Subject: Amended Reregistration Label
WOODLIFE 111 4:1 CONCENTRATE
EPA Registration Number: 60061-115
EPA Decision Number: 45465145

Dear Ms. Custer:

The Agency, in accordance with the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, has completed reviewing all of the information submitted with your application to support the reregistration of the above referenced product in connection with the **Propiconazole RED** and has concluded that your submission is acceptable.

NOTE: This product is **not** being reregistered under sections 3(c)5 and 4(g) of FIFRA at this time.

Please note that the record for this product currently contains the Confidential Statement of Formulation (CSF) listed below. Any previously dated CSFs are superseded.

- Basic CSF, dated January 31, 2014

A copy of your label stamped "Accepted" is enclosed along with copies of the acute toxicity and product chemistry reviews completed for the subject product. Products shipped after 12 months from the date of this amendment or the next printing of the label whichever occurs first, must bear the new revised label. Your release for shipment of the product bearing the amended label constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e).

Should you have any questions or comments concerning this letter, you may contact me by telephone at (703) 308-6416 or by e-mail at campbell.jacqueline@epa.gov or Srinivas Gowda by telephone at (703) 308-6354 or by e-mail at gowda.srinivas@epa.gov during the hours of 8:00am to 4:00pm EST. When submitting information or data in response to this letter, a copy of this letter should accompany the submission to facilitate processing.

Sincerely,

Jacqueline Hardy
Product Manager 34
Regulatory Management Branch II
Antimicrobials Division (7510P)

Enclosure: Stamped label

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

GENERAL PRECAUTIONS AND RESTRICTIONS:

FOR INDUSTRIAL USE ONLY

CONSULT MATERIAL SAFETY DATA SHEET BEFORE USING

DILUTE BEFORE USING

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application.

This preservative is recognized as effective for above ground use and not recommended for ground contact. Woodlife® 111 4:1 Concentrate is intended for use on new lumber, plywood, particleboard, waterboard, millwork and similar type of wood products.

This clear oil solution has been developed for the protection of wood against fungus growths which cause rot, mold and decay. It also contains water repellents to aid in control of shrinking, swelling, and checking, grain raising and warping.

For best results, this product must be diluted and applied so as to effect maximum penetration into wood and heavy absorption especially at joints and wherever grain exists. A three minute immersion period for millwork. For other open tank treatments, complete immersion of the wood in the solution is generally recommended for five minutes per inch of thickness. For the control of dimensional changes, shrinkage and swelling, the treatment of the end grain is most important since the moisture pickup there is a hundred to a thousand times greater than at the flat or edge grain surface for many species of wood. Vacuum or pressure assisted treating in a closed system will result in deeper penetration.

Estimated Coverage: 5 to 15 gallons per thousand board feet for open tank treatment. 200 square feet per gallon for brush application.

Dilution Instructions: Dilute under gentle agitation.

On-site use: For normal exposure situations such as for AFWA, use Categories 1, 2, or 3A, dilute one part of this concentrate with four parts by volume of an appropriate petroleum-based solvent such as mineral spirits or VM&P Naphtha. For more severe exposure requiring greater protection, dilute one part of this concentrate with 1.5 to 3 parts by volume of an appropriate petroleum based solvent.

Reformulation: Dilute Woodlife® 111 4:1 Concentrate with mineral spirits or other appropriate petroleum based solvent to achieve the desired active ingredient level per EPA registered label for the diluted product. The repackager is responsible for obtaining an EPA registration for the ready-to-use product to be made from the concentrate prior to sale of the diluted product.

Compatibility: This product is compatible with other products designed for millwork protection including Timbermate® ICP-5. Contact Kop-Coat, Inc. for details.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

Storage: Store in a closed, properly labeled container in a cool place. If static generating conditions exist, provide necessary grounding and bonding. Keep containers closed when not in use.

Pesticide Disposal: Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

Container Handling: Nonrefillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container 1/4 full with water. Replace and tighten closures. Tip container on its side and roll it back and forth ensuring at least one complete revolution for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times. Then offer for recycling if available.

Woodlife® 111 4:1 Concentrate
Water Repellent Wood Preservative

Preserves wood, stops rot and decay, prevents fungi and molds on wood and wood components, clear, paintable

KEEP OUT OF REACH OF CHILDREN

CAUTION

EPA Est. No. 60061-MO-1

ACTIVE INGREDIENTS
(PBC) 3-tolu-2-Propenyl Butyl Carbamate 0.579%
(Tebuconazole) 4-(2-(4-chlorophenyl)ethyl)-1,1-dimethyl-1H-1,2,4-triazole-1-phenol 0.579%
(Propiconazole) 1-[2-(2,4-dichlorophenyl)-4-propyl-1,3-dioxol-2-yl]imidazole-1H-1,2,4-triazole 0.577%
OTHER INGREDIENTS 87.863%
TOTAL 100.000%
Contains petroleum distillate

Read Warranty on side panel before buying or using. If such terms are not acceptable, return at once unopened.

FIRST AID	
IF ON SKIN OR ON CLOTHING	<ul style="list-style-type: none"> Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.
IF SWALLOWED	<ul style="list-style-type: none"> Call a poison control center or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquids to person. Do not give anything by mouth to an unconscious person.
IF INHALED	<ul style="list-style-type: none"> Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.
IF IN EYES	<ul style="list-style-type: none"> Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call poison control center or doctor for treatment advice.
HOT LINE NUMBERS	<ul style="list-style-type: none"> Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 800-548-0488 for emergency medical treatment information. Transportation emergency contact 800-424-9300.
NOTE TO PHYSICIAN	<ul style="list-style-type: none"> Contains petroleum distillate. Vomiting may cause aspiration pneumonia.

PRECAUTIONARY STATEMENTS

HAZARDOUS TO HUMANS AND DOMESTIC ANIMALS

CAUTION. Avoid contact with skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Wear chemical resistant gloves, such as barrier laminate, nitrile rubber, neoprene rubber or viton.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Mixers and loaders using liquid formulation must wear:

1. Long-sleeved shirt and long pants.
2. Shoes and socks, and chemical resistant gloves.
3. Some gloves/materials that are chemical-resistant to this product are barrier laminate, nitrile rubber, neoprene rubber and viton.

USER SAFETY REQUIREMENTS

- Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.
- Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product's concentrate. Do not reuse them.

USER SAFETY INSTRUCTIONS

Users must:

- Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
- Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and shrimp. Do not apply directly to water. Do not contaminate water when disposing equipment/wastewater. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of Environmental Protection Agency.

PHYSICAL OR CHEMICAL HAZARDS

COMBUSTIBLE - Do not use, pour, spill, or store near heat or open flame.

IN CASE OF FIRE

Use alcohol foam, dry chemical, foam, water, fog or CO. Cool closed containers with water.

LIMIT OF WARRANTY AND LIABILITY

We warrant this material to comply with our published specifications and to be of good merchantable quality and such as will regularly pass in the trade for goods within the description, and further warrant such goods to be fit for the normal purposes for which goods are used. We assume no responsibility that the goods concerned in this contract are fit for any particular purpose for which they are being bought outside of the general purposes of goods of the description.

ACCEPTED
