Subject:

Amended Reregistration Label

WORKHORSE®

EPA Registration Number: 60061-126 EPA Decision Number: 454649

Dear Ms. Custer:

The Agency, in accordance with the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, has completed reviewing all of the information submitted with your application to support the reregistration of the above referenced product in connection with the **Propiconazole RED** and has concluded that your submission is acceptable.

NOTE: This product is **not** being reregistered under sections 3(c)5 and 4(g) of FIFRA at this time.

Please note that the record for this product currently contains the Confidential Statement of Formulation (CSF) listed below. Any previously dated CSFs are superseded.

- Basic CSF, dated September 16, 2013

A copy of your label stamped "Accepted" is enclosed along with copies of the acute toxicity and product chemistry reviews completed for the subject product. Products shipped after 12 months from the date of this amendment or the next printing of the label whichever occurs first, must bear the new revised label. Your release for shipment of the product bearing the amended label constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e).

Should you have any questions or comments concerning this letter, you may contact me by telephone at (703) 308-6416 or by e-mail at campbell.jacqueline@epa.gov or Srinivas Gowda by telephone at (703) 308-6354 or by e-mail at gowda.srinivas@epa.gov during the hours of 8:00am to 4:00pm EST. When submitting information or data in response to this letter, a copy of this letter should accompany the submission to facilitate processing.

Sincerely,

Product Manager 34

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

GENERAL PRECAUTIONS AND RESTRICTIONS

Do not apply this product in a way that will contact workers or other person, either directly or through drift. Only protected handlers may be in the area during application

Wear synthetic rubber gloves or plastic coated gloves in handling solutions and freshly treated lumber. Treated sawdust and other wood wastes must be disposed of properly and must not be used as mulch where it will come into contact with useful living plants. Care must be taken to prevent drip or spray from contacting omamental shrubs, trees, grass, and other desirable vegetation.

Description: Workhorse* Sepstain and Mold Control Product is a liquid concentrate containing an effective combination of fungloides for the control of sepstain and surface staining fungi that cause discoloration and staining of freshly sawn lumber. Workhorse® Sapstain and Mold Control Product is an aqueous solution which may be applied to dimensional lumber, logs, plywood and particle board to

Dilution Ratio: Workhorse® Sapstain and Mold Control Product is dilutable with water. For lumber in dip systems, use 1 galton of concentrate per 50 galtons to 200 galtons of water to protect against staining organisms (at 2001 ditution, fungal resistance is up to 3 months on softwoods). For spray systems use 1 gallon of concentrate per 5 to 25 gallons of water. Contact Kop-Coat, Inc. for recommendations and further information

Application instructions: Flood spray or dip the freshly sawn clean lumber to be treated in Workhorse® Sapstain and Mold Control Product solution within 24 hours after cutting. A dip of 15 seconds or more is sufficient. If not treated within 24 hours, stain may occur.

Lumber must be totally immersed or sprayed to ensure treatment. Tanks must be covered by a roof to must be cleaned regularly to remove sawdust and other debris. Freshly treated lumber must not be prevent the addition of rain water and consequent dilution of the solution. Vats and spray equipment exposed to water. Store in protected area from rain and stack properly for best results. Clean Up: Use water to clean immersion tanks, spray equipment and surrounding area. Soapy water may be required to remove Workhorse® Sapstain and Mold Control Product from floors and equipment.

Do not contaminate water, food, or feed by storage or disposal.

Storage: Store in a closed, properly tabeled container in a cool place. If stallo generating conditions exist, provide necessary grounding and bonding. Keep containers closed when not in use.

Peetidide Diaposal: Postibide wastes are acutely hazardous. Improper disposal of excess pestibide, spray minkure, or rinstals is a violation of Foderal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste represente tive at the nearest EPA Regional Office for guidance.

forth several times. Empty the rinsale into application equipment or a mix tank or store rinsate for later use or Container Handling: Nonrefillable container. Do not reuse or refill this container. Triple rinse container (or equipment or a mix tank. Fill the container ¼ full with water. Replace and tighten closures. Tip container on its on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and side and roll it back and forth ensuring at least one complete revolution for 30 seconds. Stand the containe equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application disposal. Repeat this procedure two more times. Then offer for recycling if available.

Sapstain and Mold Control Product Workhorse®

CORRSINE. Causes skin burns. Causes Irrevensible eye damage. Harmful if absorbed through skin. Harmful if inhaled. Harmful if swallowed. Do not get in eyes, on skin, or on clothing.
