Directions For Use: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
Directions for Laundering and Fabric Care:

Pretreat Stains and Soils: For heavily soiled items a presoak rinsing is required. Stubborn stains may be soaked for 5 minutes in a solution of 1/4 cup bleach to 1 gallon of cool sudsy water.
Sort Laundry by Color and Fabric: Separate whites from colors, light colors from dark ones. Avoid bleaching wool, silk, mohair, leather, spandex, non-fast colors and flame retardant cotton fabrics.
Add Bleach and Detergent: Bleach may be added to the wash water before laundry is put in or, for best results, dilute with a quart of water and add 5 or 6 minutes after the wash cycle has begun. Use the recommended amount of

bleach. For heavily soiled items or very large loads, add slightly more.
Brightens Whites and Removes Stains that detergent alone cannot.
Deodorizes laundry and its odors.
Boosts Cold Water Cleaning Power to remove stains in cooler water.
Safe For Most Color-fast Washables: To check if garment is bleach-safe, try this **bleach-safe test:** Apply one drop of a test solution (1 tablespoon bleach plus 1/4 cup water) to a hidden part of the fabric. Check all colors including trim. Let stand 1 minute, then blot dry. No color change means the article can be safely bleached.

Directions for Other Household Use:

For Cleaning and Deodorizing bleach is highly effective for your bathroom and kitchen.
Toilet Bowls: Flush toilet. Pour 1/2 cup of bleach into bowl. Brush all surfaces thoroughly including under the rim. Let stand 10 minutes. Flush.
Bathtubs and Showers: Flush drain. Clean with a solution of 3/4 cup bleach

per gallon of warm sudsy water. Let stand 10 minutes. Rinse.
Kitchen Sinks: Cover sinks with 2/3 gallon of water, add 1/2 cup bleach. Let stand 10 minutes. Rinse.
Floors, Vinyl, Tile, Woodwork and Appliances: Clean with a solution of 3/4 cup bleach per gallon of sudsy water. Let stand 10 minutes. Rinse

Precautionary Statements

DANGER:

Hazards to humans and domestic animals: DANGER: Corrosive, may cause severe skin and eye irritation or chemical burns to broken skin. Causes eye damage. Wear safety glasses or goggles and rubber gloves when handling this product. Wash after handling. Avoid breathing vapors. Vacate poorly ventilated areas as soon as possible. Do not return until strong odors have dissipated.
Environmental Hazards: This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of EPA.
Physical and Chemical Hazards: STRONG OXIDIZING AGENT. Mix only with water according to label directions. Mixing this product with chemicals (e.g. ammonia, acids, detergents, etc.) or organic matter (e.g. urine, feces, etc.) will release chlorine gas which is irritating to eyes, lungs and mucous membranes.

Storage and Disposal:

Store this product in a cool dry area, away from direct sunlight and heat to avoid deterioration. In case of spill, flood areas with large quantities of water. Product or rinsates that cannot be used should be diluted with water before

disposal in a sanitary sewer. Do not reuse empty container but place in trash collection. Do not contaminate food or feed by storage, disposal or cleaning of equipment.
