 Subject: **Bazooka™ Sapstain and Mold Control Product**  
 EPA Registration No. 60061-112  
 Your Application Dated January 13, 2004

Dear Ms. Treloar:

The following amendment, submitted in connection with registration under section 3(c)(7)(A) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable.

**Proposed Amendment:**

- Revised Labeling

**General Comment:**

A stamped copy of the accepted labeling is enclosed.

Should you have any questions or comments concerning this letter, please contact me at (703) 308-6422 or Renae Whitaker at (703) 308-7003.

Sincerely,

 Adam Heyward  
 Product Manager (34)  
 Regulatory Management Branch II  
 Antimicrobials Division (7510C)

### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

### GENERAL PRECAUTIONS AND RESTRICTIONS:

#### FOR INDUSTRIAL USE ONLY

#### DILUTE BEFORE USING

Do not apply this product in a way that will contact workers or other persons.

Wear synthetic rubber gloves or plastic coated gloves in handling solutions and freshly treated lumber.

Treated sawdust and other wood wastes should be disposed of properly and should not be used as mulch where it will come into contact with useful living plants. Care should be taken to prevent drip or spray from contacting ornamental shrubs, trees, grass, and other desirable vegetation.

### GENERAL INFORMATION:

Freshly dipped or sprayed lumber should be protected from rain-washing. Dip tanks and drip aprons must be roofed, paved, and drained to prevent dilution and loss of the anti-stain solution. Treatment concentrations must be geared to achieve protection of the thickest or most valuable item being treated. The concentration of the ready-to-use solution must be adjusted to accommodate seasonal changes in the exposure, species being treated, Dip tanks, and spray equipment must be properly maintained.

### MIXING INSTRUCTIONS:

For high-pressure spray applications: Thoroughly mix one gallon of BAZOOKA™ Sapstain and Mold Control Product per 2 to 500 gallons of water.

For dip applications: Thoroughly mix one gallon of BAZOOKA™ Sapstain and Mold Control Product per 20 to 1,000 gallons of water. In all cases, dilution levels will depend upon application methods, lumber species, and conditions of lumber storage. Mills should conduct tests to determine treatment requirements for their individual needs. Contact Kop-Coat for further information. When using proportioning pumps for mixing, this product should be maintained at temperatures above 50 °F to prevent inaccurate mixing due to viscosity changes. Minor proportioning rate changes can be affected by changing the setting on the pump dial.

**NOTE:** With normal dip or spray application long-term control of decay cannot be achieved. This product is intended to provide decay, mold, and blue stain control during storage. Such control would not likely extend to the use site.

### STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

**Pesticide Storage:** Store in a closed, properly labeled container in a cool place. If static generating conditions exist, provide necessary grounding and bonding. Keep containers closed when not in use.

**Pesticide Disposal:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

**Container Disposal:** Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

### PHYSICAL OR CHEMICAL HAZARDS:

**COMBUSTIBLE.** DO NOT use, pour, spill, or store near heat or open flame.

**IN CASE OF FIRE:** Use dry chemicals, foam, water fog, or CO<sub>2</sub>. Cool closed containers with water.

**ACCEPTED**  
JAN 21 2004

Under the Federal Insecticide, Fungicide, and  
Rodenticide Act as amended, for the  
pesticide, registered under  
EPA Reg. No. 60061-112

# KOP-COAT

## BAZOOKA™

### Sapstain and Mold Control Product

U.S. Patent No. 6,376,727, Foreign Patents and Patents Pending

Aids in the control of blue stain, mold and decay of freshly cut lumber, dry lumber and other wood based products when properly used. Effective on softwoods including Douglas fir, White fir, Spruce, Hemlock, the Pines including both the Southern and Western Yellow Pines, Eastern and Western White Pines and many of the hardwoods.

### KEEP OUT OF REACH OF CHILDREN

### ANGER - PELIGRO

See side panel for additional precautionary statements.

Read Warranty On Side  
Panel Before Buying Or  
Using. If Such Terms Are  
Not Acceptable, Return At  
Once Unopened.

EPA Reg. No. 60061-112  
EPA Est. No. 60061-MO-1

#### ACTIVE INGREDIENTS

Diiodomethyl-para-Tolyl sulfone..... 0.95%  
Propiconazole..... 3.50%

3-Iodo-2-Propynyl

Butyl Carbamate..... 3.50%

OTHER INGREDIENTS..... 92.05%

TOTAL..... 100.00%

### FIRST AID

IF IN EYES:	<ul style="list-style-type: none"><li>• Hold eye open and rinse slowly and gently with water for 15-20 minutes.</li><li>• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.</li><li>• Call a poison control center or doctor for treatment advice.</li></ul>
IF SWALLOWED:	<ul style="list-style-type: none"><li>• Call poison control center or doctor immediately for treatment advice.</li><li>• Have person sip a glass of water if able to swallow.</li><li>• Do not induce vomiting unless told to do so by the poison control center or doctor.</li><li>• Do not give anything by mouth to an unconscious person.</li></ul>
IF ON SKIN OR ON CLOTHING:	<ul style="list-style-type: none"><li>• Take off contaminated clothing.</li><li>• Rinse skin immediately with plenty of water for 15-20 minutes.</li><li>• Call a poison control center or doctor for treatment advice.</li></ul>
IF INHALED:	<ul style="list-style-type: none"><li>• Move person to fresh air.</li><li>• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.</li><li>• Call a poison control center or doctor for further treatment advice.</li></ul>
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. In case of emergency call toll free: 1-800-548-0489.	
NOTE TO PHYSICIAN:	Probable mucosal damage may contraindicate the use of gastric lavage.
