

CAUTION - HAZARDOUS TO HUMANS

Active ingredients:	Endosulfan (endosulfan sulfate) 40.0	40.0
Inert ingredients:	(1-methoxyethyl)phenoxy-2-methylpropane	40.0
		<u>80.0</u>

CONTAINS METHYL CHLORIDE (METHYLENE CHLORIDE)

THIS PRODUCT IS FOR FURFURAL USE ONLY

Use in violation of Federal law to use this product on any other crop than that specified on the label.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Harmful if swallowed, inhaled, or absorbed through skin. Do not get in eyes or on skin or clothing. Wear goggles or face shield, coveralls or tightly woven long-sleeved shirt, and rubber gloves when handling. Avoid breathing vapor or spray mist. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

This product contains lactofen which has been determined to cause tumors in laboratory animals (rat, mouse). Risks can be reduced by closely following precautions and by wearing the protective clothing specified elsewhere on this label.

PRACTICAL TREATMENT

If in eyes, flush with plenty of water for at least 15 minutes. Get medical attention immediately.

If swallowed, DO NOT INDUCE VOMITING. Drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, large quantities of water. Avoid alcohol. Get medical attention immediately.

If on skin, wash with plenty of soap and water.

ENVIRONMENTAL HAZARDS

Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of waste.

Do not discharge effluent containing this product directly into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the Environmental Protection Agency.

Pesticide Information: Do not contain in water, food, or by steam or
disposal. Pesticides are toxic. Appropriate disposal of a herbicide or
spray mixture is required to avoid violation of Federal law. If there is a
spill or release, follow the use according to label instructions. For more
information, contact the Environmental Control Agency or the nearest state
representative of the Environmental Protection Agency Regional Office for guidance.

Container Disposal: Empty rinse containers. After use, for recycling or
reconditioning, or for disposal, contact EPA approved sanitary
landfill, or by incineration, if allowed by state and local authorities, by
burning. If burned, stay out of smoke.

SPILL OR LEAK PROCEDURES

Step to be taken if material is spilled or released.

Immediately evacuate the area. Produce maximum ventilation and eliminate all
sources of ignition and flammable material. Unprotected personnel should move
upwind of spill. Only personnel equipped with proper respiratory and skin/eye
protection should be in area. Take precautions to prevent
contamination of ground water and surface water. Recover spilled material or
absorbents, such as sawdust or vermiculite and sweep into plastic or metal
containers for disposal. After all visible traces and all vapors have been
removed, thoroughly wet vacuum the area. Do not flush to sewer. If area of
spill is porous, remove as much contaminated earth and gravel as necessary and
place in closed containers for disposal.

DIRECTIONS FOR USE

Lactofen Manufacturing Concentrate must be blended with appropriate EPA
approved solvents, emulsifiers and surfactants in the formulation of EPA
registered end use herbicides.
