Control Numerous Pests of Households

Active Ingredient (s):

chlorpyrifos: O,O-diethyl O-(3,5,6-trichloro-2-pyridinyl) phosphorothioate.....	1%
Inert Ingredients.....	99%

E.P.A. Registration No. 62719-54
E.P.A. Est. No. _____ (subregistrant)

Keep Out Of Reach Of Children

CAUTION

Precautionary Statements

Hazards to Humans and Domestic Animals

May Be Harmful If Swallowed

Avoid contact with eyes, skin, or clothing. Wash thoroughly after handling. Wash contaminated clothing before reuse. Avoid breathing dust. Do not allow dust to contact food, feedstuffs, and water supplies. Thoroughly wash dishes and food handling utensils with soap and water if they become contaminated by application of this product. Do not allow children or pets to contact treated surfaces. Remove pets and cover fish bowls (tanks) before applying. Do not use in poultry houses or other animal buildings

First Aid

If On Skin: Wash with Plenty of soap and water. Get medical attention if irritation persists.

If In Eyes: Flush eyes with plenty of water for 5 minutes. Get medical attention if irritation persists.

If Swallowed: Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Do not give anything by mouth to an unconscious person. Get medical attention

Note to Physician: Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. If exposed, plasma and red blood cell cholinesterase tests may indicate significance of exposure (baseline data are useful). Atropine, only by injection, is the preferable antidote. Oximes, such as 2-PAM/protopam, may be therapeutic if used early; however, use only in conjunction with atropine. In case of severe acute poisoning, use antidote immediately after establishing an open airway and respiration.

Environmental Hazards

This product is highly toxic to bees exposed to direct treatment or residue on plants. Protective Information may be obtained from your Cooperative Agricultural Extension Service. Dursban 1-D is toxic to fish, birds, and other wildlife. Keep out of any body of water. Do not contaminate water when disposing of equipment washwaters.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not formulate this product into other end-use products.

Dursban 1-D insecticide is a ready-to-use insecticidal dust which controls pests as indicated below. Apply directly into cracks and crevices or other localized areas with a bulbous duster or other suitable equipment. The amount of Dursban 1-D to be applied will vary, but should usually be in the range of 1/3 to 2/3 ounces per square yard.

Application Within Residential Buildings Including Homes and Apartment Buildings and Within Non-Food Areas of Industrial, Institutional, and Commercial Buildings Including Hospitals, Stores Manufacturing Plants and Warehouses

For Spot Treatment Only: Apply as a light but uniform dust to localized areas where cockroaches, (including strains resistant to certain other insecticides), ants, clover mites, crickets, silverfish and spiders are found or normally occur including dark corners of rooms and closets; cracks and crevices in walls; along and behind baseboards; beneath and behind sinks, stoves, refrigerators and cabinets; around plumbing and other utility installations. For ants apply to ant trails, also around doors and windows and wherever else these pests may find entrance.

For Control of Carpet Beetles: Apply dust as a spot treatment along baseboards and edges of carpeting, under carpeting, rugs and furniture, in closets and on shelving, and wherever else these insects are seen or suspected.

For Control of Ticks and Fleas: Apply dust as a spot treatment to infested areas, nearby cracks and crevices, along and behind baseboards, window and door frames and localized areas of floor and floor covering where these pests may be present. For best results, old bedding should be cleaned or replaced. **Do not treat pets or their bedding with this product.** To control the source of flea infestations, pets inhabiting the treated premises should be treated with a product registered for application to animals.

Carpenter Ants: Apply dust around doors and windows and other places where ants enter premises and where they crawl or hide. Also force dust into cracks and crevices or through opening or small newly drilled holes into wall voids where ants and/or nests are present. Use a sufficient amount to lightly cover area surfaces.

Wasps, Bees and Hornets: Apply dust on nest and surrounding area. To treat nests in wall voids, drill a hole in the wall, blow in dust and reseal. Do not use this product to treat overhead nests.

DISPOSAL

Do not empty container. Securely wrap original container in several layers of newspaper and discard in trash.
