NOTICE OF PESTICIDE:

Registration
 Reregistration

(under FIFRA, as amended)

EPA Reg.

Number:

60061-123

Date of Issuance:

October 16, 2007

Term of Issuance:

Unconditional

Name of Pesticide Product:

Waterborne Milltreat® 111
Concentrate

Name and Address of Registrant (include ZIP Code):

Kop-Coat, Inc.
436 Seventh Ave.
Pittsburgh, PA 15219-1818

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA sec 3(c)(5) provided that you:

1. Submit and/or cite all data required for registration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section
2. Make the labeling changes listed below before you release the product for shipment:

- a. Revise the "EPA Registration Number to read, "EPA Reg No. 60061-123"

Signature of Approving Official:

Adam Heyward
Product Manager Team-34
Regulatory Management Branch II
Antimicrobials Division (7510P)

Date:

October 16, 2007

3. Submit three (3) copies of the final printed label prior to releasing this product for sale.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely,

Adam Heyward
Product Manager 34
Regulatory Branch II
Antimicrobials Division (7510P)

Enclosure: (Stamped Labeling)

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

GENERAL PRECAUTIONS AND RESTRICTIONS:

FOR INDUSTRIAL USE ONLY Do not apply this product in a way that will contact workers or other persons. Do not use on wood, which will come in contact with food.

DILUTE BEFORE USING Dilution may range from: 3 parts of water to 1 part concentrate up to 7 parts of water to 1 part concentrate by volume.

Mixing Instructions: Prior to making the ready-to-use product from Waterborne Milltreat™ 111 Concentrate, please contact Kop-Coat, Inc. for proper step-by-step instructions.

GENERAL INFORMATION

Description: Waterborne Milltreat™ 111 Concentrate is a clear, penetrating, paintable, water repellent preservative for wood. It protects against decay fungi (such as brown or white rot), staining fungi (such as blue stain), surface mold (such as black, brown or other colored mildew) and dimensional change.

Product Uses: Millwork, shingles, siding, plywood, hardboard, flakeboard, engineered wood products, structural lumber (above ground use only).

Preparation: Machine, cut, glue, and sand wood as desired before treating. Do not use over previously finished or stained wood without stripping off old finish. Do not use steel wool. Wood must be clean and dry.

Finishing: Before glazing, painting or varnishing, treatment should be completely dry and odor free. Allow 24 to 48 hours under average temperature and humidity conditions. Can be heat-dried for plant production. Use a sealer such as shellac before using lacquers.

Clean Up: Use water and detergent to clean immersion tanks, spray equipment, and surrounding area. Mineral spirits or paint thinner may be required to remove dried Waterborne Milltreat™ 111 Concentrate.

APPLICATION INSTRUCTIONS:

- 1) Treating solution, wood and surrounding air must be above 60°F (4.4°C). Apply by immersion, roller coater, flood spray, or brush. Any surface cut after first treatment should be retreated.
- 2) Retention: A 3-minute immersion period is recommended for 5 to 10 gallons per MBF, 30-minute immersion - 10 to 15 gallons per MBF. Brush application - 150 sq. ft. per gallon, but varies by species and condition of the substrate.
- 3) Immersion: Millwork or other items to be painted - 3 minutes. Treatment should be in accordance with WDMA IS-4. Use only items for above ground exposure.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.
PESTICIDE STORAGE: Store this product in its originally labeled container in a storage area located in a cool place. Keep container and freshly treated articles away from high temperature areas, sparks, fire, or open flame.
PESTICIDE DISPOSAL: Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions contact your State Pesticides or Environmental Control Agency, or the Hazardous waste representative at the nearest EPA Regional Office for guidance.
CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.
BULK SHIPMENTS: Refer to DOT requirements
