NOTICE OF PESTICIDE:  REGISTRATION  
 REREGISTRATION  
(Under the Federal Insecticide, Fungicide,  
and Rodenticide Act, as amended)

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Carm, Inc.  
3527 Denison Avenue  
San Pedro, CA 90731

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) or 4(a) when the Agency requires all registrants of similar products to submit such data.
2. Make the labeling changes listed below before you release the product for shipment.
  - a. Add the phrase "EPA Registration No. 61278-1" to the label before you release the product for shipment.
  - b. Delete the statements "The Ultimate in Outdoor Skin Protection" and "SKIN DEFENDER provides 16 times your natural sun burn protection and it will produce a long lasting barrier against pesky insects". These claims are inconsistent with regulations prohibiting false or misleading comparisons with other pesticides per 40 CFR 156.10 (a)(5)(iv). We would reconsider the reference to "16 times natural sunburn protection" if you explained the basis for the statement.

SIGNATURE OF APPROVING OFFICIAL

DATE JUL 25 1991

EPA Registration Number: 61278-1:

- c. Declare the names of the active sunscreen ingredients on the label as a footnote to the ingredients statement. Also, submit any published FDA monographs which were issued for the sunscreen ingredients.
- d. Declare the ingredient statement as follows:

ACTIVE INGREDIENTS:

N,N-diethyl-m-toluamide.....	22.8%
Other isomers.....	1.2%
INERT INGREDIENTS.....	76.0%

3. Submit a revised Confidential Statement of Formula declaring the correct EPA Registration Number for the source of active ingredient (#8340-39). This product has been transferred and the EPA Reg. Number which was designated on the CSF is no longer valid.

4. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

On August 5, 1988, you referred to an ongoing storage stability study, then in its eighth month, to be carried out for one year. Submit this study for the record (or cite the MRID assigned if it has been submitted).

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely,

*RFM*
