U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division (7505P)
1200 Pennsylvania Ave., N.W.
Washington, D.C. 20460

EPA Reg. Number:
61718-1

Date of Issuance:
AUG 30 2010

NOTICE OF PESTICIDE:
 Registration
 Reregistration
(under FIFRA, as amended)

Terms of Issuance:
Conditional

Name of Pesticide Product:
Pear Wrap III

Name and Address of Registrant (include ZIP Code):

**Wrap Pack Corporation
1728 Presson Place
Yakima, WA 98903**

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Decisions for both Copper and Ethoxyquin, EPA has reregistered the product listed above provided the following changes are made on all versions of the label (eg. 9x9, 10x10, 11x11 and 12x12).

- 1) Delete the text "For distribution and use only within the state of Washington" from the label.
- 2) Change "Active Ingredient" to "Active Ingredients".

Continued

Signature of Approving Official:

Tony Kish Product Manager, Team 22
Fungicide Branch
Registration Division (7504P)

Date:

AUG 30 2010

3. Per the Copper RED, the Chemical Abstracts Service (CAS) number for Copper carbonate must be listed in the ingredients statement ("CAS number 12069-69-1"). Additionally, the amount of metallic copper equivalent must be expressed as the percentage by weight directly below the ingredients statement (ie "Metallic copper equivalent = 0.74%").
4. To the end of the First Aid statements add the following text.
"Have the product container or label with you when calling a poison control center of doctor or going for treatment. You may also contact (fill in missing company phone number) for emergency medical treatment information."
5. The Hazards to Humans and Domestic Animals must be revised to read: "CAUTION: Harmful if swallowed. Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals."
6. In the "User Safety Requirements" box, delete the first three sentences starting and ending with "Persons...rubber". Delete the asterisk prior to the sentence "*Follow manufacturer's...laundry", and keep these final two sentences in this section.
7. Add a new missing heading "Personal; Protective Equipment (PPE)" before the "User Safety Requirements" section, and in this section add the deleted sentence from #6 above "Persons...rubber". Also move the sentence "Wear long-sleeved shirt...category A" from the "User Safety Requirements" section into this new section.
8. Change the title "User Safety Recommendation" to "User Safety Recommendations".
9. Following the Directions for Use, revised the "CROPS" section as follows.
"CROPS
Pears: To prevent scald. Wrap fruit within 1 week post harvest. These treated pear wraps contain a maximum of 1,000 ppm ethoxyquin. They can be used on pears that have received prior treatment with ethoxyquin providing those pears were sprayed only once with no more than 1700 ppm of ethoxyquin, or drenched only once with no more than 1,000 ppm of ethoxyquin. Do not re-use fruit wraps"
10. Revise the Pesticide Storage text as follows: "Pesticide Storage: Store in a cool place. Prolonged exposure of the wrap to air or sunlight may result in darkening of the product and staining of the fruit."
11. Delete text on the entire right hand side of the label which represents the "Special Local Need" label and is not part of the product master label.

The requirement to satisfy the one year of "Storage Stability and Corrosion Characteristics" data are waived providing the label keeps current with the "Not for sale or use after" and "90 day" expiration date statements.

3
9/3

Regarding the Special Local Need registration associated with this parent product registration (WA-000031), submitted in connection with registration under FIFRA section 24c and in response to the REDs, the following changes are needed.

12. Add the ingredient statement including the CAS number for Copper and amount of metallic copper directly below the ingredients statement.
13. Add the signal word "Caution" following the ingredient statement, CAS No., metallic equivalent information, and "Not for sale or use after" and "90 day" expiration statements.
14. Change the product name to "Pear Wrap III" throughout the label.
15. In the sentence starting "This label for Pear wrap...", replace "disturbed" with "distributed".
16. Change the "Directions For Use" to include the changes herein for the master label.
17. Note that the ethoxyquin RED allows the use direction changes in item #9 herein and these are the same directions as on the SLN, so there is really **no need** for this SLN and it should be **withdrawn**.

You must forward a copy of this letter/label and revised SLN labeling to the appropriate State official(s) for their comment/approval. Any additional State-stipulated wording or limitations, including reference to applicable State Rules or Regulations or updates to them, must appear on the labeling. Please notify the Agency by e-mail to kish.tony@epa.gov and joyner.shaja@epa.gov when you actually do forward the revised SLN label to the State. When submitting each label to the State, please request the State to forward a copy of the revised SLN label (including their additions, if any) to this Agency for official confirmation of their receipt and approval, since Agency approval of the State's notification is required to finalize the action.

Submit one (1) copy of final printed labeling incorporating the above changes before you release the product for shipment. Amended labeling will supersede all previously accepted labels. A copy of your label stamped "Accepted with Comments" is enclosed for your records. Note we have crossed out the SLN section which is not part of the master label for this product. Products shipped after 12 months from the date of this Notice or the next printing of the label, whichever occurs first, must bear the new revised label.

This action is taken under the authority of section 4(g)(2)(c) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

Registration Division (7504P)

Enclosure(s) Label stamped "Accepted with Comments"

FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF WASHINGTON

PEAR WRAP III 9x9 inch

TREATED WITH ETHOXYQUIN AND COPPER

ACTIVE INGREDIENT: Ethoxyquin (6-ethoxy-1,2-dihydro-2,2,4-trimethylquinoline) 0.1%
Copper Carbonate 1.3%

INERT INGREDIENTS: 98.6%
TOTAL: 100.0%

CAUTION: KEEP OUT OF REACH OF CHILDREN

FIRST AID

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present after the first 5 minutes then continue rinsing eyes. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

PRECAUTIONARY STATEMENT

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing. Wear long-sleeved shirt, long pants, shoes, socks, and chemical-resistant gloves made of any waterproof material, selection category A. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

USER SAFETY REQUIREMENTS

Persons sorting, packing, culling, or otherwise handling treated pear and persons handling impregnated paper wrap are considered handlers and must wear handler PPE. Gloves- Category A- polyvinyl chloride, nitrile rubber, or butyl rubber. *Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washable exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATION

User should wash hands before eating, drinking, chewing gum, tobacco, or using the toilet. User should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. User should remove PPE immediately after handling this product. As soon as possible, wash thoroughly and change into clean clothing. Wash the outside of gloves before removing.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

CROPS

Pears, to prevent scald. Wrap within 1 week post-harvest. Do not use impregnated wraps on fruit which has been previously treated with Ethoxyquin pre-harvest or post-harvest.

Do not re-use fruit wrap.

Storage and Disposal

Do not contaminate water, food or feed by storage and disposal. Pesticide Storage: Store in a cool place. Prolonged exposure of the chemical to air or sunlight may result in darkening of the product and staining of the fruit.

Pesticide Disposal: Place discarded pear wraps in trash. Container Disposal: Nonrefillable container. Do not reuse this container. Offer for recycling if available or dispose of box in a sanitary landfill or by other procedures approved by state and local authorities

Net Contents: 28 lbs (15,000 Sheets)

In EPA Letter Dated

AUG 30 2010

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under EPA Reg. No. 61718-1

FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF WASHINGTON

PEAR WRAP III

TREATED WITH ETHOXYQUIN AND COPPER

EPA REG NO 61718-1

EPA SLN NO WA 000031

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling. This labeling must be in the possession of the user at the time of application. Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA registered label.

PEARS - To prevent scald.

Wrap pears within one week of post-harvest. Wraps treated with a maximum of 1,000 ppm ethoxyquin may be used on pears that have either been sprayed or drenched once with ethoxyquin. Application of ethoxyquin by line spraying must not exceed a total of 1,700 ppm or 1,000 ppm when applied as a drench. Do not re-use fruit wrap.

This label for Pear Wrap Treated with Ethoxyquin and Copper expires and must not be distributed or used in accordance with this SLN registration after December 31, 2010.
