DMA® 6 Weed Killer

DMA® 6

Active Ingredient(s):

Dimethylamine Salts of 2,4-Dichlorophenoxyacetic Acid† 66.8%
 Inert Ingredients 33.2%
 2,4-Dichlorophenoxyacetic Acid† Equivalent: 55.5% - 5.7 lb/gal
 † Isomer Specific by AOAC Method No. 6.275-6.279 (13th Ed.)
 E.P.A. Registration No. 464-151
 E.P.A. Est. 464-MI-1

KEEP OUT OF REACH OF CHILDREN

DANGER

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

A → **CORROSIVE • CAUSES EYE DAMAGE •
 HARMFUL IF SWALLOWED OR INHALED**

Do Not Get In Eyes, On Skin Or Clothing •

B → **Wear Goggles Or Face Shield, When
 Handling • Wash Thoroughly After Handling
 • Do Not Apply This Product In Such A
 Manner As To Directly Or Through Drift
 Expose Workers Or Other Persons • The
 Area Being Treated Must Be Vacated By
 Unprotected Persons**

STATEMENTS OF PRACTICAL TREATMENT: In case of eye contact, immediately flush eyes with plenty of water for at least 15 minutes. Call a physician. In case of skin contact, wash with soap and plenty of water. Remove and wash contaminated clothing before reuse. Discard contaminated shoes. If swallowed, induce vomiting immediately by giving two glasses of water and sticking finger down throat. Call a physician. Do not induce vomiting or give anything by mouth to an unconscious person.

Environmental Hazards

Do not contaminate water by cleaning of equipment or disposal of wastes. • Do not contaminate water used for irrigation or domestic purposes. • Do not apply directly to water except as specified for rice use.

PELIGRO:

PRECAUCION AL USUARIO:

Si usted no lee inglés, no use este producto hasta que la etiqueta le haya sido explicada ampliamente.

NOTICE

Read the entire label. Use only according to label directions.

Before buying or using this product, read "WARRANTY LIMITATIONS AND DISCLAIMER" on back panel. If terms are not acceptable, return unopened package at once to seller for full refund of purchase price paid. Otherwise, use by the buyer or any other user constitutes acceptance of the terms under "WARRANTY LIMITATIONS AND DISCLAIMER."

endangering life or property involving this product, call collect 517-636-4400

AGRICULTURAL CHEMICAL

Do Not Ship or Store with Food, Feeds, Drugs, or Clothing

WEED LIST: DMA® 6 weed killer is recommended for control of the following, in addition to many other broad-leaved weeds, without injury to most grasses: alligator weed, docks, fanweed, lamb's-quarters, mustards, peppergrass, pigweed, plantains, shepherd's-purse, tarweed, thistles, vetch, wild carrot, wild morning-glory, wild radish.

A - May be fatal if absorbed through skin

B - protective clothing and rubber gloves

C - **STATEMENT OF PRACTICAL TREATMENT:** If In Eyes: Flush with plenty of water for at least 15 minutes. Get medical attention. If Swallowed: Call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person. If On Skin: Wash with plenty of soap and water. Get medical attention.

BEST AVAILABLE COPY

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Local conditions may affect the use of herbicides. We believe the following instructions can be depended upon, but users are advised to consider recommendations of local agricultural experiment station and extension service weed control specialists regarding the quantity of water and of DMA 6 to be used.

GENERAL INFORMATION: The smaller doses are usually satisfactory for susceptible and young, tender and succulent weeds. For more resistant weeds and under conditions where control is difficult, use the higher dosages. Use the recommended quantity per acre of DMA 6 with enough water for uniform distribution.

To prepare the spray, first add one-half of the water to the tank, then add the DMA 6, stirring the mixture, and finally add the rest of the water with constant stirring. Apply when

weeds are tender and actively growing, using moderate pressure.

FOR ROADSIDES AND OTHER NON-CROP AREAS: Apply from 1 to 2 pints of DMA 6 per acre in a convenient amount of water so that the entire area can be sprayed uniformly with equipment available.

FOR CROPLAND USES consult table listing crops and other applicable information.

FOR RIGHTS-OF-WAY: For perennial broadleaf weeds and susceptible woody species, use up to 1 1/2 gal DMA 6 per acre. For difficult to control perennial broadleaf weeds and woody species, use up to 1 1/2 gal DMA 6 and 1 to 4 qts. GARLON® 3A herbicide per acre.

For ground application: (High volume) apply a total of 100 to 400 gal per acre; (low volume) apply a total of 20 to 100 gal per acre.

For helicopter: Apply a total of 10 to 30 gal per acre spray volume.

RECOMMENDED DOSAGES FOR CROPLAND

Crop	DMA 6 (amount per acre)	Liters per Hectare	When to Use	Gallons of Spray per Acre	Liters of Spray per Hectare	Remarks
Sugarcane	1 to 1 1/3 qt.	2.3 to 3.1	Pre-emergence†	30 to 50	280 to 470	Use lower rates on sandy soils. Clay soils may require higher rates.
	2/3 to 1 1/3 qt.	1.5 to 3.1	Post-emergence	30 to 50	280 to 470	Use as overall application when weeds are small. Apply in spring after sugarcane emerges and through lay-by.
	1 tablespoonful per gallon of spray	4cc per liter of spray	Spot Treatment	5 to 10	50 to 100	Apply as a directed spray, wetting weeds well.
Rice	1 to 1 2/3 pt.	1.2 to 1.9	Post-emergence	5 to 10	50 to 100	Apply when rice is in late tillering stage, before boot or panicle development. This is usually 4 to 8 weeks after emergence. When flooded, treat 7 to 9 weeks after seeding, when plants have emerged above water and leaves are standing erect. Do not apply after seed stalks have emerged.
Corn	2/3 to 1 1/3 qt.	1.5 to 3.1	Pre-emergence	10 to 20	100 to 200	Apply 3 to 5 days after planting but before corn emerges. Do not treat very light sandy soils.
	2/3 qt.	1.5	Emergence	5 to 10	50 to 100	Apply just as the seeding corn is breaking through the ground.
	2/3 pt.	0.75	Post-emergence	5 to 10	50 to 100	If corn plants are over 8 inches tall, use directed spray. Do not apply from tasselling to dough stage.
Grass Pastures	1 to 2 pt	1.2 to 2.3	Post-emergence	5 to 10	50 to 100	Most legumes including clover and newly seeded pasture may be severely damaged. Do not graze by dairy animals within 7 days after treatment.

† Best results from preemergence treatment are obtained when soil is well pulverized and in good seed bed condition.

USE PRECAUTIONS

Do not apply DMA 6 weed killer directly to, or otherwise permit it to come into contact with vegetables, flowers, grapes, fruit trees, ornamentals, papaya, cotton, or other desirable plants which are sensitive to 2,4-D and similar materials, and do not permit spray mist containing it to drift onto them, since even minute quantities of the spray may cause severe injury during both growing and dormant period. (Coarse sprays are less likely to drift.) Accordingly, applications by airplane, ground rigs and hand dispensers should be carried out only when there is no hazard from drift. Do not apply by airplane in the vicinity of cotton, grapes or other desirable 2,4-D susceptible vegetation. Do not contaminate irrigation ditches or water used for domestic purposes. Do not store near fertilizers, seeds, insecticides or fungicides. Excessive amounts of 2,4-Dichlorophenoxyacetic acid in the soil may temporarily inhibit seed germination or plant growth. To avoid injury to desirable plants, do not store, handle or apply other agricultural chemicals with the same containers or equipment used for DMA 6. Note: A tablespoon in two gallons of water is about equal to one pound of 2,4-D in 100 gallons of water.

Local conditions may affect the use of herbicides. State agricultural experiment station or extension service weed specialists in many states issue recommendations to fit local conditions.

Be sure that use of this product conforms to all applicable regulations.

REENTRY STATEMENT

Do not enter treated areas without protective clothing until sprays have dried. Because certain states may require more restrictive reentry intervals for various crops treated with this product, consult your State Department of Agriculture for further information. Written or oral warnings must be given to workers who are expected to be in a treated area or in an area about to be treated with this product. The front panel PRECAUTIONARY STATEMENTS should be read to workers as well as the instruction not to enter until sprays have dried. When oral warnings are given, warnings shall be given in a language customarily understood by workers. Oral warnings must be given if there is reason to believe that written warnings cannot be understood by workers. Written warnings must include the following information: "DANGER. Area treated with DMA 6 weed killer on (date of application). Do not enter without appropriate protective clothing until sprays have dried. (Insert here Statements of Practical Treatment as on front panel.)"

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Keep container tightly closed when not in use.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

WARRANTY LIMITATIONS AND DISCLAIMER

The Dow Chemical Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated on the label when used in strict accordance with the directions therein under normal conditions of use. THIS IS THE ONLY WARRANTY MADE ON THIS PRODUCT. NO OTHER EXPRESS AND NO IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE IS MADE OUTSIDE OF THIS LABEL. Therefore, neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use of this product contrary to label instructions (including conditions noted on the label, such as unfavorable temperatures, soil conditions, etc.), under abnormal conditions (such as excessive rainfall, drought, tornadoes, hurricanes, etc.) or under conditions not reasonably foreseeable to or beyond the control of seller.

When buyer or user suffers losses or damages resulting from the use or handling of this product (including claims based on contract, negligence, strict liability, or other legal theories), buyer or user must promptly notify in writing The Dow Chemical Company of any claims to be eligible to receive either remedy given below. The EXCLUSIVE REMEDY OF THE BUYER OR USER and the LIMIT OF LIABILITY of The Dow Chemical Company or any other seller will be one of the following, at the election of The Dow Chemical Company:

(1) Refund of purchase price paid by buyer or user for product bought, or

(2) Replacement of amount of product used

The seller will not be liable for consequential or incidental damages or losses.

The terms of this Limit of Warranty and Liability cannot be varied by any written or verbal statements or agreements. Any employee or sales agent of the seller is not authorized to vary or exceed the terms of this Warranty Limitations And Disclaimer in any manner.
