### FOR INDUSTRIAL USE ONLY DO NOT DILUTE

#### DIRECTIONS FOR USE It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

This preservative is recognized as effective for aboveground use, and not recommended for ground contact. Woodlife 111@ is intended for use on new lumber, plywood, particleboard, waterboard, millwork and similar types of wood products.

This clear oil solution has been developed for the protection of wood against fungus growths which cause rot and stain. It also contains water repellents to aid in the control of shrinking, swelling, end checking, grain raising and warping.

For best results, this product should be applied so as to effect maximum penetration into the wood and heavy absorption especially at joints and wherever end grain exists. A three minute immersion period is recommended for miltwork. For other open tank treatments, complete immersion of the wood in the solution is generally recommended for five minutes per inch of thickness. For the control of dimensional changes, shrinkage and swelling, the treatment of the end grain is most important since the moisture pickup there is a hundred to a thousand times greater than at the flat or edge grain surface for many species of wood.

Where open tank treating is impractical, two heavy brush applications of this product should be applied, cutting out and removing all unsound wood two feet beyond any visible evidence of decay. All wood should be normally dry and the framing or cutting completed before application of this product.

**ESTIMATED COVERAGE:** 5 to 10 gailons per thousand board feet for open tank treatment. 200 square feet per gailon for brush application.

## STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

**PESTICIDE DISPOSAL:** Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions contact your State Pesticides or Environmental Control Agency, or the Hazardous waste representative at the nearest EPA Regional Office for guidance.

**PESTICIDE STORAGE:** Store this product in its originally labeled container in a storage area located in a cool place. Keep container and freshly treated articles away from high temperature areas, sparks, fire or open flame.

**CONTAINER DISPOSAL:** Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

#### LIMIT OF WARRANTY AND LIABILITY

This company warrants that this material conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the directions for use. This product is sold subject to the understanding that the buyer assumes all risks of use or handling of this material not in strict accordance with the directions given herewith which are beyond the control of the selfer, such as, for example, incompatibility with other products and the manner of its use of application, NO OTHER EXPRESSED OR MIPLIED WARRANTY OF FITNESS OR MERCHANTASILITY IS MADE. The exclusive remedy of the buyer, and the limit of liability of this company or any other selfer for any and all losses, injuries or damages resulting from the use of handling of this product shall be the purchase price paid by the user or buyer for the quantity of this product involved. The buyer and all users are deemed to have accepted the terms of this notice which may not be varied by any websil or written agreement.

### PRECAUTIONARY STATEMENTS

### HAZARDS TO HUMANS AND DOMESTIC ANIMALS CAUTION

Harmful if swallowed, inhaled or absorbed through skin. Causes moderate eye irritation. Avoid breathing vapor or spray mist. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse. Wear goggles and protective clothing and chemical-resistant gloves when handling product and/or freshly treated lumber.

FIRST AID	
If Swallowed	Call a poison control center or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
lf on Skin	Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
If Inhaled	Move person to fresh air. If person is not breathing call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.
If in Eyes	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
Note To Physici gastric lavage.	an: Probable mucosal damage may contraindicate the use of
	MEDICAL EMERGENCIES: 800-548-0489

### ENVIRONMENTAL HAZARDS

This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NDPES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

### PHYSICAL OR CHEMICAL HAZARDS

COMBUSTIBLE. Do not use, or store near hear cr open flame. IN CASE OF FIRE: Use dry chemicals, foam, water, fog, or CO<sub>2</sub>. Cool closed containers with water.
