

OFFICE OF CHEMICAL SAFETY AND POLLUTION PREVENTION

WASHINGTON, D.C. 20460

November 26, 2025

Amanda Slack
Sr. Analyst, Regulatory Affairs,
Miracle-Gro Lawn Products, Inc.
14111 Scottslawn Rd
Marysville, OH 43041

Subject: PRIA Label and CSF Amendment – Revise the Basic and Alternate A CSFs and add
new Alternate B CSF with new product chemistry data
Registration Review Label Amendment – Incorporating Mitigation Measures
from the Registration Review Interim Decision for Trifluralin
Product Name: Miracle-Gro Garden Weed Preventer
EPA Registration Number: 62355-5
Application Dates: August 16, 2024; February 20, 2020
Case Numbers: 626212; 482437

Dear Amanda Slack:

The amended label and Confidential Statements of Formula (CSFs) referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, are acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

The Agency, in accordance with FIFRA, as amended, has completed reviewing all the information submitted with your application to support the Registration Review of the above referenced product in connection with the Trifluralin Interim Decision. The Agency has concluded that your submission is acceptable.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. *The next label printing of this product must use this labeling unless subsequent changes have been approved.* You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 12 months from the date of this letter. After 12 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. “To

distribute or sell” is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Please note that the record for this product currently contains the following CSFs:

- Basic CSF dated 11/22/2024
- Alternate CSF A dated 11/22/2024
- Alternate CSF B dated 11/22/2024

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6.

If you have any questions, please contact Endia Blunt at blunt.endia@epa.gov or at 202-566-2505.

Sincerely,

A handwritten signature in black ink, appearing to read "Mindy Ondish".

Mindy Ondish, Product Manager 23
Herbicide Branch, Registration Division (7505T)
Office of Pesticide Programs

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Not for use on plants being grown for sale or other commercial use as sod, or for commercial seed production, or for research purposes. For use on plants grown in ornamental gardens and home vegetable gardens.

Entry Restrictions: Do not allow people or pets to enter the treated area until dusts have settled. If watering-in is required after application, do not enter or allow others to enter the treated areas (except those involved in the watering) until the watering-in is complete and the surface is dry.

Application Restrictions: Do not apply this product in a way that will contact any person or pet, either directly or through drift. Keep people and pets out of the area during application.

Use spreader in garden beds only. Do not use Miracle-Gro® Garden Weed Preventer® on lawns. Never use when planting seed except for the vegetables listed. Do not use with flower seeds. Do not apply to Ajuga, Myrtle or Pachysandra as injury may result.

This product must be soil-incorporated within 24 hours of application either by mechanical incorporation or at least 0.5 acre inch of water (rainfall, irrigation).

When and How to Apply for flowers, trees, groundcovers and shrubs:

This product prevents weeds from germinating. It does not kill existing weeds. If you have visible weeds, remove them first then rake the soil surface level prior to application. Avoid over-application to prevent carryover problems with sensitive plants the following season. Do not use in enclosed areas such as greenhouses.

For Established Plant Application (for listed flowers, groundcovers, trees and shrubs):

When to apply: Apply anytime during the growing season. Reapply every 3 months. Do not reapply sooner than 60 days after application.

How to apply: Sprinkle around established plants at a rate of 1 oz per 10 sq. ft, rake into the top 1-3 inches of the soil and water lightly to establish the weed barrier (to match Example A)

It is important to keep the product off of the plant leaves. If product is applied to the plant leaves, wash the leaf surface immediately.

Note: Established plants are those that have been planted for more than 2 weeks.

Miracle-Gro® Garden Weed Preventer® Prevents the Following Weeds [From Germinating]: [Grass Weeds:] Annual Bluegrass, Barnyard Grass (Watergrass), Brachiaria, Bromegrass, Cheat, Crabgrass, Fall Panicum, Foxtail, Goosegrass, Johnsongrass (from seed). Junglerice, Lovegrass, Sandbur, Signalgrass, Stinkgrass, Sprangletop, Texas Panicum, Wildcane and Woolly Cupgrass. [Broadleaf Weeds:] Carelessweed, Carpetweed, Common Chickweed, Florida Purslane (Pusley), Goosefoot, Knotweed, Kocchia, Lambsquarter, Pigweed (Spiny and Redroot), Purslane, Russian Thistle, Stinging Nettle.

Bulbs

When to apply: Apply 2-4 weeks after planting bulbs. This product may also be applied after bulb emergence. Reapply every 3 months.

How to apply: Sprinkle around bulbs at a rate of 1 oz per 10 sq. ft. and lightly water in.

For Pre-Planting Application

How to apply: Prior to transplanting 2-3" listed flowers, or less than 10 weeks prior to planting listed vegetable seeds apply to medium soil at a rate of 1 oz per 60 sq. ft. (use chart below for other soil type rates) to match Example B. Rake into the top 1-3 inches of soil.

Transplant. Do not apply after transplanting, except on Irish potatoes.

Application Rates for Mixing into Soil:			
Soil Texture	Light (Sandy)	Medium	Heavy (Clay)
[Use] 1 ounce per	80 sq. ft.	60 sq. ft.	40 sq. ft.
[Or] 1 lb. per	1,280 sq. ft.	960 sq. ft.	640 sq. ft.

For Use In Vegetable Gardens

Refer to the chart above for how much product to apply:

1. **From Seed:** Carrots, Celery, Okra, Southern or Cow Peas, Field Peas, Black-Eyed Peas, Green Peas, Lima Beans, Snap Beans, Broccoli, Brussel Sprouts, Cabbage, Cauliflower, Turnip Greens, Mustard Greens, Collard, Kale. **Treat prior to seeding** (up to 10 weeks prior). Lightly rake product into soil and sow vegetable seed. Lightly water.
2. **Before Transplanting:** Celery, Broccoli, Brussel Sprouts, Cabbage, Cauliflower, Peppers, Tomatoes. Make application to prepared soil and incorporate into the top 1 to 3 inches of the soil prior to transplanting (up to 10 weeks prior). Once soil is dry, transplant vegetables.

Bold, italicized text is information for reader and is not part of the label.

[Bracketed information is optional.] Text separated by / denotes and/or options.

3. **Post Emergent:** Cantaloupe, Cucumber, Watermelon. **Apply after plants have produced 3-4 true leaves.**
4. **Asparagus:** Established only. Apply after ferns are removed, but prior to spear emergence. Lightly mix product into soil with rake and water.
5. **Potato** (except Maine): May be applied after planting, before or after potato plant emergence. Use care not to damage seed pieces when mixing product into soil, nor to allow treated soil to contact emerged plant foliage.

In all cases, mix Miracle-Gro® Garden Weed Preventer® into the soil after application, using care not to damage emerged crops.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Keep container/bag closed and away from food, feedstuffs and domestic water supplies.

PESTICIDE DISPOSAL AND CONTAINER HANDLING:

If empty: Nonrefillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available.

If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

KEEP OUT OF REACH OF CHILDREN

CAUTION

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Caution: Causes moderate eye irritation. Avoid contact with eyes or clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Users should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Users should remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

FIRST AID

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling poison control center or doctor, or going for treatment. You may also contact 1-877-465-5161 [or insert alternate phone number] for emergency medical treatment information

ENVIRONMENTAL HAZARDS

This pesticide is extremely toxic to freshwater, marine and estuarine fish and aquatic invertebrates including shrimp and oyster. Do not apply directly to water. Do not contaminate water by disposing of equipment washwaters.

To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Sweeping any product that lands on a driveway, sidewalk, or street, back onto the treated area of the lawn or garden will help to prevent run off to water bodies or drainage systems.

PHYSICAL AND CHEMICAL HAZARDS

Do not mix or allow to come in contact with oxidizing agents, hazardous chemical reaction may occur.

Notice: To the extent consistent with applicable law, buyer assumes all risks of use, storage, or handling of this product not in accordance with directions.
