| NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.   |  |                                 |
| On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.<br><br>A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.<br><br>Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others. This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:   |  |                                 |
| <ol style="list-style-type: none"> <li>1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.</li> <li>2. Make the labeling changes listed below before you release the product for shipment:           <ol style="list-style-type: none"> <li>a. Add the phrase "EPA Registration No. 62296-1."</li> <li>b. Revise the statement on the front panel of the label "Hospital Grade and Tuberculocidal Metal Salon Disinfectant" to read: "Hospital and Tuberculocidal Salon Disinfectant".</li> <li>c. Add the following ingestion instructions to the Statement of Practical Treatment (on the front panel): "If swallowed drink large quantities of water. Do not induce vomiting."</li> <li>d. On page 2, revise "hospital grade ... disinfectant" to read: "hospital ... disinfectant". (Terms such as hospital grade and hospital strength imply a higher level of efficacy than this product actually contains and in this case would be considered a false and/or misleading statement.)</li> </ol> </li> </ol> |  |                                 |
| <input type="checkbox"/> ATTACHMENT IS APPLICABLE  |  |                                 |
| SIGNATURE OF APPROVING OFFICIAL  |  | DATE<br>DEC 13 1996             |

e. Delete the terms "and infection" from the sentence in the top paragraph of page 2, "It provides broad spectrum protection ...". (Claims such as "prevents infections", "controls infection", "prevents cross-infection" or efficacy claims against specific diseases, infections or pathological conditions are unacceptable for antimicrobial pesticides used in or on the inanimate environment.)

f. On page 3, under the heading "For Hospital and Dental Office Use", remove all claims for disinfection of thermometers, surgical and dental instruments as per PR Notice 94-4.

g. Revise the paragraph on page 3 of the label which begins "This product is not to be used ..." in the following manner: "This product is not to be used as a terminal sterilant/high-level disinfectant on any surface or instrument that (1) is introduced with the bloodstream or normal sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection."

h. Include the special use directions necessary for product labels which bear claims against HIV. Refer to the "Special Directions For Use" enclosure for a further description of labeling guidelines for antimicrobial bearing HIV-AIDS virucidal claims.

3. Submit one copy of your final printed labeling before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely,

*Robert Tronaglino for*

THE PERFECT BLEND OF BEAUTY AND SCIENCE

**Manufactured by:** RBR Productions Inc.

P.O. Box 3599 Teaneck, NJ 07666

800-247-4130 (outside NJ) 201-313-5700 (in NJ)

EPA Reg. No. 062296-

EPA Est. No.

**ACCEPTED**  
with **COMMENTS**  
in EPA Letter Dated:

**DEC 13 1996**

Under the Federal Insecticide,  
Fungicide, and Rodenticide Act as  
amended, this pesticide  
is registered under EPA Reg. No.

062296-1

g:\rbr\10796.lbl

FOR INSTRUMENT DISINFECTION - After cleaning instruments, place articles in Let's Touch solution for ten minutes. NOTE: Articles must be fully submerged in solution at all times.

FOR METAL INSTRUMENT STORAGE - A solution of one part Let's Touch to 32 parts of cold water (see table above) does not rust or dull, and does not stain or otherwise attack metal instruments such as quality salon shears, manicurist and skin care implements. The solution may be used for prolonged (overnight) storage of all but non metal instruments, plastic or rubber items.

LET'S TOUCH IS A COMPLETE PRODUCT. DO NOT MIX WITH OTHER CHEMICALS. Use only as directed. If frozen, thaw and remix before use.

Let's Touch is recommended for use in salons, hospitals, dental offices or other facilities requiring disinfection of metal instruments.

FOR HOSPITAL AND DENTAL OFFICE USE - Let's Touch is a concentrated disinfectant to be used at a 1:32 dilution with water for cold decontamination/disinfection of pre-cleaned equipment, thermometers, surgical and dental instruments. For disinfection, immerse instruments for 10 minutes.

This product is not to be used as a terminal sterilant/high level disinfectant that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. These surfaces should be sterilized or high-level disinfected as appropriate in separate subsequent steps.

The 1:32 dilution kills pathogenic bacteria and fungi such as S. aureus, S. choleraesuis, Ps. aeruginosa, M. tuberculosis (effective in 10 minutes at 20° C), and C. Albicans. Let's Touch is virucidal against Influenza A2 (Hong Kong), Herpes Simplex 1 and 2, Type 2 Adenovirus and Vaccina on hard, inanimate surfaces in 10 minutes at 20° C.

Minimum use Dilution Confirmation (A.O.A.C.-10 Min.- 20° C) S. choleraesuis 1:32, S. aureus 1:32, Ps. aeruginosa-1:32

A 1:32 dilution is effective against M. tuberculosis on hard, inanimate surfaces in 10 minutes at 20 C. Remove heavy soil or gross filth and thoroughly clean surfaces.

When tested by the EPA-approved Dilution Method the HIV-1 (AIDS) virus was completely inactivated by a 1:32 solution in 10 minutes at 25° C.

**PRECAUTIONARY STATEMENTS  
HAZARD TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION:** Harmful if swallowed. Avoid prolonged skin contact and avoid splashing in eyes. Wash eyes with large amounts of flowing water if exposed.

**STORAGE AND DISPOSAL**

**Prohibitions:** Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited. Do not reuse empty container.

**Pesticide Disposal:** This germicide, its solutions or rinsing from empty containers should be disposed of in a toilet or service sink served by a sanitary sewer or in a landfill approved for pesticides.

**Container Disposal:** Triple rinse and deposit in a waste container for incineration or burial in a landfill approved for pesticide containers.

**General:** Consult federal, state or local disposal authorities for approved alternative procedures such as limited open burning.
