OFFICE OF
PREVENTION, PESTICIDES AND
TOXIC SUBSTANCES

Mr. John Paulson
Trinity Manufacturing Inc.
11 EV Hogan Drive
P.O. Box 1519
Hamlet, NC 28345

AUG 20 2008

Dear Mr. Paulson:

Subject: Chloropicrin Technical
EPA Reg. No. 62341-15
Your Submission of March 10, 2008

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is acceptable. A stamped copy of the label is enclosed for your records. Submit one copy of the final printed label before you release the product for shipment.

Sincerely yours,

A handwritten signature in cursive script, appearing to read "Mary L. Waller".

TECHNICAL CHLOROPICRIN

ACTIVE INGREDIENT: Chloropicrin	99.4%
OTHER INGREDIENTS:	0.6%
TOTAL:	100.0%

KEEP OUT OF REACH OF CHILDREN

DANGER

PELIGRO

POISON

**SEND FOR A DOCTOR IMMEDIATELY
IN CASE OF EXPOSURE.**

FIRST AID

IF INHALED: Remove victim to fresh air immediately. Keep victim lying down and warm. Give artificial respiration if breathing has stopped. Call Physician immediately.

IF ON SKIN: Remove all contaminated clothing and shoes immediately. Wash exposed areas thoroughly with soap and water. If a rash or blister develops, get medical attention. Clean or launder contaminated clothing before re-use. Do not re-use clothing or shoes until free of chemical odor.

IF IN EYES: Flush with running water for at least 15 minutes. Get medical attention promptly.

See side panel for additional precautionary statements.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS:

DANGER

**POISONOUS LIQUID AND VAPOR.
CONTACT WITH LIQUID MAY PRODUCE BURNS.
DO NOT BREATHE VAPOR.
DO NOT GET IN EYES, ON SKIN, OR CLOTHING.**

WASH ALL CONTAMINATED CLOTHING WITH SOAP AND WATER BEFORE RE-USE. DO NOT RE-USE CONTAMINATED CLOTHING OR SHOES UNTIL FREE OF CHEMICAL ODOR. THIS FUMIGANT IS A HIGHLY HAZARDOUS MATERIAL AND MUST BE HANDLED WITH CARE ONLY BY THOSE INDIVIDUALS EXPERIENCED WITH ITS PROPER USE. CONSULT YOUR DEALER REPRESENTATIVE FOR CORRECT PROCEDURE. BEFORE USING, READ AND FOLLOW ALL LABEL DIRECTIONS AND PRODUCT LITERATURE SPECIFIC TO YOUR PARTICULAR REQUIREMENTS. THIS FUMIGANT HAS THE CAPACITY TO CAUSE MARKED IRRITATION TO THE UPPER RESPIRATORY TRACT, AND IS A STRONG LACHRYMATOR (TEAR PRODUCING EYE IRRITANT). LOW CONCENTRATIONS, BELOW THOSE NECESSARY TO CAUSE SERIOUS SYSTEMIC INTOXICATION, ARE CAPABLE OF CAUSING SEVERELY PAINFUL EYE IRRITATION, HENCE WILL NOT BE VOLUNTARILY TOLERATED. HOWEVER, THE EFFECT MAY BE SO POWERFUL THAT A PERSON MAY BECOME TEMPORARILY BLINDED AND PANIC-STRICKEN AND THAT IN TURN MAY LEAD TO ACCIDENTS.

RESPIRATORY EXPOSURE

RESPIRATORY PROTECTION: Do not breathe fumes. Because of the lachrymatory action of this fumigant, it will serve as its own identifying agent to help prevent over-exposure. However, if vapor exposure may occur in a confined space, a full face gas mask with an air supply (tank or airline) is recommended. Read and follow the gas mask manufacturers' recommendations. A full face gas mask with a fresh block canister meeting N.I.O.S.H. specifications for organic vapors can also be used under certain circumstances where the vapor concentration is known to be under 2% by volume (5 lb. per 1000 cu. ft.). Canisters should be used for no more than that period recommended by the manufacturer. Destroy used canisters by crushing. Chloropicrin must not be depended upon as an

identifying agent when a canister gas mask is used.

EYE EXPOSURE

Wear safety glasses when working with this fumigant. Exposure of eyes to splashing liquid fumigant may render an individual helpless. In case of eye exposure, flush eyes with clean water.

SKIN EXPOSURE

Do not spill. If liquid fumigant splashed or spills on shoes or clothing, remove them at once, as fumes from the contaminated area will be an intolerable source of irritation. If liquid contacts skin where rings or bandages are worn; remove them and wash exposed skin with soap and water. Air expose shoes or clothing outside and do not wear until free of all traces of fumigant. Always have adequate clean water available to wash skin.

ENVIRONMENTAL HAZARD

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollution Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

CHEMICAL HAZARD

Do not use containers or application equipment made of magnesium, aluminum or their alloys, as under certain conditions this fumigant may be severely corrosive to such metals. Do not permit water to be used to clean fumigant pressure system as corrosion will result. Diesel oil is satisfactory for this purpose.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

STORAGE:

Store in a cool, dry, well-ventilated area under lock and key. Post as a pesticide storage area. Do not contaminate water, food, or feed by storage or disposal. Persons moving or handling containers should wear protective clothing. Open container only in a well-ventilated area wearing protective clothing, and respiratory protection if necessary.

RETURN OF CYLINDERS: Cylinders are the property of:

Trinity Manufacturing, Inc.
11 E. V. Hogan Drive
Hamlet, NC 28345

and should be returned promptly by collect auto freight.

1. When a cylinder is empty, the valve should be closed, the safety cap screwed onto the valve outlet, and the protection bonnet replaced prior to its return to the shipper.
2. Do not ship cylinders without safety caps or valve protection bonnets.
3. When a cylinder is partially full and there is no further requirement for the product, contact Trinity Manufacturing, Inc. for return instructions.
4. Containers should never be refilled by the consumer or used for any other product or purpose.

Refillable container. Refill this container with Chloropicrin only. Do not reuse this container for any other purpose.

Cleaning the container before final disposal is the responsibility of the person disposing of the container. Cleaning before refilling is the responsibility of the refiller.

To clean the container before final disposal Trinity Manufacturing, Inc., shall follow and document internal Standard Operating Procedures for the cleaning of rail cars and pressure cylinders.

SHIPPING:

This fumigant is classified in the U.S. Department of Transportation Hazardous Materials Regulations as Chloropicrin, 6.1 UN 1580, PG 1, Poison-Inhalation Hazard, Hazard Zone B and no exemptions from specifications, packaging, marking, and labeling are allowed. Describe empty cylinders as having last contained Chloropicrin, 6.1 UN 1580, PG 1, Poison-Inhalation Hazard, Hazard Zone B. Do not ship with food, feed, or clothing.

HANDLING:

1. The valve protection bonnet and safety cap should be removed only when fumigant is about to be removed from the cylinder. The safety cap and valve protection bonnet must be replaced when the cylinder is not in use.
2. Cylinders should never be subjected to rough handling or to abnormal mechanical shock such as dropping, bumping, dragging or sliding.
3. Ropes, slings, hooks, tongs, and similar handling devices should not be used for unloading cylinders.
4. A suitable hand truck, fork truck or similar device to which the cylinders can be firmly secured should be used for transporting the heavier cylinders.

SPILL OR LEAK PROCEDURE:

Evacuate immediate area of spill or leak. Use SCBA combination air-supplied SCBA respirator, or approved canister respirator for entry into affected area to correct problem. Move leaking or damaged containers outdoors or to an isolated location observing strict safety precautions. Work upwind if possible. Allow spilled material to evaporate, or to absorb into vermiculite, dry sand, earth, or similar absorbent material which may be disposed of on site, or at an approved disposal facility. Do not permit entry into spill area or cleanup by unprotected persons until concentration of chloropicrin is determined to be less than 0.1 ppm.

DISPOSAL:

Do not contaminate water, food, or feed by storage or disposal. Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If those wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest E.P.A. Regional Office for guidance.

4/4

**FOR MANUFACTURING
PESTICIDE FORMULATIONS**

This product may only be used for the manufacture of pesticide formulations for preplant soil fumigation of terrestrial food crops, ornamentals and nursery beds; and for greenhouse preplant soil fumigation of food crops, ornamentals and nursery beds.

Reformulators and repackagers of this product must obtain their own registration from the Environmental Protection Agency.

WARRANTY

NOTICE: Seller warrants that this product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE, express or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to Seller, and Buyer assumes the risk of any such use.
