

WOLMAN® 3490**For Industrial Use Only****INGREDIENTS:**

Active Ingredients:	
Basic Copper Carbonate	16.10%
Boric Acid	9.25%
Tebuconazole	0.47%
Inert Ingredients	74.18%
Total	100.00%

ACCEPTED

MAR - 9 1998

Under the Federal Insecticide, Fungicide, and
Rodenticide Act as amended, for the
pesticide, registered under
EPA Reg. No. 62190-16

KEEP OUT OF REACH OF CHILDREN**PRECAUTIONARY STATEMENTS****DANGER****DANGER****STATEMENT OF PRACTICAL
TREATMENT**

IF SWALLOWED: Do not induce vomiting. Do not attempt to give anything by mouth to an unconscious person. Immediately seek medical attention.

IF INHALED: Remove to fresh air. If breathing has stopped or is difficult, administer artificial respiration or oxygen as indicated. Seek medical attention.

IF ON SKIN: Wash thoroughly with soap and water. Wash contaminated clothing before reuse.

IF IN EYES: Immediately flush with large amounts of water for 15 minutes. Immediately seek medical attention.

NET CONTENTS: 4,000 gallons (tanker)
55 gallons (drum)

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Contents for use only in pressure-treating wood products. Do not attempt to use without reading the Manual and having the necessary safety equipment. To be used only in vacuum pressure impregnation of wood products utilizing water solutions having concentrations ranging from 0.3 percent to 3.0 percent by weight. Impregnation procedures must rigidly adhere to the current specifications of Hickson Corporation and/or the American Wood Preservers' Association.

Processes used to apply copper azole formulations shall leave no visible surface deposits on the wood, as defined by AWWA Standard P5-96. Visible surface deposits means a surface residue or crystallization on the treated wood. Small isolated or infrequent spots of chemical on otherwise clean wood shall be allowed.

Pressure treatment of wood products with this copper azole wood preservative provides wood with protection against termites, ascomycetes, white rot, brown rot and dry rot.

STORAGE AND DISPOSAL: Store in a cool, dry and well-ventilated area. Keep in tightly closed containers. Store away from incompatible materials. Protect containers from physical damage. Observe all applicable local, state, federal guidelines for storage and disposal.

**HAZARDS TO HUMANS AND
DOMESTIC ANIMALS**

Harmful if swallowed, inhaled or absorbed through skin. Avoid breathing vapors, dust or spray mist. Avoid contact with eyes, skin or clothing. In case of contact, immediately flush eyes or skin with plenty of water. Get medical attention if irritation persists.

Good industrial hygiene practices, such as eye protection from dust, fumes or splashes, general or local exhaust ventilating, use of a full face respirator where needed, and washing hands with soap and water before eating, drinking or smoking, should be followed. Protective equipment, such as coveralls or aprons and gloves to prevent contamination of clothing and skin contact is recommended.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and wildlife. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to the discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of EPA.
