Subject: Telone® C-17
EPA Reg. No. 62719-12
August 13, 2010 Request to Amend Label

Dear Mr. Barnekow:

In the Agency letter of May 13, 2010, the Agency approved amended labeling for this registration with the condition that specific label revisions be made to the May 13, 2010 label stamped "Accepted with Comments". This letter further amends the May 13, 2010 letter and label stamped "Accepted with Comments" by requiring the following additional changes:

1. In the May 13, 2010 letter, comment number 18 is revised to read, "On page 17 under number 3, revise the eighth main bullet to read, 'Handlers can resume work activities if all of the following conditions exist provided that a full-face air-purifying respirator is worn:'"
2. In the May 13, 2010 accepted label, on page 16 under number 1, revise the sixth bullet and sub-bullets to read, "Handlers can remove full-face air-purifying respirators or resume work if all of the following conditions exist provided that a half-face air-purifying respirator is worn:
 - Two consecutive breathing zone samples for chloropicrin taken at the handling site at least 15 minutes apart must be less than 0.15 ppm,
 - Handlers do not experience sensory irritation, and
 - Air-purifying respirator cartridges have been changed."

The label associated with this change has been previously stamped "Accepted with Comments" and is dated May 13, 2010. Submit one copy of the final printed label that incorporates the required changes before the product is released for shipment. If you have any questions, please
