	Multi-Wash Mini	

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Multi-Wash Medical Ltd.
 2829 Gratiot Blvd., Suite A
 Marysville, MI 48040

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. Make the labeling changes listed below before you release the product for shipment:
 - a. Add the phrase "EPA Registration No. 61181-2."
 - b. On the small adhesive label, add the following (keyed to the word "VIRUCIDAL*" with an asterisk): "*Influenza A2 (Hong Kong) and Herpes Simplex viruses."
 - c. Replace the name "Multi-Wash" with "Multi-Wash Mini" wherever "Multi-Wash" appears in the supplemental labeling.

ATTACHMENT IS APPLICABLE

SIGNATURE OF APPROVING OFFICIAL

5. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely,

Ruth G. Douglas

iodine complex

Uses

Multi-Wash is a one-step cleaner disinfectant containing iodine as the broad-spectrum germicide complexed with nonionic surfactants.

Multi-Wash can also be used as a sanitizer for food contact surfaces.

NET CONTENTS
ONE GALLON

It is recommended for general use in hospitals, restaurants, and for general institutional use.

Multi-Wash when used at 150 ppm iodine, is effective for solid surfaces as a one-step cleaner disinfectant against bacteria and pathogenic fungi. Multi-Wash is effective against influenza A2 (Hong Kong) and Herpes Simplex viruses on environmental surfaces as a one-step cleaner disinfectant at 75 ppm iodine.

Multi-Wash can also be used at 100 ppm iodine as a disinfectant against bacteria, pathogenic fungi, and as a tuberculocide on pre-cleaned environmental surfaces.

Multi-Wash qualifies as a sanitizer that does not require a potable water rinse after use on food processing equipment and utensils as specified in the Code of Federal Regulations, Title 21, Section 178.1010, Sanitizing Solutions, Paragraph (b) (5).

Multi-Wash is not adversely affected as sanitizing rinse in water hardness up to 500 ppm CaCO₂.

Amber to brown color of use dilution is indicator of germicidal strength. A fresh solution should be prepared each day or more frequently if noticeable change occurs in the initial color of solution.

Directions for Use

It is a violation of federal law to use this product in a manner inconsistent with its label.

Sanitizing in Food Processing Plants, Restaurants, and Institutional Food Service Areas: To sanitize previously cleaned and rinsed food processing equipment, eating utensils and glassware, use 1 oz. Multi-Wash to 5 gallons of water (25 ppm titratable iodine). Apply with suitable applicator such as a brush or sponge generously to wet the surfaces thoroughly, allow a minimum 1 minute contact time.

For small articles and utensils, use a bath containing 1 oz. Multi-Wash to 5 gal. water (25 ppm titratable iodine). Allow items to soak a minimum of 1 minute.

Allow to drain thoroughly, but do not rinse. When used in this manner, Multi-Wash does not require a final potable water rinse in accordance with the Code of Federal Regulations, Title 21, Section 178.1010.

Cleaning and Disinfecting in Hospitals and General Institutional Use: Operating rooms and equipment, patient rooms, animal cages and rooms, bed frames, and similar hard surfaces.

Use 4 oz. of Multi-Wash per 5 gal. water (100 ppm titratable iodine). Allow to soak a minimum of 10 minutes or until next use. Rinse with potable water.

For disinfecting and cleaning in one operation, use 6 oz. of Multi-Wash to 5 gal. water (150 ppm titratable iodine). Apply with suitable

applicator such as sponge or mop so as to wet the surfaces thoroughly for a minimum contact time of 10 minutes. For extra dirty surfaces, clean gross filth first, then proceed as above. Rinse with potable water.

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood

barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

Precautionary statement: Hazard to Humans and Domestic Animals

Danger!

Corrosive. Causes eye damage. Protect eyes when handling. Do not get in eyes or on clothing. Avoid skin contact. Harmful if swallowed. Avoid contamination of food.

First aid:

In case of contact with eyes, flush immediately with plenty of water for at least 15 minutes. Call a physician. For skin, wash promptly. Remove and wash contaminated clothing before re-use. If swallowed, drink large quantities of water. Call a physician.

Storage and Disposal:

Rinse empty containers thoroughly with water and discard in trash collection. Store in dry clean area away from direct sunlight. Do not contaminate food or feed stored by storage, disposal or cleaning of equipment.

Physical and Chemical Hazard:

Mix only in dry clean container. In case of spill flood area with large quantities of water. * Important! Do not mix with any type of Chlorine Bleach! Do not mix with any thing but water. Avoid contamination of food.

Environmental Hazard:

Toxic to fish. Do not discharge in lakes, streams, ponds, or public water in accordance with NPDES chemical and physical warnings.
