Washington, D.C. 20460

EPA Reg.
Number:

60061-112

Date of Issuance:

11/19/03

NOTICE OF PESTICIDE:

 x Registration
 Reregistration

(under FIFRA, as amended)

Term of Issuance:

Conditional

Name of Pesticide Product:

BAZOOKA™

Name and Address of Registrant (include ZIP Code):

Kop-Coat
436 Seventh Avenue
Pittsburgh, PA 15219-1818

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.

2. Make the labeling changes listed below before you release the product for shipment:

a. Add the phrase "EPA Registration Number 60061-112"

- b. Revise precautionary statement to read as follows:

Precautionary Statement
Hazard to Humans and Domestic Animals
DANGER

Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed, inhaled or absorbed through skin. Do not get in eyes, on skin or on clothing. Avoid breathing vapor or spray mist. Wear protective eyewear (goggles, face shield or safety glasses). Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

3. Submit three (3) copies of the final printed label prior to releasing this product for sale.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely,

Adam Heyward

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

GENERAL PRECAUTIONS AND RESTRICTIONS:

FOR INDUSTRIAL USE ONLY

DILUTE BEFORE USING

Do not apply this product in a way that will contact workers or other persons.

Wear synthetic rubber gloves or plastic coated gloves in handling situations and freshly treated lumber.

Treated sawdust and other wood wastes should be disposed of properly and should not be used as mulch where it will come into contact with useful living plants. Care should be taken to prevent drip or spray from contacting ornamental shrubs, trees, grass, and other desirable vegetation.

GENERAL INFORMATION:

Freshly dipped or sprayed lumber should be protected from rain-leaching. Dip tanks and drip aprons must be roofed, paved, and drained to prevent dilution and loss of the anti-stain solution. Treatment concentrations must be geared to achieve protection of the thickest or most valuable item being treated. The concentration of the ready-to-use solution must be adjusted to accommodate seasonal changes in the exposure, species being treated, Dip tanks, and spray equipment must be properly maintained.

MIXING INSTRUCTIONS:

For high-pressure spray applications: Thoroughly mix one gallon of BAZOOKA™ Sapstain and Mold Control Product per 2 to 500 gallons of water.

For dip applications: Thoroughly mix one gallon of BAZOOKA™ Sapstain and Mold Control Product per 10 to 1,000 gallons of water. In all cases, dilution levels will depend upon application methods, lumber species, and conditions of lumber storage. Mills should conduct tests to determine treatment requirements for their individual needs. Contact Kop-Coat for further information. When using proportioning pumps for mixing, this product should be maintained at temperatures above 50 °F to insure accurate mixing due to viscosity changes. Minor proportioning rate changes can be made by changing the setting on the pump dial.

NOTE: With normal dip or spray application long-term control of decay cannot be achieved. This product is intended to provide decay, mold, and blue stain control during storage. Such control would not likely extend to the use site.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

Pesticide Storage: Store in a closed, properly labeled container in a cool place. If static generating conditions exist, provide necessary grounding and bonding. Keep containers closed when not in use.

Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Disposal: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

PHYSICAL OR CHEMICAL HAZARDS:

COMBUSTIBLE. DO NOT use, pour, spill, or store near heat or open flame.

IN CASE OF FIRE: Use dry chemicals, foam, water fog, or CO₂. Cool closed containers with water.

KOP-COAT

BAZOOKA™

Sapstain and Mold Control Product

U.S. Patent No. 6,375,727, Foreign Patents and Patents Pending

Aids in the control of blue stain, mold and decay of freshly cut lumber, dry lumber and other wood based products when properly used. Effective on softwoods including Douglas fir, White fir, Spruce, Hemlock, the Pines including both the Southern and Western Yellow Pines, Eastern and Western White Pines and many of the hardwoods.

KEEP OUT OF REACH OF CHILDREN

DANGER - PELIGRO

PRECAUTIONARY

RDS TO HUMANS A

DANGER. CORROSIVE. Causes irreversible damage. Swallowed Or Inhaled. Harmful If Absorbed Through Skin. Do not breathe vapors or spray mist. Vapors or spray mist may concentrate or migrate indoors and cause irritation. Do not use this product indoors or in mist may concentrate or migrate indoors and cause irritation. Treated sawdust and other wood wastes should not come in contact with domestic animals.

PERSONAL PROTECT

Applicators and other handlers must wear:

- coveralls over long-sleeved shirt and long pants
- chemical-resistant footwear plus socks
- goggles or face shield
- chemical-resistant gloves (such as barrier laminated gloves)
- Respirator with an organic vapor-removing cartridge (MSHA/NIOSH approval prefix TC-23C) or a canister with any R, P or HE prefilter
- Follow manufacturers' instructions for cleaning or washing. For washables, use detergent and hot water. Do not reuse until thoroughly cleaned. Have been decontaminated or heavily contaminated. Keep and wash PPE separately from other clothing.

USER SAFETY RECOMMENDATIONS

Users should:

- Wash hands before eating, drinking, chewing gum, or using the toilet.
- Remove clothing immediately if pesticide has gotten on the body or into the eyes. Wash thoroughly and put on clean clothing.
- Remove personal protective equipment immediately after use of this product. Wash outside of gloves before possible wash thoroughly.

ENVIRONMENT.

This pesticide is toxic to fish. Do not apply directly to water or to areas below the water line when disposing of equipment washwaters or rinsate. Do not discharge into lakes, streams, ponds, estuaries, or other aquatic environments. A National Pollution Discharge Permitting authority has been notified in writing prior to the use of this product. Contact your State Water Board or Regional Office for more information.

WARRANTY: We warrant this material to compare good merchantable quality and such as will conform to the description, and further warrant such goods to be used. We assume no responsibility that the particular purpose for which they are being bought or used.
