Number:

60061-133

Date of Issuance:

AUG 30 2010

Term of Issuance:

Unconditional

Name of Pesticide Product:

Tru-Core® Millwork
Preservative

NOTICE OF PESTICIDE:

- ☒ Registration
☐ Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Kop-Coat, Inc.
436 Seventh Avenue
Pittsburgh, PA 15219-1811

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product (OPF Decision Number: D-430669) is unconditionally registered in accordance with FIFRA sec 3(c)(7)(a) provided that you:

1. Submit and/or file all data required for registration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for re-registration of your product under FIFRA section 4.
2. Make the labeling changes listed below before you release the product for shipment:
 - a. Revise the EPA Registration Number to read, "EPA Reg. No. 60061-133".

DATE

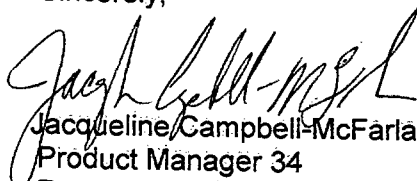

b. You must add the heading **USER SAFETY REQUIREMENT** and add the following statements: "User must wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. User must remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Users must remove PPE immediately after handling the product. As soon as possible, wash thoroughly and change in to clean clothing."

3. You must submit the OPPTS Guidelines: 830.6317 Storage stability and 830.6320 Corrosion characteristics studies upon completion.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped label with comments is enclosed for your records. Submit one (1) copy of your final printed labeling prior to release of this product for shipment. Should you have any questions concerning this letter, please contact me by telephone at (703) 308-6416 during the hours of 8:00 am to 5:00 pm EST.

Sincerely,

Jacqueline Campbell-McFarlane,
Product Manager 34

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

GENERAL PRECAUTIONS AND RESTRICTIONS:

FOR INDUSTRIAL USE: Do not apply this product in a way that will contact workers or other persons. Do not use on wood, which will come in contact with food.

DILUTE BEFORE USING Dilution may range from: 1 parts of water to 1 part concentrate up to 100 parts of water to 1 part concentrate by volume.

Mixing instructions: Contact Kop-Coat, Inc. for proper step-by-step instructions. Can be custom blended with other EPA registered insecticides, fungicides, or pesticides, making sure the blend bears labeling that does not prohibit the use of the pesticide in the blend. Material can be mixed on site with appropriate buffers or other Kop-Coat approved products, such as but not limited to Kop-Coat Buffer Concentrate.

"Observe the most restrictive of the labeling limitations and precautions of all products used in mixtures."

GENERAL INFORMATION

Description: Tru-Core® Millwork Preservative Concentrate is a clear, penetrating, paintable, water repellent preservative for wood. It protects against decay fungi (such as brown or white rot), staining fungi (such as blue stain), surface mold (such as black, brown or other colored mildew) and dimensional change.

Product Uses: Millwork, shingles, siding, plywood, hardboard, flakeboard, fencing, weatherboard, engineered wood products, structural lumber (above ground use only), and other wood products.

Preparation: Machine, cut, glue, and sand wood as desired before treating. Do not use over previously finished or stained wood without stripping off old finish. Do not use steel wool. Wood must be clean. Finishing: Before glazing, painting or varnishing, treatment should be completely dry. Allow 24 to 48 hours under average temperature and humidity conditions. Can be heat-dried for plant production. Use a sealer such as shellac before using lacquers.

Clean Up: Use water to clean immersion tanks, spray equipment, and surrounding area.

APPLICATION INSTRUCTIONS:

1) Treating solution, wood and surrounding air must be above 60°F (15.6°C).

Apply by immersion, roller coater, flood spray, or brush. Any surface cut after first treatment should be retreated.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Store in a cool, dry area under lock and key. Post as a pesticide storage area. Always store pesticides in the original container. Store away from food, pet food, feed, seed fertilizers, and veterinary supplies. Place liquid formulations on lower shelves and dry formulations above.

PESTICIDE DISPOSAL: Pesticide wastes may be hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed by use according to label instructions, contact your state Pesticide Or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER Handling Nonrefillable container. Do not reuse or refill this container. Triple rinse (or equivalent) promptly after emptying. Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¼ full with water and recap. Shake 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer for recycling if available, or puncture and dispose of in a sanitary landfill or by incineration, Do not burn unless allowed by state or local ordinances.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMAN AND DOMESTIC ANIMALS

WARNING. Causes substantial but temporary eye injury. Avoid contact with skin, eyes or clothing. Wear protective eye wear (goggles, face shield, or safety glasses). Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco or using the toilet.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Handlers including those handling treated lumber must wear:

- Long-sleeved shirt and long pants
- Chemical resistant gloves (such as barrier laminate, nitrile rubber, neoprene rubber and viton).
- Protective eyewear
- Shoes plus socks
- Remove personal protective equipment immediately after handling this product. Wash outside of gloves before removing. As soon as possible wash thoroughly. Follow manufacturers' instructions for cleaning/maintaining PPE. If no such instructions exist for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other water unless in accord with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA. Do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters or rinsate.

PHYSICAL OR CHEMICAL HAZARDS

COMBUSTIBLE: Do not use or store near heat or open flame. Immediately after use, place soiled rags and other waste material in a sealed water filled metal container. Keep container closed when not in use. Store in cool, well ventilated space away from incompatible materials (i.e. oxidizing agents, acids and bases)

WARRANTY: We warrant this material to comply with our published specifications and to be of good merchantable quality and such as will regularly pass in the trade of goods within the description, and further warrant such goods to be fit for the normal purposes which goods are used. We assume no responsibility that the goods concerned in this contract are fit for any particular purpose for which they are being bought outside of the general purposes of goods of the description.
