

US ENVIRONMENTAL PROTECTION AGENCY
OFFICE OF PESTICIDES PROGRAMS
REGISTRATION DIVISION (75-767)
WASHINGTON, DC 20460

EPA REGISTRATION NO.

62498-1

DATE OF ISSUANCE

JUN 29 1995

TERM OF ISSUANCE

NOTICE OF PESTICIDE: REGISTRATION
 REREGISTRATION

(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

NAME OF PESTICIDE PRODUCT

Pool Pride Granular 62

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Pride Manufacturing
P.O. Box 91
La Rose, IL 61541

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Document, EPA has reregistered the above named product subject to the comments recorded in the succeeding paragraph. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

Make the following labeling changes before you release the product for shipment:

1. Revise the Precautionary Statements and Statement of Practical Treatment in accordance with Attachment A for Batch 26 products.
2. The signal word "Danger" must be placed under "Keep Out of the Reach of Children" on the front panel.
3. On the front panel revise "Net Weight 50#" to read "Net Weight 50 lbs."

ATTACHMENT IS APPLICABLE

SIGNATURE OF APPROVING OFFICIAL

DATE

1986

4. Revise the Environmental Hazards to read as follows:

"This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge.

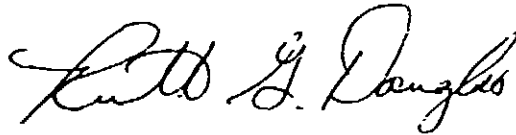

Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA".

5. Under the "Storage and Disposal Statement" delete the second paragraph "This product is toxic...".

A stamped copy of the product label is enclosed for your records.

Submit one copy of the final printed labeling before releasing the product in channels of trade with the revised labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

DANGER:
PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC
ANIMALS. DANGER. CORROSIVE.

Causes eye and skin damage. May be fatal if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Use only clean dry equipment. Irritating to nose and throat. Avoid breathing dust or fumes. Remove and wash contaminated clothing before use.

FIRST AID - STATEMENT OF PRACTICAL TREATMENT. IF SWALLOWED: Feed large amounts of water. Do not induce vomiting. Call a physician immediately. IF ON SKIN: Brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention. IF IN EYES: Flush with cold water for at least 15 minutes. Get immediate medical attention. IF INHALED: Remove person to fresh air. Get immediate medical attention.

ENVIRONMENTAL HAZARDS. This product is toxic to fish. Do not discharge into lakes, streams, ponds or public water unless in accordance with a NPDES permit. For guidance, contact the regional office of EPA.

PHYSICAL AND CHEMICAL HAZARDS: Strong oxidizing agent. Mix only with water. Use clean, dry utensils and equipment. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire and explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, hazardous gases and possible fire and explosion. In case of contamination or decomposition, do not reseal container. If necessary, flood with large volumes of water.

SPILL: Sweep up and while providing adequate ventilation, flush away by flooding with water.

IN CASE OF FIRE: Use water spray to cool containers exposed to heat and flood with water to dilute material. Noxious fumes can be formed. Wear full protective clothing and self-contained breathing apparatus.

HOW TO CALCULATE POOL CAPACITY

506

SHAPE OF POOL	GAL. OF WATER (Dimensions in feet)
Rectangular	Average depth X average length X average width X 7.5
Circular	Diameter X diameter X average depth X 5.9
Oval with Straight sides	Full width X full length X average depth X 6.7
Irregular	Consult pool builder

STORAGE AND DISPOSAL

Keep product dry in tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. Keep contents and container dry and off wet floors. In case of decomposition isolate container, if possible, and flood with large amounts of water to dissolve all material before discarding. Triple rinse. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, by incineration or, if allowed by state and local authorities, by burning. If burned, stay out of smoke. Do not reuse container.

This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds, or public water. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

NOTICE TO BUYER

Seller warrants that this product conforms to the chemical description of the label and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use. This warranty does not extend to the use of this product contrary to label instructions, or under abnormal use conditions, or under conditions not reasonably foreseeable to Seller, and Buyer assumes the risk of any such use. Seller disclaims all other warranties, express or implied, including any warranty of FITNESS or MERCHANTABILITY.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

POOL PRIDE GRANULAR 62 contains a chlorinating compound which, when used as directed, will provide a stabilized chlorinating disinfection and algae control program. The filter system should be in proper working condition, with pH maintained between 7.2 and 7.6, total alkalinity between 100 and 150 ppm, and calcium hardness between 150 and 300 ppm.

Test regularly using a Pool Pride Test Kit. Bathers must not enter pool when chlorine residual is above 3 ppm. Chlorinating Concentrate can be broadcast directly into water. Predissolving is recommended (minimum 2 gallons of water per 1 lb. of product), for liner pools as chlorine may bleach liner.

FOR SWIMMING POOL:

1. Stabilize pool with Pool Pride Stabilizer. Follow directions for use on label of stabilizer. Omit if this has been done previously.
2. Check residual chlorine with a reliable test kit. If below 1.0 part per million (ppm), add 2 ounces of Pool Pride Granular 62 per 10,000 gallons. Repeat this dosage until a chlorine residual of 1.0-1.5 ppm has been established. Add product to water by broadcasting over pool surface, preferably at deep end.
3. Maintain residual chlorine. Add Pool Pride Granular 62 daily or as needed to maintain 1.0-1.5 ppm residual chlorine. (Two ozs. of Chlorinated Granules supplies 1.0 ppm chlorine to 10,000 gallons of water). Additional dosages may be required during exceptionally hot weather or when many people are using the pool.
4. Measure pH immediately and at least once each week with a reliable pool test kit. Adjust pH to 7.2-7.8, if necessary. pH can be decreased by adding Pool Pride pH Reducer or increased by adding Pool Pride pH Increaser. Follow directions for use on labels of these products.
5. At the end of the swimming pool season or when water is to be drained from the pool chlorine must be allowed to dissipate from treated pool water before discharge. Do not chlorinate within 24 hours prior to discharge.

DIRECTIONS FOR SPAS AND HOT TUBS: Pool Pride Granular 62 is designed to dissolve quickly and completely control the growth of algae and effectively kill many bacteria, thus helping to keep spas and hot tubs sanitary. Each half ounce of product will provide approximately 4 ppm available chlorine in 500 gallons of water. Do not allow cyanuric acid level to exceed 150 ppm. It is recommended that spas and hot tubs be drained every 30-90 days, more often under heavy use.

START-UP (FRESHLY FILLED): 1. Turn on the circulation system and ensure that it is operating properly. 2. Add one ounce Pool Pride Chlorinating Concentrate for each 500 gallons of water. Check the free available Chlorine (FAC) and, if below 4-5 ppm, repeat as needed.

REGULAR USE: 1. Turn on the circulation system and ensure that it is operating properly. 2. Scatter a half ounce of Pool Pride Granular 62 (per 500 gallons) over the surface of the water. Test for Free Available Chlorine and add additional product.

SHOCKING: It is a good practice to shock pool or hot tub each 2-4 weeks. To shock use Pool Pride Oxidizer. Read Oxidizer label for instructions. Close pool or spa. You may then resume use after 15 minutes.

RE-ENTRY INTO TREATED SWIMMING POOL IS PROHIBITED ABOVE LEVELS OF 3 PPM OF CHLORINE.

AVISO

- Los niños corren peligro de caerse dentro del balde y ahogarse.
- Mantener a los niños lejos de los baldes, incluso cuando sólo tengan una pequeña cantidad de líquido.
