**FOR INDUSTRIAL USE ONLY
DILUTE BEFORE USING
DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

This preservative is recognized as effective for aboveground use, and not recommended for ground contact. Woodlife 111@ 4:1 Concentrate is intended for use on new lumber, plywood, particleboard, wafer board, millwork and similar types of wood products.

This clear oil solution has been developed for the protection of wood against fungus growths, which cause rot, mold, and decay. It also contains water repellents to aid in the control of shrinking, swelling, end checking, grain raising, and warping.

For best results, this product should be diluted and applied so as to effect maximum penetration into the wood and heavy absorption especially at joints and wherever end grain exists. A three-minute immersion period is recommended for millwork. For other open tank treatments, complete immersion of the wood in the solution is generally recommended for five minutes per inch of thickness. For the control of dimensional changes, shrinkage and swelling, the treatment of the end grain is most important since the moisture pickup there is a hundred to a thousand times greater than at the flat or edge grain surface for many species of wood. Vacuum or pressure assisted treating in a closed system will result in deeper penetration.

ESTIMATED COVERAGE: 5 to 10 gallons per thousand board feet for open tank treatment. 200 square feet per gallon for brush application.

Dilution Instructions: Dilute under gentle agitation.

On site use: For normal exposure situations such as for AWP Use Categories 1, 2, or 3 A, dilute one part of this concentrate with four parts by volume of an appropriate petroleum-based solvent such as mineral spirits or VM&P Naptha. For more severe exposure requiring greater protection, dilute one part of this concentrate with 1.5 to 3 parts by volume of an appropriate petroleum based solvent.

Reformulation: Dilute Woodlife@ 111 4:1 Concentrate with mineral spirits or other appropriate petroleum based solvent to achieve the desired active ingredient level per the EPA registered label for the diluted product. The repackager is responsible for obtaining an EPA registration for the ready-to-use product to be made from the concentrate prior to sale of the diluted product.

Compatibility: This product is compatible with other products designed for millwork protection including Timbertreat B and Timbertreat 15WT. Contact Kop-Coat Inc. for details.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Store this product in its originally labeled container in a storage area located in a cool place. Keep container and freshly treated articles away from high temperature areas, sparks, fire, or open flame.

PESTICIDE DISPOSAL: Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions contact your State Pesticides or Environmental Control Agency, or the Hazardous waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

LIMIT OF WARRANTY AND LIABILITY

This company warrants that this material conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the directions for use. This product is sold subject to the understanding that the buyer assumes all risks of use or handling of this material not in strict accordance with the directions given herewith which are beyond the control of the seller, such as, for example, incompatibility with other products and the manner of its use or application. NO OTHER EXPRESSED OR IMPLIED WARRANTY OF FITNESS OR MERCHANTABILITY IS MADE. The exclusive remedy of the buyer, and the limit of liability of this company or any other seller for any and all losses, injuries or damages resulting from the use or handling of this product shall be the purchase price paid by the user or buyer for the quantity of this product involved. The buyer and all users are deemed to have accepted the terms of this notice, which may not be varied by any verbal or written agreement.
