Jerome J. Czajka
President
Multi-Wash Medical, Ltd.
8680 Bennett S.E.
PO. Box 421
Ada, Michigan 49301

Subject: Product Name: Multi-Wash
 EPA Reg. No.: 61181-1
 Application Date: 15-Dec-2006
 Receipt Date: 11-Jan-2007

Mr. Czajka:

The following label amendment, submitted in connection with registration under section of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable with the following comments:

1. The precautionary statement heading must be placed above the precautionary statement.
2. The first aid statement heading must be separated from the first aid statement instructions. The first aid statements and heading should displayed on the label as follows:

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first five minutes, then continue rinsing eye. Call a poison control center or doctor for advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for advice.

IF SWALLOWED: Call a poison control center or doctor for advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

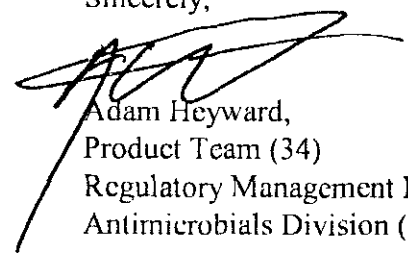

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

- 3. The ingredient statement must total 100%.

Submit the three copies of the final bearing the revisions listed above. A stamped copy of the accepted labeling is enclosed.

If you have any questions or comments concerning this letter, please do not hesitate to contact me by telephone at (703) 308-6422 or by email at heyward.adam@epa.gov.

Sincerely,

Adam Heyward,
Product Team (34)
Regulatory Management Branch II

ONE GALLON

Call a Poison Control Center or doctor for treatment advice.

IF SWALLOWED:

Call a poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told by a Poison Control Center or doctor. Do not give anything by mouth to an unconscious person. Have the product container or label with you when calling a Poison Control Center or doctor or go in for treatment.

NOTE TO PHYSICIAN:

"Probable mucosal damage may contraindicate the use of gastric lavage."

USES: Multi-Wash is a one step cleaner disinfectant containing iodine as the broad-spectrum germicide complexed with nonionic surfactants. Multi-Wash can be

used as a sanitizer for food contact surfaces. It is recommended for general use in hospitals, restaurants, and for general institutional use. Multi Wash when used at 150 ppm iodine, is effective for solid surfaces as a one step cleaner disinfectant against bacteria and pathogenic fungi. Multi-Wash is effective against influenza A2 (Hong Kong) and Herpes Simplex viruses on environmental surfaces as a one-step cleaner disinfectant at 75 ppm iodine. Multi-Wash can also be used at 100 ppm iodine as a disinfectant against bacteria, pathogenic fungi, and as a tuberculocide on pre cleaned environmental surfaces. Multi Wash qualifies as a sanitizer that does not require a potable water rinse after use on food processing equipment and utensils as specified in the Code of Federal Regulations, Title 21, Section 178.1010, Sanitizing Solutions, Paragraph (b) (5). Multi-Wash is not adversely

affected as sanitizing rinse in water hardness up to 500 ppm CaCO₂. Amber to brown color of use dilution is indicator of germicidal strength. A fresh solution should be prepared each day or more frequently if noticeable change occurs in the initial color of solution.

Directions for Use

It is a violation of federal law to use this product in a manner inconsistent with its label.

Sanitizing in Food Processing Plants, Restaurants, and Institutional Food Service Areas:

To sanitize previously cleaned and rinsed food processing equipment, eating utensils and glassware, use 1 oz. Multi-Wash to 5 gallons of water (25 ppm titratable iodine). Apply with suitable applicator such as a brush or sponge generously to wet the surfaces thoroughly, allow a minimum 1 minute contact time. For small articles and utensils, use a bath containing 1 oz. Multi-Wash to 5 gal. water (25 ppm titratable iodine). Allow items to soak a minimum of 1 minute. Allow to

drain thoroughly, but do not rinse. When used in this manner, Multi-Wash does not require a final potable water rinse in accordance with the Code of Federal Regulations, Title 21, Section 178.1010.

Cleaning and Disinfecting in Hospitals and General Institutional Use:

Operating rooms and equipment, patient rooms, animal cages and rooms, bed frames, and similar hard surfaces. Use 4 oz. of Multi-Wash per 5 gal. water (100 ppm titratable iodine). Allow to soak a minimum of 10 minutes or until next use. Rinse with potable water. For disinfecting and cleaning in one operation, use 6 oz. of Multi-Wash to 5 gal. water (150 ppm titratable iodine). Apply with suitable applicator such as sponge or mop so as to

wet the surfaces thoroughly for a minimum contact time of 10 minutes. For extra dirty surfaces, clean gross filth first, then proceed as above. Rinse with potable water. This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

Environmental Hazard:

Toxic to fish. Do not discharge in lakes, streams, ponds, or public water in accordance with NPDES chemical and physical warnings.

PRECAUTIONARY STATEMENT HAZARD TO HUMANS AND DOMESTIC ANIMALS DANGER!

ACCEPTED with COMMENTS EPA Letter Dated:

MAR 26 2007

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide, registered under EPA Reg. No. 61101-1

Corrosive:

Causes irreversible eye damage or skin burns. Harmful if swallowed or absorbed through skin or inhaled. Do not get in eyes, on skin or on clothing. Avoid breathing vapors or spray mist. Wear coveralls over long-sleeved shirt and long pants, socks and chemical resistant footwear, goggles or face

shield and chemical resistant gloves. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

Storage and Disposal:

Do not contaminate water, food or feed by storage or disposal.

Storage:

Store in dry clean area away from direct sunlight.

Pesticide Disposal:

Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these waste cannot be disposed of by use according to label instructions, contact our State Pesticide or Environmental

Control Agency or Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Disposal:

Rinse empty containers thoroughly with water and discard in trash collection.
