Patricia McFadden Registration Manager Sipcam Agro USA, Inc. 2525 Meridian Parkway, Suite 350 Durham, NC 27713

Subject: PRIA Label Amendment – Adding previously approved uses

Product Name: Propamocarb Technical EPA Registration Number: 60063-78

Application Date: 3/12/2020 Decision Number: 561839

Dear Ms. McFadden:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance

Page 2 of 2 EPA Reg. No. 60063-78 Decision No. 561839

with FIFRA section 6. If you have any questions, please contact Nathan Mellor by phone at 703-347-8562, or via email at mellor.nathan@epa.gov.

NET CONTENTS:	[gallons] [gals.] [liters]
EPA Establishment No	<u>x]</u>
EPA Registration No. 60063-78	3

Manufactured for:

Sipcam Agro USA, Inc. 2525 Meridian Parkway Durham, NC 27713

ACCEPTED 11/13/2020

Under the Federal Insecticide, Fungicide and Rodenticide Act as amended, for the pesticide registered under EPA Reg. No. 60063-78

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION. Harmful if swallowed or absorbed through the skin. Avoid contact with skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco.

ENVIRONMENTAL HAZARDS

DO NOT discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. **DO NOT** discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or the Regional Office of the EPA.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Only for formulation into fungicides for

- (1) the following uses: cucurbit vegetables crop group 9, fruiting vegetables crop group 8-10, guava, leafy greens crop subgroup 4-16A, lima beans, potatoes, starfruit, and tuberous and corm vegetables crop group 1C; May additionally be used for greenhouse applications to cucurbit vegetables crop group 9, leaf lettuce, peppers, and tomatoes.
- (2) cutting beds and seedling areas, ornamental herbaceous plants, ornamental lawns and turf, ornamental sod farms (turf), ornamental woody shrubs and vines;
- (3) uses for which the U.S. EPA has accepted the required data and/or citations of data that the formulator has submitted in support of registration; and
- (4) uses for experimental purposes that are in compliance with U.S. requirements.

This product may be used to formulate any additional uses not listed on this label if the formulator, user group, or grower has complied with U.S. EPA data submission requirements regarding the support of such uses. Formulators using this product are responsible for obtaining EPA registration for their products.

STORAGE AND DISPOSAL

DO NOT contaminate water, food, or feed by storage, disposal, or cleaning of equipment. Dumping is prohibited.

STORAGE: Store unused product in original container only in a cool, dry area out of the reach of children or animals.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on-site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Nonrefillable container. **DO NOT** reuse or refill this container.

[For containers larger than 5 gallons and smaller than bulk containers:] Triple rinse or pressure rinse container promptly after emptying.

Triple rinse as follows: Empty the remaining contents into application manufacturing equipment or a holding tank. Fill the container ½ full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto it other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for

Propamocarb Technical EPA Reg. No. 60063-78

later use or disposal. Repeat this procedure two more times.

Pressure rinse as follows: Pressure rinse container promptly after emptying. Pressure rinse as follows: Empty the remaining contents into manufacturing equipment or a holding tank and continue to drain for 10 seconds after the flow begins to drip. Hold container upside down over application equipment or a mix tank or collect rinsate for later use or disposal. Insert pressure rinsing nozzle in the side of the container, and rinse at about 40 PSI for at least 30 seconds. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

Then offer for recycling if available or reconditioning if appropriate or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

[For Bulk Containers:] Pressure rinse container promptly after emptying. Pressure rinse as follows: Empty the remaining contents into manufacturing equipment or a holding tank and continue to drain for 10 seconds after the flow begins to drip. Hold container upside down over application equipment or a mix tank or collect rinsate for later use or disposal. Insert pressure rinsing nozzle in the side of the container, and rinse at about 40 PSI for at least 30 seconds. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer for recycling if available or reconditioning if appropriate or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

WARRANTY AND LIMITATION OF DAMAGES

Conditions of sale: Sipcam Agro USA, Inc. warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated on the label when used in accordance with the directions under normal conditions of use.
