

It Works! It Repels!

Ants are attracted to the nectar on which hummingbirds feed.

As ants forage to seek the nectar, they enter into the patented AntGuard device. The inside contains a disk which repels ants. AntGuard is designed to keep rain off the repellent disk and to protect the nectar supply.

AntGuard™

And Other Nectar Feeders

CAUTION!

KEEP OUT OF REACH OF CHILDREN

See Side Panel for Additional Precautionary Statements

Active Ingredients in Protective Disk:

Permethrin 10.3%

Piperonyl Butoxide 13.0%

Inert Ingredients 76.7%

TOTAL 100.0%

(3-phenoxyphenyl) methyl (4-cis-trans-2,2-dichloroethenyl)-2,2-dimethylcyclopropanecarboxylate

with a cis/trans ratio as follows: Maximum 55% cis and minimum 45% trans, equivalent to permethrin

10.4% (butylcarbonyl) (5-propylpiperonyl) ether and 2.6% related compounds

EPA Reg. No. 62451-3 • EPA Est. No. 69518-0H-01

Net Wt. 32 Gr. • Contents: 1 Unit

(Protective disk 3 grams, plastic housing 29 grams)

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION

If you touch the protective disk, wash skin thoroughly with soap and water before eating or using tobacco.

Avoid contact of disk to feed and foodstuffs.

ENVIRONMENTAL HAZARDS

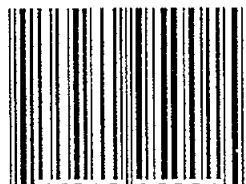

The active ingredients in this disk are toxic to fish.

Keep out of lakes, streams or ponds. Do not contaminate water by disposal of used AntGuard.

Use the product only as specified on this label.

STORAGE and DISPOSAL

Store AntGuard in original container. Store in cool, dry place. Do not store with food, drugs or personal contact items. When finished using, wrap device in paper and put in trash.

KEEP) ANTS
off nectar feeders!

Directions for use:
It is a violation of Federal law to use
this product in a manner inconsistent
with its labeling.

Installation: First clean your hummingbird feeder and add fresh nectar according to manufacturer's instructions. Next, remove AntGuard from the package and extend lower baffle (see illustration). Attach the AntGuard below the hanging hook and above the hummingbird feeder (see photo on opposite panel of package). AntGuard starts to work immediately; all ant activity should stop within 24 hours. Under normal conditions, AntGuard will give a full season of ant control.

Repellent disk is inaccessible
to feeding birds!

Feeder weight should not exceed 7 lbs.

NOTICE: Seller makes no warranty, expressed or implied, concerning the use of this product other than as indicated on this label. Buyer assumes all risk of use and/or handling of this device when such use and/or handling is contrary to label instructions.
