 JUL 23 1991
 Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, the pesticide registered at EPA Reg. No. 62719-35

Professional* Turf Insecticide (EPA Reg. No. 62719-35)

Professional Turf Insecticide For Treatment of Potted, Containerized, and Balled and Burlapped Nursery Stock

- This labeling must be in possession of the user at the time of pesticide application.
- Before using ProfessionalTurf Insecticide, read and carefully follow all applicable directions, precautionary information, statements of hazard, and "Warranty and Disclaimer" information to the label affixed to the product container.

Ornamentals (Soil Treatment)

Use Professional Turf Insecticide to treat potted, containerized, and balled and burlapped nursery stock to control the insects in the soil attached to the roots of these plants. Completely submerge the ball of soil in a tank containing diluted Professional Turf Insecticide. Do not remove burlap wrap or plastic containers with drain holes prior to submerging. Keep soil submerged until complete saturation has occurred, normally about 30 seconds.

Note: Wear chemically resistant gloves, boots, and apron during this operation. Application should be made in a well-ventilated area.

Note: Environmental factors significantly affect phytotoxicity. Professional Turf Insecticide has been tested on numerous ornamental plants without causing serious phytotoxicity. However, because of the numerous varieties grown, it is recommended that a small group of plants be treated at the recommended rate under the anticipated growing conditions and observed for phytotoxic symptoms for at least 7 days, before a large number of plants are treated.

Pest†	Amount of Professional Turf Insecticide In Water to Make:		Specific Directions
	1 gallon	100 gallons	
Fire Ants (1)	1/4 fl. oz.	4 fl. oz.	1. An alternate treatment to submerging potted plants is to dilute 4 oz. of Professional Turf Insecticide in 100 gals. of water. This dilution should be applied to the point of runoff on a twice-daily schedule for three consecutive days. Do not remove burlap wrap or container from plants prior to treatment.
Grubs Weevils	2/3 fl. oz.	2 qt.
