**DIRECTIONS**

CROP	WEEDS	AMOUNT BOLERO 10 G PER ACRE	FURTHER USE INSTRUCTIONS
Rice (California Only)	Barnyardgrass (Watergrass) Sprangletop Smallflower Umbrellaplant	40 lbs	Apply after flooding when rice is in the expanded two-leaf stage (first open leaf). Do not apply if rice exhibit symptoms of stress. The variety Cal Pearl may react adversely to some stress conditions more than other varieties.  Barnyardgrass beyond the two-leaf stage and Smallflower Umbrellaplant beyond the three-leaf stage may not be controlled.  Smallflower Umbrellaplant must be submerged for optimum control. Cold weather during the planting season may result in decreased weed control due to prolonged period of wind seed germination.  California may require special water management practices to minimize off-site water movement of BOLERO residues, consult your State Department of Food and Agriculture or County Agricultural Commissioner for further information.  Precautions: Do not use in water, food or feed crops in treated fields when S-[(4-chlorophenyl)methyl] diethylcarbamothioate is present. Do not use in water, food or feed crops in treated fields when S-[(4-chlorophenyl)methyl] diethylcarbamothioate is present. Do not use in water, food or feed crops in treated fields when S-[(4-chlorophenyl)methyl] diethylcarbamothioate is present.
