Subject: Label Notifications for Pesticide Registration Notice 2007-4

Dear Mr. Mateer,

The Agency is in receipt of your Applications for Pesticide Notification under Pesticide Registration Notice (PRN) 2007-4 dated January 28, 2007 (and letters with corrected EPA Forms 8570-1 dated March 20, 2008) for:

EPA Registration 59913-11

Safer® Brand Garden Fungicide RTUII

EPA Registration 59913-12

Safer® Brand 3-In-1 RTU II

The Registration Division (RD) has conducted its review of these requests for their applicability under PRN 2007-4 and finds that the label changes requested fall within the scope of PRN 2007-4. The labels submitted with these applications have been stamped "Notification" and will be placed in our records.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on nonrefillable containers. The code may appear either on the label (and can be added by non-notification/PR Notice 98-10) or durably marked on the container itself.

If you have any questions, please call me directly at 703-305-6249 or Steve Schaible of my staff at 703-308-9362.

Sincerely,

Linda Arrington
