Subject: Echo® 90DF (EPA Reg. No. 60063-10) alternate brand names

In response to your letter dated March 21, 2001 (copy attached), we hereby supplying final printed labeling for the subject product, which was re-registered on January 29, 2004. As we stated when we submitted the original notification on Feb. 27, 2001, the only change represented by this notification is the names that we are attaching to the product, which are Echo 90DF Agricultural Fungicide and Echo 90DF Turf and Ornamental Fungicide. We could not submit the labels before now because the re-registration of this product took the Agency so long to complete.

Sincerely,

John R. French, Ph.D.
Technical Director

See label for complete directions. For more information on this product, see the label for complete directions. (See label for complete directions. For more information on this product, see the label for complete directions.)

IF INHALED: Move person to fresh air. If breathing is difficult, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or hospital for more information.

IF IN EYES: Hold eye open and irrigate with copious amounts of water for 15-20 minutes. Remove contact lenses, if present, after the first irrigation and continue rinsing eye. Call a poison control center or hospital for more information.

IF ON SKIN OR CLOTHING: Wash immediately with plenty of water. Remove contaminated clothing and shoes. Wash skin immediately with plenty of water. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor for treatment advice. Have affected person sip water or milk. Do not induce vomiting unless told by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

NOTES TO PHYSICIAN: For acute ingestion, treatment is symptomatic. Do not use gastric lavage. Persons having difficulty breathing should be given oxygen. Do not give anything by mouth to an unconscious person.

FIRST AID

IF INHALED: Move person to fresh air immediately. If breathing is difficult, call 911 for an ambulance, then give artificial respiration, if possible, and keep the person breathing until help arrives. Call a poison control center or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor for treatment advice. Have affected person sip a glass of water if able to swallow. Do not induce vomiting unless told by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when you call a poison control center or doctor or going to a hospital.

NOTES TO PHYSICIAN: Provide name of manufacturer and name of the product. Do not use gastric lavage. Persons having a seizure should not be given anything by mouth. Treatment with antiemetics or steroids is not recommended. For more information, call the manufacturer.
