 REREGISTRATION

(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

TERM OF ISSUANCE

NAME OF PESTICIDE PRODUCT

Multi-Wash

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Multi-Wash Medical Ltd.
2829 Canton Blvd., Ste. A
Marysville, MI 48040

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.

2. Add the phrase "EPA Registration No. 61181-1" to your label before you release the product for shipment.

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

MULTI-WASH

For Sanitizing, Cleaning, and Disinfecting

Keep out of reach of children.

DANGER!

See First Aid and other precautions on back panel.

Active Ingredients:

*Iodine 1.75%
Phosphoric Acid 6.80%
Inert Ingredients 91.45%
*a-(p-Nonylphenyl)-w hydroxypoly-(oxyethylene)-iodine complex

Use:

Multi-Wash is a one-step cleaner disinfectant containing iodine as the broad-spectrum germicide complexed with nonionic surfactants.

Multi-Wash can also be used as a sanitizer for food contact surfaces.

NET CONTENTS ONE GALLON

It is recommended for general use in hospitals, restaurants, and for general institutional use.

Multi-Wash when used at 150 ppm iodine, is effective for solid surfaces as a one-step cleaner disinfectant against bacteria and pathogenic fungi. Multi-Wash is effective against influenza A2 (Hong Kong) and Herpes Simplex viruses on environmental surfaces as a one-step cleaner disinfectant at 75 ppm iodine.

Directions for Use

It is a violation of federal law to use this product in a manner inconsistent with its label.

Sanitizing in food Processing Plants, Restaurants, and Institutional Food Service Areas: To sanitize previously cleaned and rinsed food process equipment, eating utensils and glassware, use 1 oz. Multi-Wash to 5 gallons of water (25 ppm titratable iodine). Apply with suitable applicator such as a brush or sponge generously to wet the surface thoroughly, allow a minimum of 1 minute contact time.

For small articles and utensils, use a bath containing 1 oz. Multi-Wash to 5 gal. water (25 ppm titratable iodine). Allow items to soak a minimum of 1 minute.

Allow to drain thoroughly, but do not rinse. When used in this manner, Multi-Wash does not require a final potable water rinse in accordance with the Code of Federal Regulations, Title 21, Section 178.1010.

Cleaning and Disinfecting in Hospitals and General Institutional Use. Operating rooms and equipment, patient rooms, animals cages and rooms, bed frames, and similar hard surfaces.

For disinfecting and cleaning in one operation, use 6 oz. of Multi-Wash to 5 gal. water (150 ppm titratable iodine). Apply with suitable applicator such as a sponge or mop so as to wet the surfaces thoroughly for a minimum contact time of 10 minutes. For extra dirty surfaces, clean gross filth first, then proceed as above. Rinse with potable water.

Precautionary statement:

Hazard to Humans and Domestic Animals.

Danger!

Corrosive, Causes eye damage. Protect eyes when handling. Do not get in eyes or on clothing. Avoid skin contact. Harmful if swallowed. Avoid contamination of food.

First aid:

In case of contact with eyes, flush immediately with plenty of water for at least 15 minutes. Call a physician. For skin wash promptly. Remove and wash contaminated clothing before re-use. If swallowed, drink large quantities of water. Call a physician.

Storage and Disposal:

Rinse empty containers thoroughly with water and discard in trash collection. Store in dry clean area away from direct sunlight. Do not contaminate food or feed stored by storage, disposal or cleaning of equipment.
