Hickson BX

08/31/1999

1/1

A Component for the Preparation of Hickson Wood Shield Wood Preservative
For Industrial Use Only

INGREDIENTS:

Active Ingredients:

Borax 100%

KEEP OUT OF REACH OF CHILDREN

CAUTION

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: If amounts greater than one teaspoon are swallowed, give two glasses of water and seek medical attention.

IF INHALED: No specific treatment is necessary since boric acid is not likely to be hazardous by inhalation. Prolonged exposure to dust levels in excess of regulatory limits should always be avoided.

IF ON SKIN: Wash thoroughly with soap and water. Wash contaminated clothing before reuse.

IF IN EYES: Immediately flush with large amounts of water for 15 minutes. Seek medical attention if irritation persists.

NET CONTENTS: 100 pounds To be used only with Hickson BA and water to formulate treating solutions of Hickson Wood Shield.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Contents for use only in pressure-treating wood products. To be used only in vacuum pressure impregnation of wood products utilizing vacuum solutions and Hickson BA having concentrations of Hickson BA and BX ranging from 1.5 percent to 3.0 percent by weight. Impregnation procedures must rigidly adhere to the current specifications of Hickson Corporation and/or the American Wood Preservers' Association.

Processes used to apply Hickson BX formulations shall leave no visible surface deposits on the wood. Visible surface deposits means a surface residue or crystallization on the treated wood. Small isolated or infrequent spots of chemical on otherwise clean wood shall be allowed.

Pressure treatment of wood products with this borax wood preservative provides wood with protection against termites, ascomycetes, white rot, brown rot and dry rot.

STORAGE AND DISPOSAL: Do not contaminate water, food, or feed by storage or disposal. Store in a cool, dry and well-ventilated area. Keep in tightly closed containers. Store away from incompatible materials. Protect containers from physical damage. Observe all applicable local, state, federal guidelines for storage and disposal.

Harmful if swallowed, inhaled or absorbed through skin. Avoid breathing vapors, dust or spray mist. Avoid contact with eyes, skin or clothing. In case of contact, immediately flush eyes or skin with plenty of water. Get medical attention if irritation persists.

Good industrial hygiene practices, such as eye protection from dust, fumes or splashes, general or local exhaust ventilating, use of a full face respirator where needed, and washing hands with soap and water before eating, drinking or smoking, should be followed. Protective equipment, such as coveralls or aprons and gloves to prevent contamination of clothing and skin contact is recommended.

ENVIRONMENTAL HAZARDS: Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to the discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of EPA.

EPA Registration No.: 62190-20
