it is present" as follows: "... insects for as long as it is present and kept dry."

Please note that we have no objections to the alternate brand names, Insectigone Roach and Ant Killer, Insectigone Earwig Killer and Insectigone Ant Killer. However please note that the above labeling changes will apply to the alternate brand name labeling.

Submit two copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

The Confidential Statement of Formula dated September 30, 1993, will not meet the label claim for the nominal concentration for the active ingredients. The upper and lower certified limits are based on the pure active ingredient rather than the technical or concentrate. Refer the PR Notice 91-2 and 40 CFR 158.175 for guidance and revised the CSF to reflect the nominal concentration of the pure active ingredient.

This action is taken under the authority of Section 4(g)(2)(c) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for control reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

A stamped copy of the label is enclosed for your records.

Sincerely,

George T. LaRocca
Product Manager 13

Under the Foders' enciclede, Funcicide and lucias is act as smeaded, for the hatcide registered under EPA Reg. No.

Insectigone®

Chemfree Insectigone Crawling Insect Killer is made from a patented formula containing amorphous diatomaceous earth, know as silicon dioxide, and selected baits. Insects come into contact with the powder or ingest it and literally dry up and die within 48 hours. Insectigone is an odorless, non-staining powder that remains of effective in the control of insects for as long as it is present.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DIRECTIONS: Remove cap and cut tip above the top line with

INDOOR USE: COCKROACHES, ANTS, EARWIGS, SILVERFISH, CRICKETS, MILLIPEDES and CENTIPEDES.

Lightly coat a thin layer of dust in areas where these pests are found or may hide such as cracks and crevices, behind and beneath stoves, refrigerators, sinks, cabinets, garbage cans, around pipes and drains, window frames and in attics and basements. Hit insects directly where possible. Repeat treatment as necessary.

FLEAS: Thoroughly dust floor area of pet's sleeping quarters, as well as surrounding cracks, crevices, baseboards, behind pictures and wherever presence of these insects is

CARPET BEETLES: Thoroughly dust along baseboards, edges of carpeting, under furniture, under carpeting and rugs and in closets and shelving or wherever these insects are seen or suspected.

BEDBUGS: Take bed apart. Dust interjointh and channels. If hollow, such as square or cound tubing, see that the interior of the framework is we'l dusted. Mattresses should be dusted, especially tufts, folds and edgas. Picture frame moldings and all cracks and crevices in the room should be treated.

OUTDOOR USE: EARWIGS, ANTS, CRICKETS, SLUGS, MILLIPEDES and CENTIPEDES

Lightly coat a thin layer of dust in areas where these pests are found or may hide including patios, windows, door frames and sills, plitside of entraile ways, around foundations and along are enable. Pepeat treatment as necessary.

Note: A 7 oz container of CHEMFREE Insectigone Crawling Insect Killer will provide a thorough treatment for an average home or treat a garage and basement.

This container is filled to proper weight, but variations in product density may cause varying fill levels.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS
