

SUPER IQ LC is a ready-to-use, residual insecticide designed for use as a crack and crevice baseboard treatment in and on residential, industrial, commercial and institutional buildings and structures. It will control crawling insects: ants, cockroaches, spiders and clover mites, and flying insects: flies, wasps, mosquitoes, moths and gnats which come in contact with treated surfaces.

**Active Ingredient:**

Chlorpyrifos (0-0-diethyl 0 (3, 5, 6-trichloro-2-pyridyl)

(phosphorothioate) 0.90%

Inert Ingredients 99.10%

Total 100.00%

EPA Reg. No. 59920-2-1990

EPA Est. No. 211-KS-1

A Quality Product of  
Biodyne Americas Corporation  
Mercer Island, Washington, U.S.A.

**ACCEPTED**  
**JAN 24 1994**  
Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, this pesticide is registered under EPA Reg. No. 59920-2-1990.

**HAZARD**

Do not allow children or pets to through the skin. Avoid breath on which food will be prepared or Chlorpyrifos is a cholinesterase.

If swallowed: Drink plenty of water. If inhaled: As with any fresh air. If in eyes: Flush with plenty of water. If on skin: Wash with plenty of water.

This pesticide is toxic to fish, birds, and washwaters. Apply this product to fish, birds, and washwaters.

It is a violation of FEDERAL law to use this pesticide on food. Stir or shake well before application and while coating is drying. Do not spray. It dries quickly to form a film. Application: Dried product may be applied in 4 to 6 inch wide bands. For 1 inch application, dilute with up to 1 part water.

**USE IN NON-FOOD AREAS:** This pesticide is for use in non-food areas of buildings including, but not limited to, dairy barns, chicken houses, latrine surfaces. Treatment areas are latrine surfaces and vent openings, floor or baseboard and spot treatment.

Under the Federal Insecticide,  
Fungicide, and Rodenticide Act  
as amended, for the pesticide  
registered under the name  
EPA Reg. No. 49950-2

medical advice

### ITAL HAZARDS

contaminate water by cleaning of equipment or disposal of equipment label.

### IS FOR USE

er inconsistent with its labeling

surfaces. Provide adequate ventilation of areas during application. roller or other suitable applicator tool, or by coarse, low pressure area to view dried film appearance and adhesion prior to complete and mild non-alkaline detergents. When applied as a band a few are feet (137 to 152m<sup>2</sup>) or 1000 to 1500 linear feet (300 to 450m) n and where broadcast applications are allowed, apply two coats

### CONTROL INDOORS

n residential buildings including homes and apartment buildings, ings, and non-food areas of institutional, and commer- s, theaters, arenas, hospitals, factories, schools, restaurants, and d similar areas where animals may not come in contact with treated ell voids; window and door casings; baseboards plumbing penetra- and drawers. Interior applications are limited to crack and crevice.

When applied in areas open to or accessible by the public, take precautions to prevent contact with treated surfaces until product has dried

**USE IN FOOD AREAS** (For control of ants and cockroaches) When using this product in establishments where food is stored, processed, prepared, or served such as, but not limited to, groceries, food stores, bakeries, bars, restaurants, cafeterias, grain mills, trucks, truck-trailers, and canneries, apply this product only as a spot treatment and/or crack and crevice treatment. Do not apply on surfaces where food may come in contact or where food may be prepared or processed. Broadcast spraying of this product is prohibited

### EXTERIOR SURFACES

Apply to exterior walls and other surfaces for the control of crawling and flying insects, include window and door casings and other cracks or gaps in building walls or foundations to prevent ants, cockroaches, spiders, wasps, moths and flies from entering structures through such openings. A continuous band applied to the base of buildings is an effective barrier to crawling insects. Apply to the underside of eaves, roof overhangs, awnings of rigid construction, and other wasp and spider nesting areas. Apply to outdoor refuse storage areas such as trash receptacles and garbage corrals to control flies and crawling insects attracted to these areas

**FOR THE CONTROL OF FIRE ANTS**, spiders, wasps and other insects nesting or harboring in electrical equipment including, but not limited to electrical transformer boxes, telephone switch gear housings, air conditioner cabinets traffic signal and light standards, pump houses, around swimming pool equipment, underground equipment vaults, and field radar and navigation equipment installations, apply this product to the interior and exterior of the corners, joints access doors and panels, and sides of equipment housing. Application to the interior of such installation must be made when equipment is not in operation and surfaces must be dry before placing equipment back in service. Do not apply to electrical connectors or components. Product may be applied by coarse, low pressure spray or suitable brush. Shop performed applications (before equipment is installed) may be made via coarse spray using conventional airless spray equipment. Persons applying product by high pressure spray must wear chemical resistant gloves, a respirator approved by NIOSH for organic chemical vapors, goggles and long-sleeved clothing

**TREATMENT OF MANHOLES** (For control of cockroaches) Apply product on underside of manhole lids and manhole walls. Product may be applied via coarse spray using conventional airless spray equipment or by coating with a suitable brush. Persons applying product in manholes must wear chemical resistant gloves, a respirator approved by NIOSH for organic chemical vapors, goggles and long-sleeved clothing. Apply no more than 48 ounces (3 pints) of product to each manhole. Do not discharge or spray unused material directly into sewer system. Do not apply product within 36 hours of predicted heavy rainfall

### STORAGE AND DISPOSAL

Keep container tightly closed and store in a cool, dark place, preferably in a locked storage area. Do not contaminate water, food or feed by storage or disposal

**Product Disposal.** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. **Container Disposal.** Triple rinse (or equivalent). Then offer for recycling or reconditioning or fracture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities
