

U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division (H7505C)
401 "M" St., S.W.
Washington, D.C. 20460.

EPA Reg. number:
61202-1

Date of Issuance:
JUN 9 1997

NOTICE OF PESTICIDE;
 Registration
 Reregistration

Term of Issuance:
Conditional

Name of Pesticide Product:
Imazapyr- EZ-Ject

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):
Odom Processing, Engineering, Consulting, Inc.
P.O. Box 829
Waynesboro, MS 39367

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.

2. Make the following label changes:

- a. Revise the EPA Registration Number to read, "EPA Reg. No. 61202-1".
- b. Delete the "Agriculture Use Requirements" Section. The Worker Protection Standards statements are not required for this product.

Signature of Approving Official:

Date:

JUN 9 1997

page 2
EPA Reg. No.

3. Submit two copies of the revised final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

JUN 9 1997

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide registered under EPA Reg. No. 61202-1

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION! HARMFUL IF SWALLOWED. CAUSES EYE IRRITATION. Avoid contact with eyes, skin or clothing FIRST AID: IF IN EYES, immediately flush with plenty of water. Get medical attention if irritation persists. Remove product from skin or clothing.

IF SWALLOWED, immediately induce vomiting as directed by medical personnel.

Personal Protective Equipment : Applicators and other handlers must wear long-sleeved shirt and long pants, shoes plus socks. Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately fro other laundry.

User Safety Recommendation: User should wash hands before eating, drinking chewing gum, using tobacco or using the toilet. Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

In case of emergency involving this product, Call day or night, (601) 735-2680 or (334)846-3258

Environmental Hazards

Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water marks. Do not contaminate water when disposing of equipment washwaters. **Direction For Use:** It is a violation of Federal law to use this product in any manner inconsistent with its labeling. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to our State or Tribe, consult the agency responsible for pesticide regulation.

Agricultural Use Requirements: Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE). The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Storage and Disposal: Do not contaminate water, foodstuffs, feed or seed by storage or disposal. **STORAGE:** Keep container closed to prevent spills and contamination. At the end of each use period, remove unused capsules from EZJECT capsules injection system. Replace unused capsules in original container and re-seal. **Disposal:** Waste resulting from the use of this product that cannot be used or chemically repossessed should be disposed of in a landfill approved for pesticide disposal or in accordance with applicable Federal, state and local procedures.

This product is recommended for woody brush, tree and vine control in all noncropland sites, including forestry, roadsides, right-of-way, industrial, residential, fencerows, railroads and aquatic sites. For aquatic sites, this product may be injected into stems of trees and brush standing in water or wetlands. Do not apply directly to water or inject into stems below the water level. Woody vegetation may be controlled by injection of EZJECT selective injection herbicide capsules. Inject the capsules using only the EZJECT capsule injection equipment. The capsules must penetrate through the outer bark into living phloem tissue to provide effective results. For trees with less than 2.5 inch DBH (diameter breast height), inject one capsule per stem. Inject one capsules every 4 inches, evenly around the trunk of the tree, below all major branches. Tree may be injected at any time of the year except when wood is frozen. This product moves throughout the tree from the point of injection to all roots and shoots. Symptoms appear gradually (normally within 2 to 4 weeks), beginning with wilting, yellowing and browning of the foliage. This is followed by deterioration of all roots and shoots. This product will control the following species: American beech (*Fagus grandifolia*), Ash (*Fraxinus* spp.), Aspen (*Populus* spp.), Bald cypress (*Taxodium distichum*), Bigleaf maple (*Acer macrophyllum*), Blackgum (*Nyssa sylvatica*), Boxelder (*Acer negundo*), Cherry (*Prunus* spp.), Chinaberry (*Melia azedarach*), Chinese tallow-tree (*Sapium sebiferum*), Dogwood (*Cornus* spp.), Hawthorn (*Crataegus* spp.), Hickory (*Carya* spp.), Maple (*Acer* spp.), Mulberry (*Morus* spp.), Oak (*Quercus* spp.), Persimmon (*Diospyros virginiana*), Poplar (*Populus* spp.) Privet (*Ligustrum vulgare*), Red alder (*Alnus rubra*), Red Maple (*Acer rubrum*) Sassafras (*Sassafras albidum*), Sourwood (*Oxydendrum arboreum*), Sumac (*Rhus* spp.) Sweetgum (*Liquidambar styraciflua*), Willow (*Salix* spp.), Yellow poplar (*Linodendron tulipifera*).

Specific recommendation for many species of woody brush, tree and vines, other than those listed above, are under development.
