

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER**

Corrosive. Causes irreversible eye damage or skin burns. Fatal if inhaled, absorbed through skin or swallowed. Do not get in eyes, on skin or on clothing. Do not breath spray mist. Remove contaminated clothing and wash clothing before reuse. Vapors may cause injury if adequate ventilation is not ensured. Use only with adequate engineering control and ventilation where dust, mist, spray and hazardous by-product may be generated.

GENERAL PRECAUTIONS AND RESTRICTIONS:

Prolonged or repeated breathing may cause ulceration or perforation of nasal membranes. Can cause cancer. Risk of cancer depends on duration and level of exposure.

GENERAL INFORMATION:

Strong oxidizing agent, even in solution. Avoid contact with organic materials, oils, greases, or any easily oxidizable materials.

DIRECTIONS FOR USE:

It is a violation of federal law to use this product in a manner inconsistent with its labeling. This technical grade product is intended for manufacturing use only in the formulation of end-use products intended as fungicides, insecticides, and miticides for wood preservation.

PERSONAL PROTECTIVE EQUIPMENT:

- Applicators and other handlers must wear:
- Coveralls over long-sleeved shirt and long pants,
 - Socks and chemical resistant footwear,
 - Goggles or face shield,
 - Chemical-resistant gloves (such as: Barrier Laminate or Viton),
 - A NIOSH-approved respirator with a HEPA cartridge such as P-100

User Safety Requirements and Recommendations:

Discard clothing or other absorbent materials that have been drenched or heavily contaminated with this product's concentrate. Do not reuse them. Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions exist for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.

Users should remove clothing immediately if pesticide gets inside. Wash clothing thoroughly and put on clean clothing.

User should remove personnel protective equipment immediately after handling this product. Wash outside of gloves before removing. As soon as possible wash thoroughly.

EPA Registration No.: 62190-21
Establishment No.: 62190-GA-001

Net Contents:

ACCEPTED

JUN 24 2003

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide, registered under EPA Reg. No. 62190-21

Restricted Use Pesticide
DUE TO ACUTE TOXICITY AND BECAUSE THIS PRODUCT CONTAINS CHROMIUM COMPOUNDS SOME TYPES OF WHICH HAVE BEEN ASSOCIATED WITH TUMOR DEVELOPMENT IN HUMANS
For retail sale to and use only by certified applicators or persons under their direct supervision and only for those uses covered by the certified applicator certification.

FIRST AID

IF IN EYES:

- Hold eye open and rinse slowly and gently with water for 15-20 minutes forcibly holding lids apart to ensure complete irrigation of all eyes and lid tissue.
- Wash eye within one (1) minute is essential to achieve maximum effectiveness.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing the eye.
- Call a poison control center or doctor for treatment advice.

IF ON SKIN or CLOTHING:

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Discard footwear, which cannot be decontaminated.
- Call poison control center or doctor for treatment advice.

IF INHALED:

- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferable mouth-to-mouth if possible.
- Call a poison control center or doctor for further treatment advice.

IF SWALLOWED:

- Call a poison control center or doctor immediately for treatment advice.
- Have person sip a large glass of water, (if available, give several glasses of milk) if able to swallow.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Accident victims should be given 5-10 gm ascorbic acid (not effervescent tablets) dissolved in water. This dose can be repeated several times.
- Do not give anything by mouth to an unconscious person.

See side panel for additional precautionary statement

Have the MSDS or label with you when calling a poison control center or doctor, or going for treatment.

FOR MEDICAL EMERGENCIES: 800-837-0496 (24 hours a day)
Outside USA: 404-616-9000

"NOTE TO PHYSICIAN": Massive overexposure to solutions of this product could lead to kidney failure and death. Death has been avoided in such cases through the use of early renal dialysis. It has been reported that there is little value from chelating agents. However, ascorbic acid administered intravenously is effective antidote in preventing renal failure. Skin ulcers may be treated by removal from exposure, daily cleansing debridement, and application cream and dressing.

IN CASE OF FIRE:

Under fire conditions, decomposing materials may form a hot viscous foam. Self-contained breathing apparatus should be worn by fire fighters in areas where this product is stored. Product is not combustible. Water fog, dry chemical or carbon dioxide may be used in areas where product is stored.

ENVIRONMENTAL HAZARDS:

This pesticide is hazardous to fish and aquatic organisms. Do not discharge this effluent containing product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollution Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product into sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board of Regional Office of EPA.

STORAGE AND DISPOSAL:

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Do not store in close proximity to combustible materials. Store in tightly closed containers away from sources of heat.

PESTICIDE SPILLS: Follow precautionary statements. Stop leaks. Contain spill by diking. Remove as much material as possible and place in a closed, labeled container for reuse or disposal at an approved chemical waste disposal facility. Treat spill area with a reducing agent (e.g. sodium bisulfite, sodium sulfite, ferrous sulfate or ferrous chloride), then neutralize with sodium bicarbonate, soda ash, or lime. Following neutralization, soak up with inert absorbent material (e.g. sand), place in a closed, labeled container and remove to an approved chemical waste disposal facility. Never flush to sewer. Report spills as appropriate to Federal, State and local authorities.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance. The preferred disposal method is chemical treatment (reduction and neutralization) in accordance with Federal, State and local regulations.

CONTAINER DISPOSAL: Metal containers: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by State and local authorities.

WARRANTY: We warrant this material to comply with our published specifications and to be of good merchantable quality and such as will regularly pass in the trade for goods within the description, and further warrant it to be fit for the normal purposes for which such goods are used. We assume no responsibility that is material is fit for any particular purpose outside the general purposes of goods of the description.
