Subject: Label Notification per PRN 98-10 – Updating the label to delete the word “Concentrate” from the Master Label
Product Name: Woodlife® 111 HP
EPA Registration Number: 60061-119
Application Date: 08/28/2015
Decision Number: 509826

Dear Ms. Custer:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Antimicrobials Division has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The label submitted with the application has been stamped “Notification” and will be placed in our records.

If you have any questions, you may contact Farzana Olla at 703-347-0190 or via email at olla.farzana@epa.gov.

Sincerely,

Jacqueline Hardy, Product Manager 34
Regulatory Management Branch II

Woodlife® 111 HP

Preserves Wood, Stops Rot and Decay, Prevents Fungi and Molds on Wood and Wood Composites, Clear, Paintable

KEEP OUT OF REACH OF CHILDREN

CAUTION

IF ON SKIN OR ON CLOTHING
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15 to 20 minutes.
- Call a poison control center or doctor for treatment advice.

IF SWALLOWED
- Call a poison control center or doctor immediately for treatment advice.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give any liquid to person.
- Do not give anything by mouth to an unconscious person.

IF INHALED
- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.
- Call a poison control center or doctor for further treatment advice.

IF IN EYES
- Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Get immediate medical attention.
- Call poison control center or doctor for treatment advice.

HOT LINE NUMBERS
- Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 800-548-0489 for emergency medical treatment information.
- Transportation emergency contact 800-424-9300.

NOTE TO PHYSICIAN
- Contains petroleum distillate. Vomiting may cause aspiration pneumonia.

EPA Reg. No. 60061-119
EPA Est. No. 60061-MO-1

Read Warranty on side panel before buying or using. If such terms are not acceptable, return at once unopened.

ACTIVE INGREDIENTS
(IPBC) 3-Iodo-2-Propynyl Butyl Carbamate 0.98%
(Tebuconazole) α-[2-(4-chlorophenyl)ethyl-α-(1, 1-dimethylpropyl)-1H-1,2,4-triazole-1-ethanol 0.98%
(Propiconazole) 1-[2(2,4-dichlorophenyl)-4-propyl-1,3-dioxolan-2-yl]methyl-1H-1,2,4-triazole 0.98%
OTHER INGREDIENTS
TOTAL
Contains petroleum distillate 97.06%
100.00%

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

GENERAL PRECAUTIONS AND RESTRICTIONS:
FOR INDUSTRIAL USE

CONSULT SAFETY DATA SHEET (SDS) BEFORE USING

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application.

This preservative is recognized as effective for above ground use and not recommended for ground contact. Woodlife® 111 HP is intended for use on new lumber, plywood, particleboard, waterboard, millwork and similar type of wood products.

This clear oil solution has been developed for the protection of wood against fungus growths which cause rot and stain. It also contains water repellents to aid in control of shrinking, swelling, end checking, grain raising and warping.

For best results, this product must be applied so as to effect maximum penetration into wood and heavy absorption especially at joints and wherever end grain exists. A three minute immersion period is recommended for millwork. For other open tank treatments, completely immerse the wood in the solution generally recommended for five minutes per inch of thickness. For the control of dimensional changes, shrinkage and swelling, the treatment of the end grain is most important since the moisture pickup there is a hundred to a thousand times greater than at the flat or edge grain surface for many species of wood. Vacuum or pressure assisted treating in a closed system will result in deeper penetration.

Estimated Coverage: 5 to 15 gallons per thousand board feet for open tank treatment. 200 Square Feet per gallon for brush application.

Compatibility: This product is compatible with other products designed for millwork protection including Timbertreat® ICP-5. Contact Kop-Coat, Inc. for details.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

Storage: Store in a closed, properly labeled container in a cool place. If static generating conditions exist, provide necessary grounding and bonding. Keep containers closed when not in use.

Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Handling: Nonrefillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container ¼ full with water. Replace and tighten closures. Tip container on its side and roll it back and forth ensuring at least one complete revolution for 30 seconds. Stand the container on its end and tip it back and forth ensuring at least one complete revolution for 30 seconds. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times. Then offer for recycling if available.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION. Avoid contact with skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Wear chemical resistant gloves, such as barrier laminate, nitrile rubber, neoprene rubber or viton.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Mixers and loaders using liquid formulation must wear:

1. Long-sleeved shirt and long pants.
2. Shoes and socks, and chemical resistant gloves. Some materials/gloves that are chemical-resistant to this product are barrier laminate, nitrile rubber, neoprene rubber and viton.

USER SAFETY REQUIREMENTS

• Follow manufactures instructions for clean/maintaining PPE. If no such instructions exist for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.
• Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product’s concentrate. Do not reuse them.

USER SAFETY INSTRUCTIONS

Users must:

• Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
• Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
• Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.
ENVIRONMENTAL HAZARDS
This pesticide is toxic to fish and shrimp. Do not apply directly to water. Do not contaminate water when disposing equipment wastewaters. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Eliminations System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of Environmental Protection Agency.

PHYSICAL OR CHEMICAL HAZARDS

COMBUSTIBLE - Do not use, pour, spill, or store near heat or open flame.

IN CASE OF FIRE
Use alcohol foam, dry chemical, carbon dioxide, water spray, foam or fog to extinguish fire.

LIMIT OF WARRANTY AND LIABILITY
We warrant this material to comply with our published specifications and to be of good merchantable quality and such as will regularly pass in the trade for goods within the description, and further warrant such goods to be fit for the normal purposes for which goods are used. We assume no responsibility that the goods concerned in this contract are fit for any particular purpose for which they are being bought outside of the general purposes of goods of the description.
