Subject: Amended Reregistration Label
Product Name: Workhorse® Sapstain and Mold Control Product
EPA Registration Number: 60061-126
Decision Number: 428673

Dear Ms. Custer:

The Agency, in accordance with the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, has completed reviewing all of the information submitted with your application to support the reregistration of the above referenced product in connection with the Diiodomethyl p-tolyl sulfone RED, and has concluded that your submission is acceptable. The label referred to above, submitted in connection with registration under FIFRA, as amended, is acceptable.

NOTE: This product is **not** yet being reregistered under section 4(g) of FIFRA at this time.

Please note that the record for this product currently contains the Confidential Statements of Formulation (CSFs) listed below. Any previously dated CSFs are superseded.

- Basic CSF, dated September 16, 2013
- Alternate CSF 1, dated September 16, 2013

A copy of your label stamped "Accepted" is enclosed. Products shipped after 12 months from the date of this amendment or the next printing of the label, whichever occurs first, must bear the new revised label. Your release for shipment of the product bearing the amended label constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6.

Enclosures: Label stamped "Accepted"

KOP-COAT

Workhorse®

Sapstain and Mold Control Product

US Patent Number 6,375,727 and 7,056,919. Additional Patents Pending

Aids in the control of blue stain, mold and decay of freshly cut lumber, dry lumber and other wood based products when properly used. Effective on softwoods including Douglas fir, White fir, Spruce, Hemlock, the Pines including both the Southern and Western Yellow Pines, Eastern and Western White Pines and many of the hardwoods.

KEEP OUT OF REACH OF CHILDREN

DANGER

EPA Reg. No. 60061-126
EPA Est. No. 60061-MO-1

ACTIVE INGREDIENTS
Dichlorophenylamine 0.30%
(Propiconazole) 1,12-(2,4-dichlorophenyl)-4-propyl-1,3-dioxolane-2-ylmethyl-H-1,2,4-triazole 1.10%
(PBC) 3-keto-2-propenyl Butyl Carbamate 1.10%
OTHER INGREDIENTS 97.50%
TOTAL 100.00%

Read Warranty on side panel before buying or using. If such terms are not acceptable, return at once unopened.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

GENERAL PRECAUTIONS AND RESTRICTIONS:

FOR INDUSTRIAL USE

DILUTE BEFORE USING

Do not apply this product in a way that will contact workers or other person, either directly or through drift. Only protected handlers may be in the area during application.

Wear synthetic rubber gloves or plastic coated gloves in handling solutions and freshly treated lumber. Treated sawdust and other wood wastes should be disposed of properly and should not be used as mulch where it will come into contact with useful living plants. Care should be taken to prevent drip or spray from contacting ornamental shrubs, trees, grass, and other desirable vegetation.

GENERAL INFORMATION

Description: Workhorse® Sapstain and Mold Control Product is a liquid concentrate containing an effective combination of fungicides for the control of sapstain and surface staining fungi that cause discoloration and staining of freshly sawn lumber. Workhorse® Sapstain and Mold Control Product is an aqueous solution which may be applied to dimensional lumber, logs, plywood and particle board to prevent surface mold growth.

Dilution Ratio: Workhorse® Sapstain and Mold Control Product is dilutable with water. For lumber in dip systems, use 1 gallon of concentrate per 50 gallons to 200 gallons of water to protect against staining organisms (at 200:1 dilution, fungal resistance is up to 3 months on softwoods). For spray systems use 1 gallon of concentrate per 5 to 25 gallons of water. Contact Kop-Coat, Inc. for recommendations and further information.

Application Instructions: Flood spray or dip the freshly sawn clean lumber to be treated in Workhorse® Sapstain and Mold Control Product solution within 24 hours after cutting. A dip of 15 seconds or more is sufficient. If not treated within 24 hours, stain may occur.

Lumber should be totally immersed or sprayed to ensure treatment. Tanks should be covered by a roof to prevent the addition of rain water and consequent dilution of the solution. Vats and spray equipment should be cleaned regularly to remove sawdust and other debris. Freshly treated lumber should not be exposed to water. Store in protected area from rain and stack properly for best results.

Clean Up: Use water to clean immersion tanks, spray equipment and surrounding area. Soapy water may be required to remove Workhorse® Sapstain and Mold Control Product from floors and equipment.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. Storage: Store in a closed, properly labeled container in a cool place. If static generating conditions exist, provide necessary grounding and bonding. Keep containers closed when not in use. Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or insecticide is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Handling: Nonrefillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container 1/2 full with water. Replace and tighten closures. Tip container on its side and roll it back and forth several times. Turn the container over onto its other end and roll it back and forth several times. Empty the inside into application equipment or a mix tank or store in waste for later use or disposal. Repeat this procedure two more times. Then offer for recycling if available.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER

CORROSIVE. Causes skin burns. Causes irreversible eye damage. Harmful if absorbed through skin. Harmful if inhaled. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Avoid breathing spray mist. Wear protective eyewear (goggles or face shield), coveralls worn over long-sleeved shirt and long pants, socks, chemical-resistant footwear, and chemical resistant gloves. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Applicators and other handlers should wear:

1. Coveralls over long-sleeved shirt and long pants.
2. Chemical-resistant footwear plus socks.
3. Goggles or safety glasses with face shield.
4. Chemical-resistant gloves (such as barrier, laminate, nitrile rubber, neoprene rubber and vinyl).
5. Respirator with an organic vapor-removing cartridge with a prefilter approved for pesticides (MSHA/NIOSH approval prefix TC-23C) or a canister approved for pesticides (MSHA/NIOSH approval prefix TC-14G) or a NIOSH approved respirator with an organic vapor (OV) cartridge or canister with any R, P, or HE prefilter.

USER SAFETY REQUIREMENTS

- Follow manufacturer instructions for clean/maintaining PPE. If no such instructions exist for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.
- Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product's concentrate. Do not reuse them.

USER SAFETY RECOMMENDATIONS

Users should:

- Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
- Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Remove personal protective equipment immediately after handling this product. Wash outside of gloves before removing. As soon as possible wash thoroughly.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and shrimp. Do not apply directly to water. Do not contaminate water when disposing equipment/waste. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of Environmental Protection Agency.

PHYSICAL OR CHEMICAL HAZARDS

COMBUSTIBLE - Do not use, pour, spill, or store near heat or open flame.

IN CASE OF FIRE

Use water spray or fog, foam, dry chemical or carbon dioxide to extinguish fire.

LIMIT OF WARRANTY AND LIABILITY

We warrant this material to comply with our published specifications and to be of good merchantable quality and such as will regularly pass in the trade for goods within the description, and further warrant such goods to be fit for the normal purposes for which goods are used. We assume no responsibility that the goods concerned in this contract are fit for any particular purpose for which they are being bought outside of the general purposes of goods of the description.
