Washington, D.C. 20460</p> <p style="text-align: center;">NOTICE OF PESTICIDE: <u> x </u> Registration <u> </u> Reregistration <small>(under FIFRA, as amended)</small></p>	EPA Reg. Number 62451-7	Date of Issuance November 9, 2001
	Term of Issuance Conditional	
	Name of Pesticide Product: AntGuard Gaskets	
Name and Address of Registrant (include ZIP Code): LineGuard, Inc. P.O. Box 1020 Elyria, OH 44036		
<p>Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.</p> <p>On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.</p> <p>Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.</p> <p>This product is <u>conditionally</u> registered in accordance with FIFRA sec. 3(c)(7)(A), provided that you:</p> <ol style="list-style-type: none"> 1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4. 2. Make the following labeling changes: <ol style="list-style-type: none"> a) Revise the EPA Registration Number to read "EPA Reg. No. 62451-7" b) On your front panel, please change "6 to 9 months of control" to "6 to 9 months of control of ants and fire ants". 		
Signature of Approving Official <i>Nancy Lynn Keigwin</i> for George T. LaRocca		Date November 9, 2001

- c) Please revise your "Hazards to Humans and Domestic Animals" statement as follows:

CAUTION

Harmful if absorbed through skin. Avoid contact with skin, eyes or clothing. Wash thoroughly after handling and before eating, drinking or using tobacco. Do not open package until ready to use. Do not allow children to play with this product. Avoid contact of plastic to food and feedstuffs.

- d) The product you cited for toxicity purposes has a First Aid statement on the label. Accordingly, please add a First Aid statement to your label. It should read as follows:

FIRST AID

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.

HOT LINE NUMBER

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-xxx-xxxx for emergency medical treatment information.

- e) Under Directions for Use delete "Minimizes the use of insecticide sprays and dusting powders". Vague or non-specific terms implying unstated benefits related to the use of the product are unacceptable.
- f) Delete "Scout ants return to the nest and warn the other ants of the AntGuard". This claim is not supported by data.

- g) Delete "Keep out of lakes, streams or ponds".
- h) Revise your disposal statement in accordance with PR Notice 2001-6.
- i) Delete "...and other crawling insects" throughout the label. Pest claims are limited to ants.

The efficacy data you submitted has been approved and will support your product claims of 6 to 9 month control of ants and fire ants. The chemistry data and CSF that you submitted has also been approved. We will allow you to bridge the acute toxicity data from EPA Reg. No. 773-78 based on the similarity in composition of these two products, however you must amend your data matrix to reflect the acute toxicity studies from this product (contrary to your belief, data was submitted or cited when EPA Reg. No. 773-78 was registered).

- 3. Please submit two (2) copies of your final printed label for before your release the product for shipment. Please refer to the A-79 enclosure for a further description of final printed labeling. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product bearing amended labeling constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records.

If you have any questions regarding this action, please contact Tracy Keigwin of my team at (703) 305-6605.

Sincerely,

George T. LaRocca

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION
 Do not open package until ready to use. This product is intended for use as an insecticide generator and is not to be taken internally by man or animals. Do not allow children to play with this product. If you touch the plastic, wash skin thoroughly with soap and water before eating, drinking, or using tobacco. Avoid contact of plastic to feed and foodstuffs.

ENVIRONMENTAL HAZARDS
 The active ingredients are toxic to fish. Keep out of lakes, streams or ponds. Do not apply directly to water. Do not contaminate water by disposal of used AntGuard™ gaskets. Use the product only as specified on the label.

STORAGE AND DISPOSAL
 Do not contaminate water, food or feed by storage and disposal.
 Store AntGuard™ in cool, dry place in original container. Do not store with food or feed.
 When finished using, wrap device in newspaper and put in trash.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

- Helps guard from crawling insect infestations at points of entry
- Easy to install
- Minimizes the use of insecticide sprays and dusting powders
- Starts to work immediately

Ants are attracted to food, debris and low-frequency electronic noises. The AntGuard™ Gasket is impregnated with an insecticide that kills and repels ants. Scout ants return to their nest and warn the other ants of the AntGuard™. AntGuard™ Gaskets are designed to withstand the elements providing protection for six to nine months. AntGuard™ Gaskets can also provide a better seal for wall plates and flanges which eliminates drafts making buildings more energy efficient.

Electrical, phone, and television cable wall plates, as well as loose plumbing openings, are often the point of entry for unwanted ants and other crawling insects. When installed behind wall plates and flanges, the AntGuard™ Gasket kills and/or repels ants that could otherwise enter the room through wall plates.

To Install:

[For Home Use]

Select the AntGuard™ Gasket that matches your wall plate (i.e. outlet cover, switch plate cover, pipe flange, etc.). Do not open AntGuard™ Gasket package until ready to install. Remove wall plate. Do not touch electrical wiring or cables. Place gasket against back of wall plate, matching openings. [See illustrations]. The gasket should fit flush against the back side of the wall plate. Replace wall plate and tighten screw(s). When installed properly, you should not be able to see the AntGuard™ Gasket.

[ILLUSTRATION]

Replace every six to nine months for continuous control of ants. If you are replacing the AntGuard™ Gasket, the used gasket should be wrapped in newspaper and put in the trash.

[For Commercial/Professional Use]

Follow standard safety procedures when working with electrical outlets, switches or junction boxes.

AntGuard™ Gaskets are designed to fit snugly inside the wall plate, between the plate and the electrical box. Use the gasket that matches the wall plate (i.e. outlet cover, switch plate cover, flange, etc.). Do not open AntGuard™ Gasket package until ready to install. Remove wall plate. Place gasket against back of wall plate, matching openings. [See illustrations]. The gasket should fit flush against the back side of the wall plate. Replace wall plate and tighten screw(s). When installed properly, you should not be able to see the AntGuard™ Gasket.

[ILLUSTRATION]

AntGuard™ Gaskets prevent ants and other crawling insects from nesting in boxes, such as electrical, junction and telephone interface boxes. Choose the appropriate gasket that matches the electrical faceplate component or pipe flange. Gaskets should be placed where conduit, wires or cables enter box and/or at any other openings where ants and insects may enter. AntGuard™ Gaskets form a seal at the point of entry which prevents ants from entering unwanted areas and simultaneously kills them. Do not block required vents.

NOTICE

Seller makes no warranty, expressed or implied, concerning the use of this product other than as indicated on this label. Buyer assumes all risk or use and/ or handling of this device when such use and /or handling is contrary to label instructions.
