NOTICE OF PESTICIDE:

_X_ Registration
___ Reregistration
(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):
Sandy Lea
Pesticide Registrar
Kop-Coat, Inc.
36 Pine Street
Rockaway, NJ 07866

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Antimicrobials Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A). You must comply with the following conditions:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product under FIFRA when the Agency requires all registrants of similar products to submit such data.

Signature of Approving Official:  
Eric Miederhoff, Product Manager 31
Regulatory Management Branch I
Antimicrobials Division (7510P)
Office of Pesticide Programs
2. You are required to comply with the data requirements described in the DCI identified below:
   
a. Tralopyril GDCI-119093-1735
b. Zinc Pyrithione GDCI-088002-2480

You must comply with all of the data requirements within the established deadlines. If you have questions about the Generic DCI listed above, you may contact the Reevaluation Team Leader (Team 36): http://www2.epa.gov/pesticide-contacts/contacts-office-pesticide-programs-antimicrobial-division

3. The data requirements for storage stability and corrosion characteristics (Guidelines 830.6317 and 830.6320) are not satisfied. A one-year study is required to satisfy these data requirements. You have 18 months from the date of registration to provide these data.

4. Make the following label changes before you release the product for shipment:
   
   • Revise the EPA Registration Number to read, “EPA Reg. No. 60061-146.”

5. Submit one copy of the final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

If you fail to satisfy these data requirements, EPA will consider appropriate regulatory action including, among other things, cancellation under FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSFs:

   • Basic CSF dated 6/17/2020

If you have any questions, you may contact Joseph Daniels at (703) 347- 8669 or via email at Daniels.joseph@epa.gov.

PETTIT

ALUMASPRAY ECO
AEROSOL ANTIFOULING PAINT

1864 BLACK

- For Aluminum Outdrives and Outboards
- Advanced Slime Resistance
- Excellent for All Underwater Metal Surfaces

DANGER/PELIGRO
KEEP OUT OF REACH OF CHILDREN
EXTREMELY FLAMMABLE
CONTENTS UNDER PRESSURE

ACTIVE INGREDIENTS:
- Tralopyril 2.16%
- Zinc Pyrithione 1.73%

INERT INGREDIENTS:
- 96.11%
- Total 100.00%

This product contains petroleum distillates.

EPA EST. NO. 81405-WI-001

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**DANGER:** Corrosive. Causes skin burns and moderate eye irritation. Do not get in eyes, on skin, or on clothing. Harmful if inhaled. Avoid breathing dust, vapor or spray mist. Wear coveralls over long-sleeved shirt and long pants,socks and chemical resistant footwear, and chemical-resistant gloves (such as Barrier Laminat, Butyl nitrile/Neoprene Rubber, PVC, or Viton >14 mils). Wear a minimum of a NIOSH approved particulate filtering face piece respirator with any N, R, or P filter; OR a NIOSH approved elastometric particulate respirator with any N, R, or P filter; OR a NIOSH-approved powdered air purifying respirator with a HE filters. Wear goggles or face shield. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, tobacco, or using toilet. Remove and wash contaminated clothing before reuse.

**STORAGE AND DISPOSAL**

**Pesticide Storage:** Keep away from heat, sparks and open flame. Store in a closed, properly labeled container in a cool, dry place. Keep container closed and upright to prevent leakage. In case of spillage, absorb and dispose of in accordance with local and state authorities.

**Pesticide Disposal:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

**CONTAINER DISPOSAL:** Do not puncture or incinerate. A completely empty can can be disposed of with household trash. Wrap in paper before disposing.

**MAXIMUM VOC:** 75%

**GENERAL DESCRIPTION:** Pettit Alumaspray ECO Aerosol Antifouling Paint is an antifouling protective coating resistant to slime, algae, barnacles and other marine and freshwater fouling organisms. This product's unique controlled erosion polymers combined with the latest organic biocide technology minimizes coating build-up and keeps underwater surfaces smooth and clean. This product is for use in fresh, salt or brackish water on underwater metal parts such as outdrive units and outboard motors below the waterline. This paint is intended for use on underwater metal surfaces of recreational and commercial vessels of any size.

**DIRECTIONS FOR USE**

**NEW OUTDRIVE UNIT:** Lightly sand the factory paint with 80-grit sandpaper to dull the surface, clean with Pettit 120 Brushing Thinner and apply two coats of Pettit Alumaspray ECO Aerosol Antifouling Paint allowing a minimum of 6 hours at 70°F or 12 hours at 50°F drying time between coats.

**OUTDRIVES PREVIOUSLY PAINTED WITH ANTIFOULING PAINT:** Lightly sand the old antifouling paint, and then clean the sanded surface with Pettit 120 Brushing Thinner. Apply one coat of Pettit 6627 Tie-Coat Primer and allow to dry at least 4 hours, then apply two coats of Pettit Alumaspray ECO Aerosol Antifouling Paint allowing a minimum of 6 hours drying time between coats. If the old paint has been chipped to bare metal, the entire surface must be primed. Smaller areas less than one square inch can be spot primed prior to applying Pettit Alumaspray Eco Aerosol Antifouling Paint.

**BARE ALUMINUM OUTDRIVES AND OUTBOARDS:** The metal surface should be properly sandblasted or cleaned to bright metal. Apply two coats of Pettit Aluma Protect Aluminum Epoxy Primer 4400/4401 followed by two coats of Pettit Protect High Build Epoxy Primer 4700/4701 and two coats of Pettit Alumaspray ECO Aerosol Antifouling Paint.

**DRY TIMES:** The paint will dry to the touch in 30 minutes. The minimum recoat time is 6 hours. The minimum dry time between the final coat and launching is 16 hours. Under adverse drying conditions such as those encountered on cool or damp days extend the dry times by 50% in order to ensure that all the solvent is out of the paint film. There is no maximum time before launching.

**APPLICATION:** Shake can vigorously for at least one minute after mixing ball begins to rattle. Shake can often during use. Hold can 10-12 inches from the surface. Depress nozzle and spray with smooth even strokes. When finished spraying, clear spray valve by turning can upside down and spraying until no more paint comes out.

**COVERAGE:** One can covers approximately 15 square feet. Use the entire contents of one can for each lower unit or outboard.

**CLEAN-UP:** Use Pettit 120 Brushing Thinner.
