Tordon* K

EPA Reg. No. 62719-17

For "Chemical Mowing" On Non-Cropland Sites Infested With Annual And Perennial Broadleaf Weeds Or Woody Plants

ATTENTION

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This labeling must be in the possession of the user at the time of application.
- Read the label affixed to the container for Tordon K before applying. Carefully follow all precautionary statements and applicable use directions.
- Except as directed in this supplemental labeling, use of Tordon K according to this supplemental labeling is subject to all use precautions and limitations imposed by the label affixed to the container for Tordon K.

Directions for Use

Tordon* K herbicide may be applied to the cut surfaces of weed or brush stubble under the deck of a rotary mower such as the Lucas "64" System or other DowElanco approved equipment that is designed to uniformly apply the herbicide. This method of application may be used for control of annual and perennial broadleaf weeds and for suppression and stem density reduction of woody plants that occur on rights-of-way, airport grounds, petroleum tank farms or other industrial sites. Apply when growing conditions are favorable and there is active plant growth. Follow directions on the label for Tordon K for approved sites and weed species controlled or suppressed.

Application

Broadleaf Weed Control: Apply at labeled rates for Tordon K under the section "Broadleaf, Annual and Perennial Weed and Woody Vine Control". Apply the recommended rate in a minimum spray volume of 3 gallons per acre. Follow label recommendations for herbicides that may be applied in tank mix combination with Tordon K to improve weed control or broaden the spectrum of weeds controlled.

Woody Plant Control: For suppression and stem density reduction of woody species, use 2 to 4 pints of Tordon K in a minimum spray volume of 5 gallons per acre. Follow label recommendations for herbicides that may be applied in tank mix combination with Tordon K to improve woody plant control or broaden the spectrum of woody plants controlled.

Precautions: Read the label for Tordon K before applying. Carefully follow the "General Use Precautions" on the label for Tordon K for avoiding drift and damage to non-target plants.
