Office of Pesticide Programs
Antimicrobials Division (7510C)
1200 Pennsylvania Avenue, NW
Washington, D.C. 20460

EPA Reg. Number: 60061-113

Date of Issuance: MAY 22 2003

NOTICE OF PESTICIDE:
[x] Registration
[] Reregistration

Term of Issuance: Conditional

Name of Pesticide Product: LTC-3

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Kop-Coat, Inc.
436 Seventh Avenue
Pittsburgh, PA 15219-1818

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

- 1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. Make the labeling changes listed below before you release the product for shipment.
a. Add the phrase "EPA Registration Number 60061-113"

Table with columns for SYMBOL, BURNING, DATE and rows for Antimicrobial Division Branch (7510C) and EPA Form 8570-6

- b) Within one year from the date of this notice, you must submit the storage stability and corrosion characteristics studies for the subject product.
- c) The child signal word "Warning" and the "Keep Out of Reach of Children Statement" must be placed below the ingredient statement.

A stamped copy of the labeling accepted with conditions is enclosed. Submit three (3) copies of your final printed labeling before distributing or selling the product bearing the above revisions.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of product constitutes acceptance of these conditions.

Sincerely,

Adam Heyward
Product Manager (34)
Regulatory Management Branch II
Antimicrobials Division (7510C)

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

GENERAL PRECAUTIONS AND RESTRICTIONS:

FOR INDUSTRIAL USE ONLY
DILUTE BEFORE USING

Do not apply this product in a way that will directly contact workers or other persons with the concentrate.

Apply this product only as specified on this label.

Wear rubber gloves and protective clothing when handling freshly treated lumber.

GENERAL INFORMATION:

Description: LTC-3 Sapstain Control Chemical is a liquid concentrate containing an effective fungicide for the control of sap stain and surface staining fungi that cause discoloration and staining of freshly sawn lumber. LTC-3 Sapstain Control Chemical is an aqueous solution which may be applied to dimensional lumber, plywood, OSB, and particle board to prevent surface mold growth.

Dilution Ratio LTC-3 Sapstain Control Chemical is a concentrate dilutable with water. For lumber in dip systems, use 1 gallon of Concentrate per 50 gallons to 400 gallons of water to protect against staining organisms. For spray systems use 1 gallon of concentrate per 5 to 150 gallons of water. Contact Kop-Coat, Inc. for recommendations and further information.

APPLICATION INSTRUCTIONS:

Application: Flood spray or dip the freshly sawn clean lumber to be treated in LTC-3 Sapstain Control Chemical solution within 24 hours after cutting. A dip of 15 seconds or more is sufficient. If not treated within 24 hours, stain may occur.

Lumber should be totally immersed or sprayed to insure treatment. Tanks should be covered by a roof to prevent the addition of rain water and consequent dilution of the solution. Vats and spray equipment should be cleaned regularly to remove sawdust and other debris. Freshly treated lumber should not be exposed to water. Store in protected area from rain and stack properly for best results.

Clean Up: Use water to clean immersion tanks, spray equipment and surrounding area. Soapy water may be required to remove LTC-3 Sapstain Control Chemical from floors and equipment.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.
Pesticide Storage: Store in a closed, properly labeled container in a cool place. If static generating conditions exist, provide necessary grounding and bonding. Keep containers closed when not in use.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container Disposal: Triple rinse (or equivalent), then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

PHYSICAL OR CHEMICAL HAZARDS

COMBUSTIBLE. DO NOT use, pour, spill or store near heat or open flame.
