NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit/else all data required for registration/re-registration of your product under FIFRA section 3(c)(5) or 4(a) when the Agency requires all registrants of similar products to submit such data.

2. Make the labeling changes listed below before you receive the product for shipment:

- a. Add the phrase "EPA Registration No. 62337-2."
- b. Delete the broad reference "... and other bad guys." If you intend specificity for additional insect pests, name them.
- c. On the Blister Card, delete the two references to "Laboratory tests prove nothing works better or lasts longer." This is inconsistent with pesticide labeling regulations at 40 CFR 156.10(a)(5)(ii) and (iv).

Correct the discrepancy between the Confidential Statement of Formula and the data matrix concerning the flashpoint.
